Editor note:
What the fuck is a "coccyx"?
Well after a quick DDG later:
The coccyx, commonly
referred to as the tailbone,
is the final segment of the
vertebral column in humans

Editor note: Welcome back to biology class, an euglena is a genus of single cell flagellate eukaryotes. aka tiny as hell

Aah~ I'm about to cum

Yeah, well, I can imagine~

Uh!

No, I don't want that...

But I also don't want to go to school...

What will you do if the ears won't go away and you just keep on cumming?

You won't be able to return to school like this

Ah

Cumming

Ah...

Ah

Ah

It does feel a little sad to lose them, though

Uah...

Haa...
I wonder if the ears will disappear now~

After taking a nap we woke up to find the ears still there, so I had him pee on some pet training sheets

These really absorb it well!!!

I see you
got rid of
the ears!!
And I
guess you
also
stopped
cumming!!

Hello...

Ehehe
...

Oh,
Rikuto!!

But now I
can't stop
cumming...

no
f

h

I just remembered that I drew Rikuto-kun with dog ears peeing on pet training sheets in the illustration book I released at Winter Comiket last year.

★ Finally! Why not let's explain the character setting ★

Rikuto-kun

In the first year of middle school, but he currently skips school due to bullying. He has the guy next door (right) teaching him.

Oniichan

A bloody pederast of a college student. Laid his hands on Rikuto's little penis while helping him with his studies.

