A truly desperate situation!

The elf girl swung the sword but to no avail! She's now cornered!

They said elves are a rare sight, so I guess that's why so many raised money over their heads.

They brought me to a place with lots of people...

After I was kid-napped,

and told me to fight a monster I had never seen before.

I was handed a sword that I didn't know how to use,

He said he was the owner of a f... freak show? Something like that. He said I'd be working there for him.

I don't really get why, but a big man came to get me afterwards.

Uh...! Ngh!

ieechu!

The girl is ultimately caught by the monster!

How sad! She tried her best, but it was all in vain.

Noo, stop!

Cough!  
No...!

Let me gooo!!

Puah !!

No!!  
Ah!

the elf rape you've all been waiting for!

And now, ladies and gentlemen—

So this unsightly intercourse is, indeed, another facet of nature taking its course.

Survival of the fittest is the natural law.

This concludes the show for today.

We humbly look forward to your future patronage...

Come on in...

Oh, there you are!

Excuse me.

A spell that commands absolute obedience to the master.

The magic mark of slavery.

Trying to fight it only results in head-splitting pain.

When given a command, my body moves and obeys on its own.

Yes, Master ...

Oh!

Ooh!  
Oh...!

Let me see.

Uhuhu...  
Good girl, yes.

He wants to lie with me while I still have whatever the monster poured inside.

On days where I'm part of the show, when night falls, Master always calls me to his room.

Try putting it in yourself tonight...

This is the sort of thing he's into...

Good. Very good!

Now, don't forget to move your hips!

Hnn...

It filled you up quite a lot today!

Hah!  
Yes...!  
Ye-!

Haha! Look, it keeps leaking out!

Hah!

I'm gonna be here until the day I die, whenever that may be...

Yeah... I really love to keep going without ever pulling out!

Thanks to your powers, I can go on as long as I want...

## The World

Human civilization is roughly as advanced as it was in the Middle Ages in Europe, but there are several other races as well. Human society knows and uses incantations like spells and divination, called *magic*, but none of them has ever even seen elemental manipulation, called *sorcery*, something that can create fire or wind.

## Elves

A race that lives deep within the White Woods. Their villages encompassed in a thick mist, they entertain no relationships with the outside world. Elves are present in Human folklore, but no one in the present time thinks they actually exist. They're the only race who can use sorcery. They used to have contact with Humans long ago.

## Dark Elves

Elves with differently colored skin that were occasionally born out of the union of Humans and Elves, back when the two races were still communicating. When Elves severed contact and began hiding in the depths of the forest, the racial purity started becoming a central feature in their society. The rare instances of elves born with differently colored skin thereafter were considered proof of mixed blood and persecuted as such.

## The White Woods

An extremely large forest entirely covered by an unnatural mist. Elves keep their villages within the Woods hidden with a sorcerous barrier, making it impossible for any other race to trespass within its borders.

## Magic Mark of Slavery

A mark placed on the body by a magician through a spell. The mark appears only when the one designated as master wishes to activate it. It's a very popular spell among magic users and it's often applied on both slaves and animals.

Hey, Minato here.

This is my second entry in this Middle Ages fantasy setting.  
I could finally draw the interspecies sex I so longed for.

I've literally stuffed this chapter with all the interspecies sex scenes I wanted.  
Yes, I'm satisfied now. My partner told me to refrain from drawing it again for a while.  
All those tentacles and the goop was, indeed, a bit of a pain to draw.

I shaped this series a bit like one of my previous original works,  
"When Will The Caged Bird Be Released".  
You know, dark skin female character being sold and whatnot. By the way, in case you missed it...  
The man that shows up at the end is the helper at the orphanage from chapter 1.

As for my next release, I plan to publish the new chapter in my "Hikari no Kimi" series,  
which is loosely based on "The Tale of Genji", this December at Comiket.  
The protagonist went a bit too far with his mischief and is finally getting demoted.  
He's being moved away from the capital and deep into the countryside...  
I wonder what's there to wait for him!

I like writing manga with historical setting and fantasy setting alike,  
but at the same time I'm starting to really want a normal contemporary setting again...  
That being said, I don't know as of yet what I'll be doing after the upcoming  
Winter Comiket project.

I really pray I do get chosen for Winter Comiket.

Thank you all for your support. m\_m
