

Soothe Me

The event that shakes it back brings great redress and exultation.

For example

A neighbor who's always been on the lookout

What if I found out you were watching me secretly?

444

醫學博士

With the words "I love you,"

(Oh, my lord!
It's already 3 o'clock
in the morning!)

...wouldn't it be too
late to go and now?

Ah...

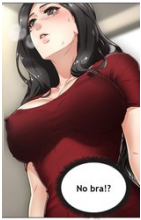

100

...hello.

100

No way that girl...

No bra!

I can see her
ripples...

Is she wearing it lightly
because it's early morning?

Don't to keep looking, but
it's look at her too much
won't notice, right?

....

It's so awkward, what
should I say?

No, if it
gets more awkward.

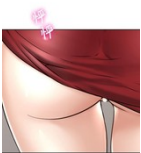

Now... wait a minute...!

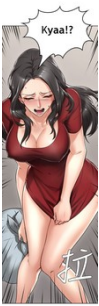

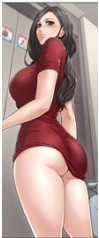

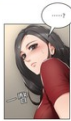

One side of the dress
is curled up, right?

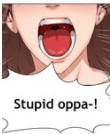

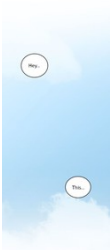

Besides,
that looks...

No way..

No panties?

Stupid oppa-!

We are a newlywed couple who have been married for a year.

Sometimes we argue with each other, but we live a happy life.

My job is a freelance novelist.

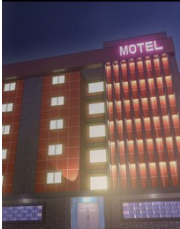

My wife, who was a big fan of my work.

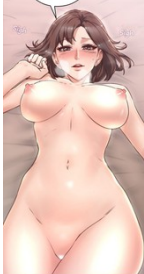

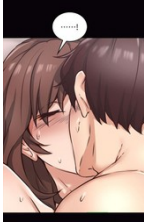

She followed me around in love with my novels.

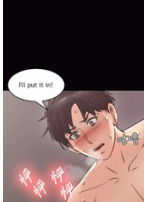

She loved me so much that she gave everything for me.

But..

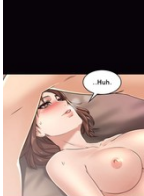

From my first experience with her

I couldn't overcome the tension...

Exhausted at the end of the day of
learning and playing

I was already worried by
her condition

And we got married

We progressed with her then
we really happy

Thank for my previous calculation

Yes, you calculated me every thing, huh...

At the moment I realized that
she was the person I love

Thank

It's really nice, so I'll be with
you for the rest of my life

Always a good
time for me

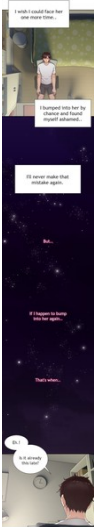

Thank a lot for
what you did for me

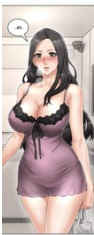

I just can imagine
myself with you
