Succubus-san

Her twin dicks are always erect and brimming with sexual desire. She uses homunculi as onaholes to relieve her endless desire, every day searching for stronger pleasure

Homunculi

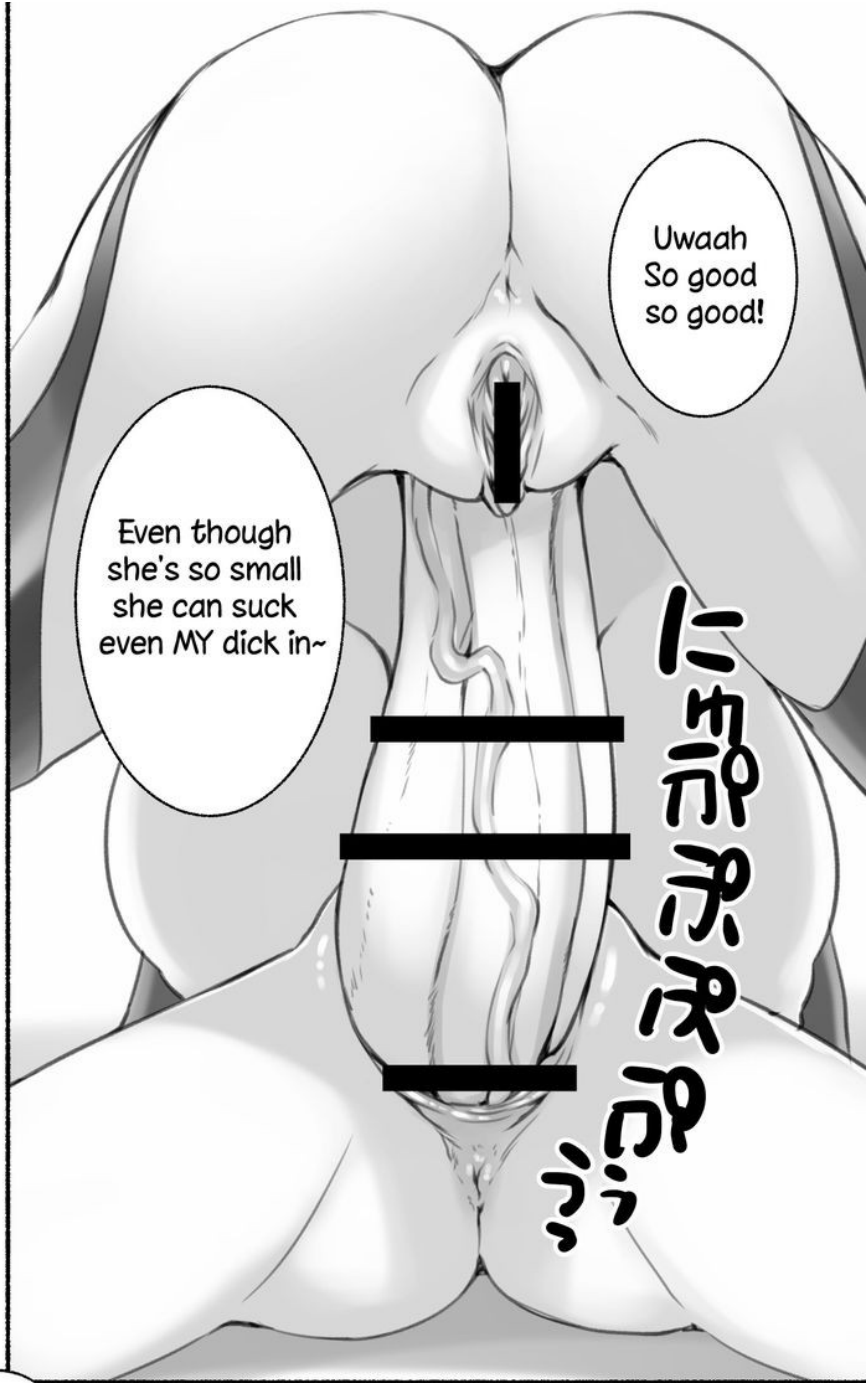

Made for Succubus-san to use
Extremely durable artificial humans
With rough SEX in mind their internal organs
are mostly placed around a cylindrical shape,
true living onaholes! While they're not too
expressive, they've been made so they respond
only to considerably strong stimulus.
