PREFACE

Hi everyone, I'm Neromashin.
Thank you for purchasing "Houjou no Reizoku Elf 4".

I guess the contents this time were a bit different from the rest of the series? Oh well, it's no use dwelling in the past. Working on a different scenario was very refreshing, you have to think differently, so I had fun working on a story without hard rape for once.

THE STORY SO FAR:

Long story short, the elves were captured by the humans. The story of how they were made into slaves through their long lives is told in this series so please take a look! It's also okay if you don't really know the rest of the series, but I'm sure you'll enjoy my previous works so I recomend reading them.

● This series was also published in this magazine→ so if you are interested I recomend reading that as well.
