Lancelot Lv.100 ★★★★★ Rank : **R BP : **16085****

Master, I just don't understand you...Why did you try so hard to build me as your main monster...I am nothing but a monster for beginners. Just an R rank monster that can't evolve beyond 5 stars... I will only make you weaker compared to other masters...

Note : This is a character from the mobile game Cloud Song. Lancelot is the first monster the player gets. It is used to teach you how to use, raise, evolve and sacrifice one monster to evolve another monster. R rank is lowest rank (R -> SR -> SSR). Only an SSR monster can evolve up to 10 stars and have a different appearance. R rank monsters can't evolve beyond 5 stars.
