THE PRIEST TOOK ME IN AND RAISED ME WITH PROFOUND LOVE AND CARE.

# Afterword

I'm deeply grateful to you all for helping me make my popular series "FutaOna" what it is today. While it's true that it's finished, it still lives on! It passed its genes on to my newest series, the one you just finished reading.

In this first entry you meet the protagonist, Inori Hiragi. She's an apprentice nun who masturbates at every chance she gets using a devil possession (in the form of her dick) as an excuse.

A strong increase in libido is normal in those who are born futanari. But instead of fighting it, she tells herself it's the deed of the devil and challenges it by masturbating over and over in a great variety of ways. She also masturbates with her ass in this story, something that I want to make a staple of the series.

Inori's perversions will eventually drag the kids at the orphanage and the strict priest into her shenanigans...

This is the introductory chapter so I kinda pulled my punches, but don't worry, things are going to escalate with every new entry! Please look forward to the tales (?) of the new heroine!