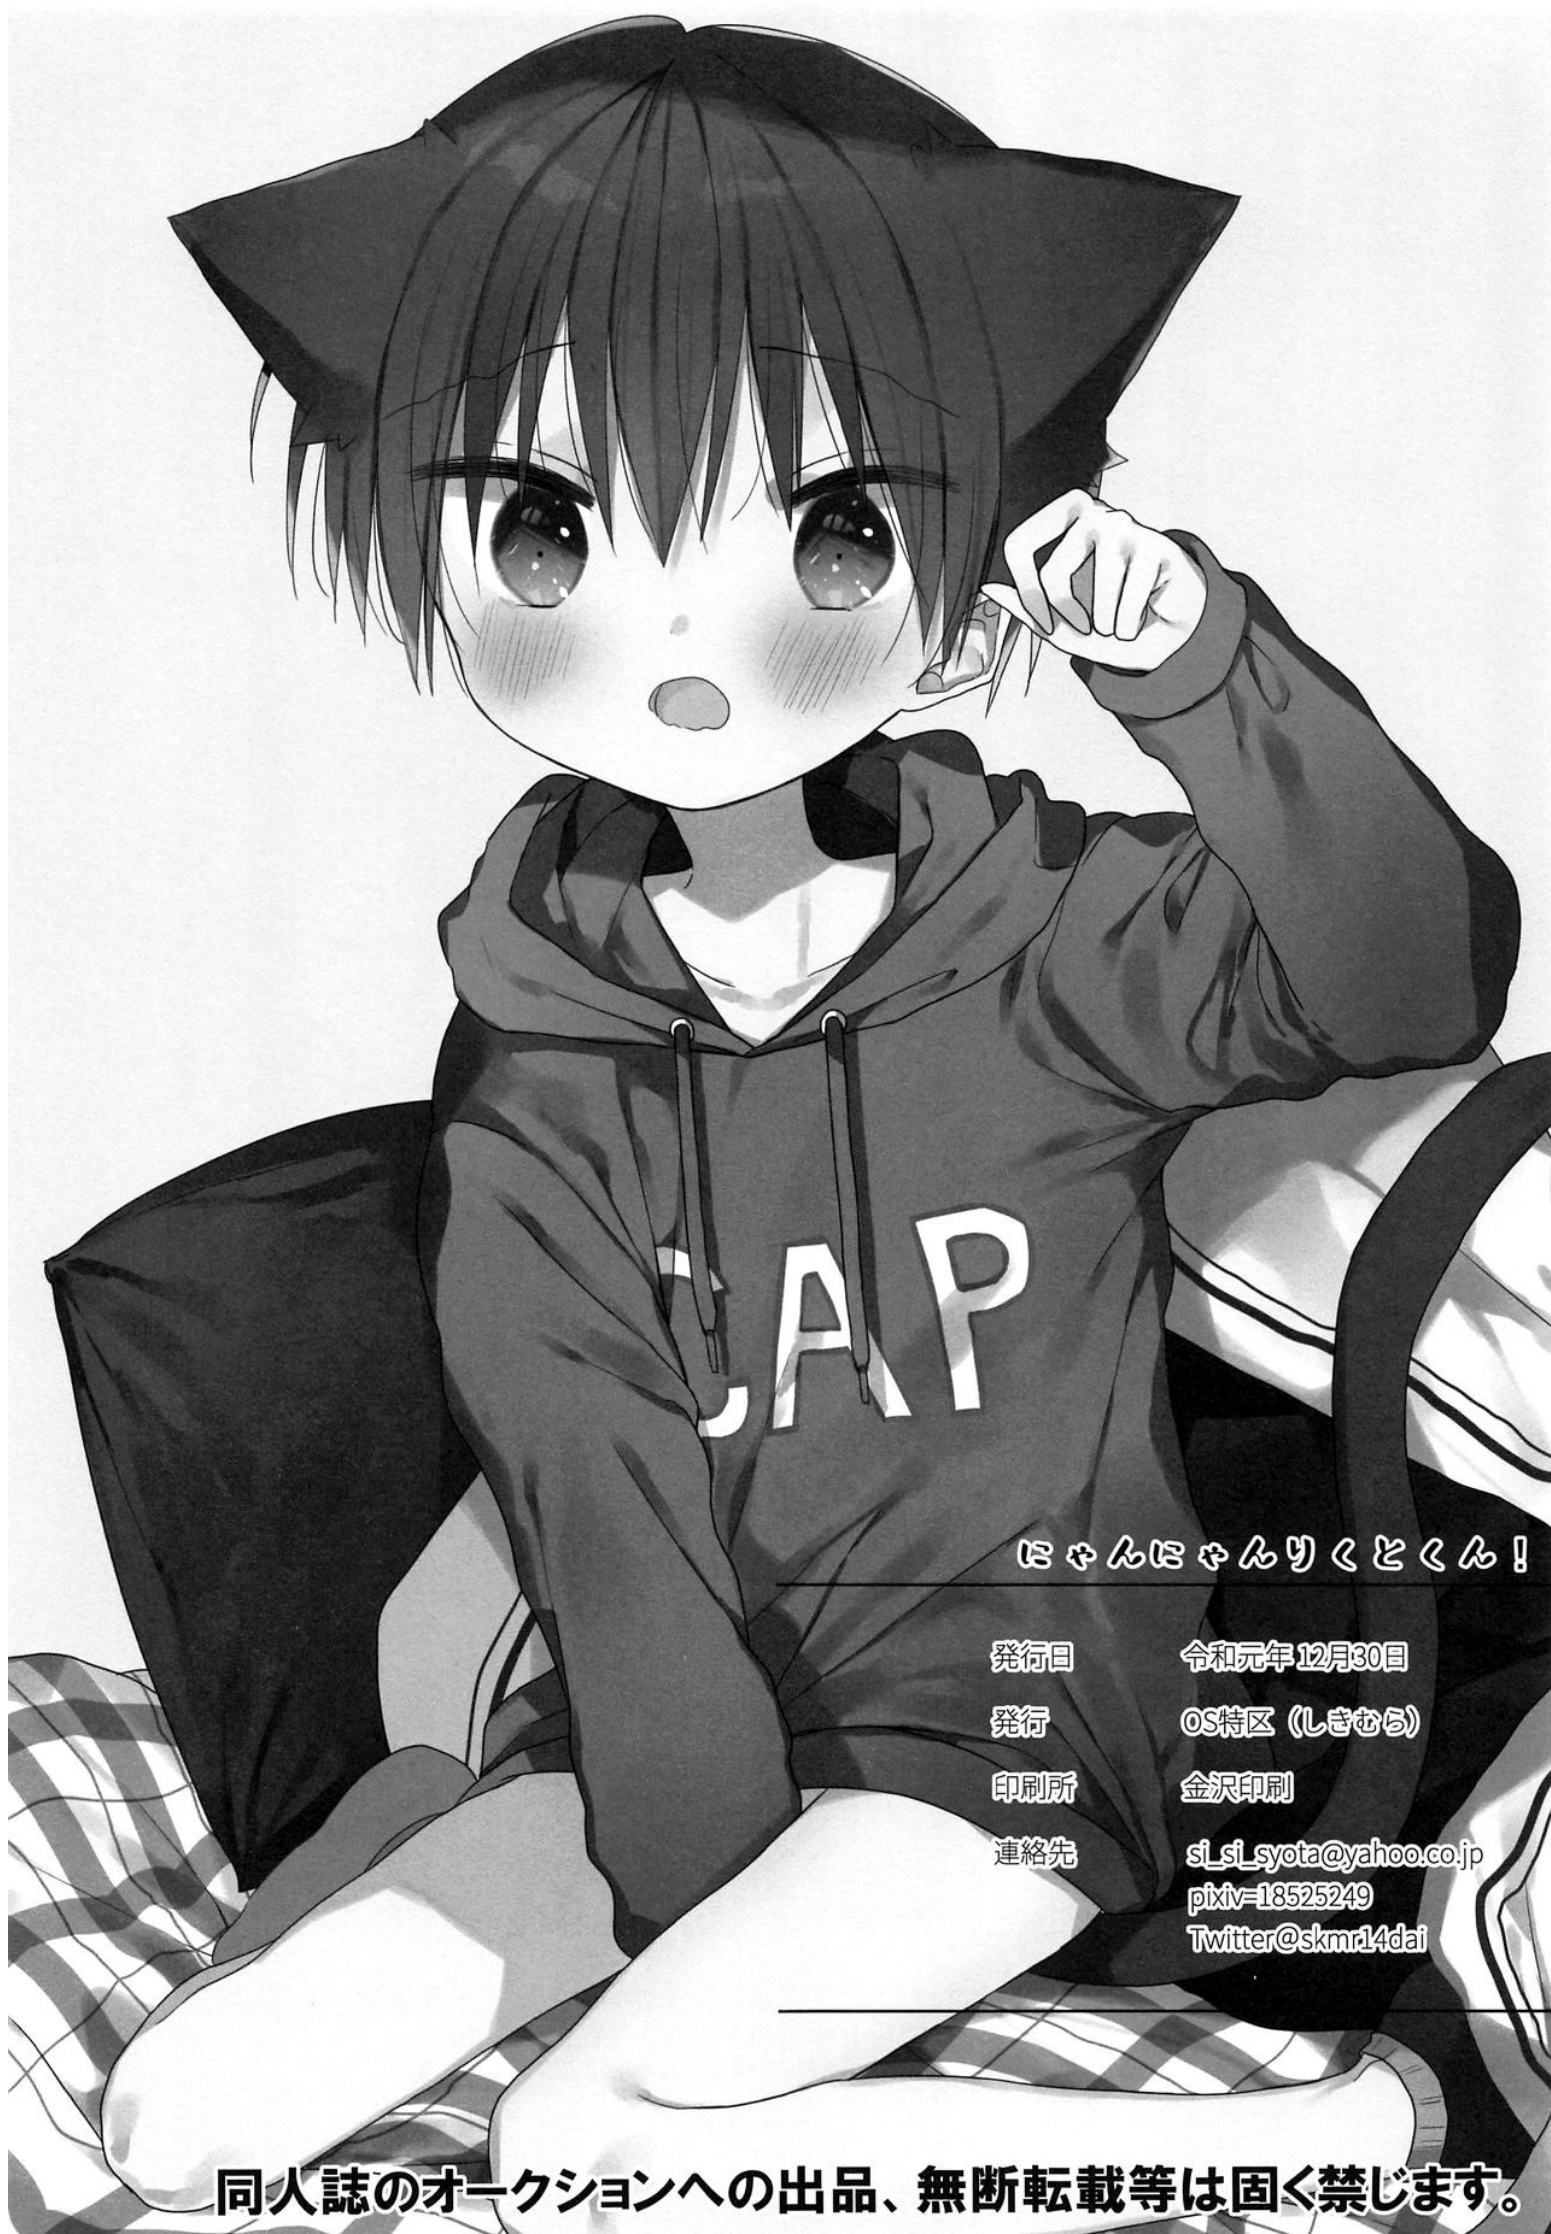

I have published several works in the Rikuto-kun series.

(That said, it's just a manga about having sex with a boy who skips school)
