

Those who survived the war were mostly women, children and the elderly.

Our Home planet was suddenly attacked by aliens, destroying the environment.

We can't live here no longer, and have to find a new planet to migrate to.

I (Utai) and my childhood friend (Hinata), volunteered for the planetary expedition to search for a better planet.

THE ATMOSPHERE LOOKS OKAY, BUT BE CAREFULL HINATA.

I KNOW, PLEASE KEEP ANALYZING, UTAI.

Due to engine trouble, we had to crash land on an unexplored planet.
