

Trouble! Gigantic Sex ♥

Under the hot sun, a boy and girl were having sex together. He held her waist while she was on her back and pushed his throbbing erection into her dripping vagina until the glans penetrated the narrow entrance as if it was welcomed in.

THUUUUUD... The dick fully entered inside, knocking against the girl's cervix. The shockwave from these two persons spread over the ground near them, annihilating a whole city that happened to be nearby. The dick plunged in for the first time. He intended to slowly slide in, but the force exerted by the motion of the gigantic couple appeared to be way too much for the tiny world. They were trying their best to not destroy the world since it was where they lived before they became gigantic. Although the sensation of the girl's tightening vagina felt so good, he moved his waist back and forth again.

THUUUUUD.....!!

The dick plunged in for the second time. Mountain ranges collapsed, cities crumbled and millions of people also died. Sticky fluids exploded in all directions from their connected crotches, crushing parts of the city caught beneath them. He slaughtered a million humans just by plunging his dick a single time. The pleasure they got in exchange from the act of his dick rubbing against the vagina's wall for just a single time was at the expense of their irreplaceable fellow's lives as if they were nothing more than rubbish.

Yet his dick throbbed harder and became hotter than ever before while the girl's vagina swelled tightly around it. The microbes dying from the giants only having sex was not a problem they cared about anymore. Lying down on the ground, the girl's back, arms and the back of the head crushed multiple cities and killed in the order of tens of millions of people while showing him a dazzling smile. He couldn't focus on anything but her.

THUUD! THUUD! THUUD!!

The ground was breaking apart from the rhythmic motion of their waists bumping into each other. The indecent sounds produced by the combination of their slimy fluids and motions resounded all over the world.

As they went continued to pleasure one another sweat and sexual fluids flew from their bodies, drenching the world around them with semen. They felt a little sorry for involving humanity in the major catastrophe that was just their giant sex. At least the giants tried to not have the tiny victim's lives be wasted for nothing until they began to ejaculate inside. That was the mission the two had while they enjoyed their gigantic sex.

THUD! THUD! THUD! THUD! THUD!

The plunging motion became faster and faster. There were no intact cities on the ground around them anymore and for the remaining survivors it was only a matter of time before the shaking claimed them too. The number of casualties ranged from ten to hundreds of millions of people so far.

Suddenly the testicles pulsed and an absurd amount of semen was pumped into the girl's vagina. The semen was thick enough to easily wash away dozens of cities. The whole area may have been flooded if he had ejaculated outside, which was why they decided their goal was to ejaculate inside.

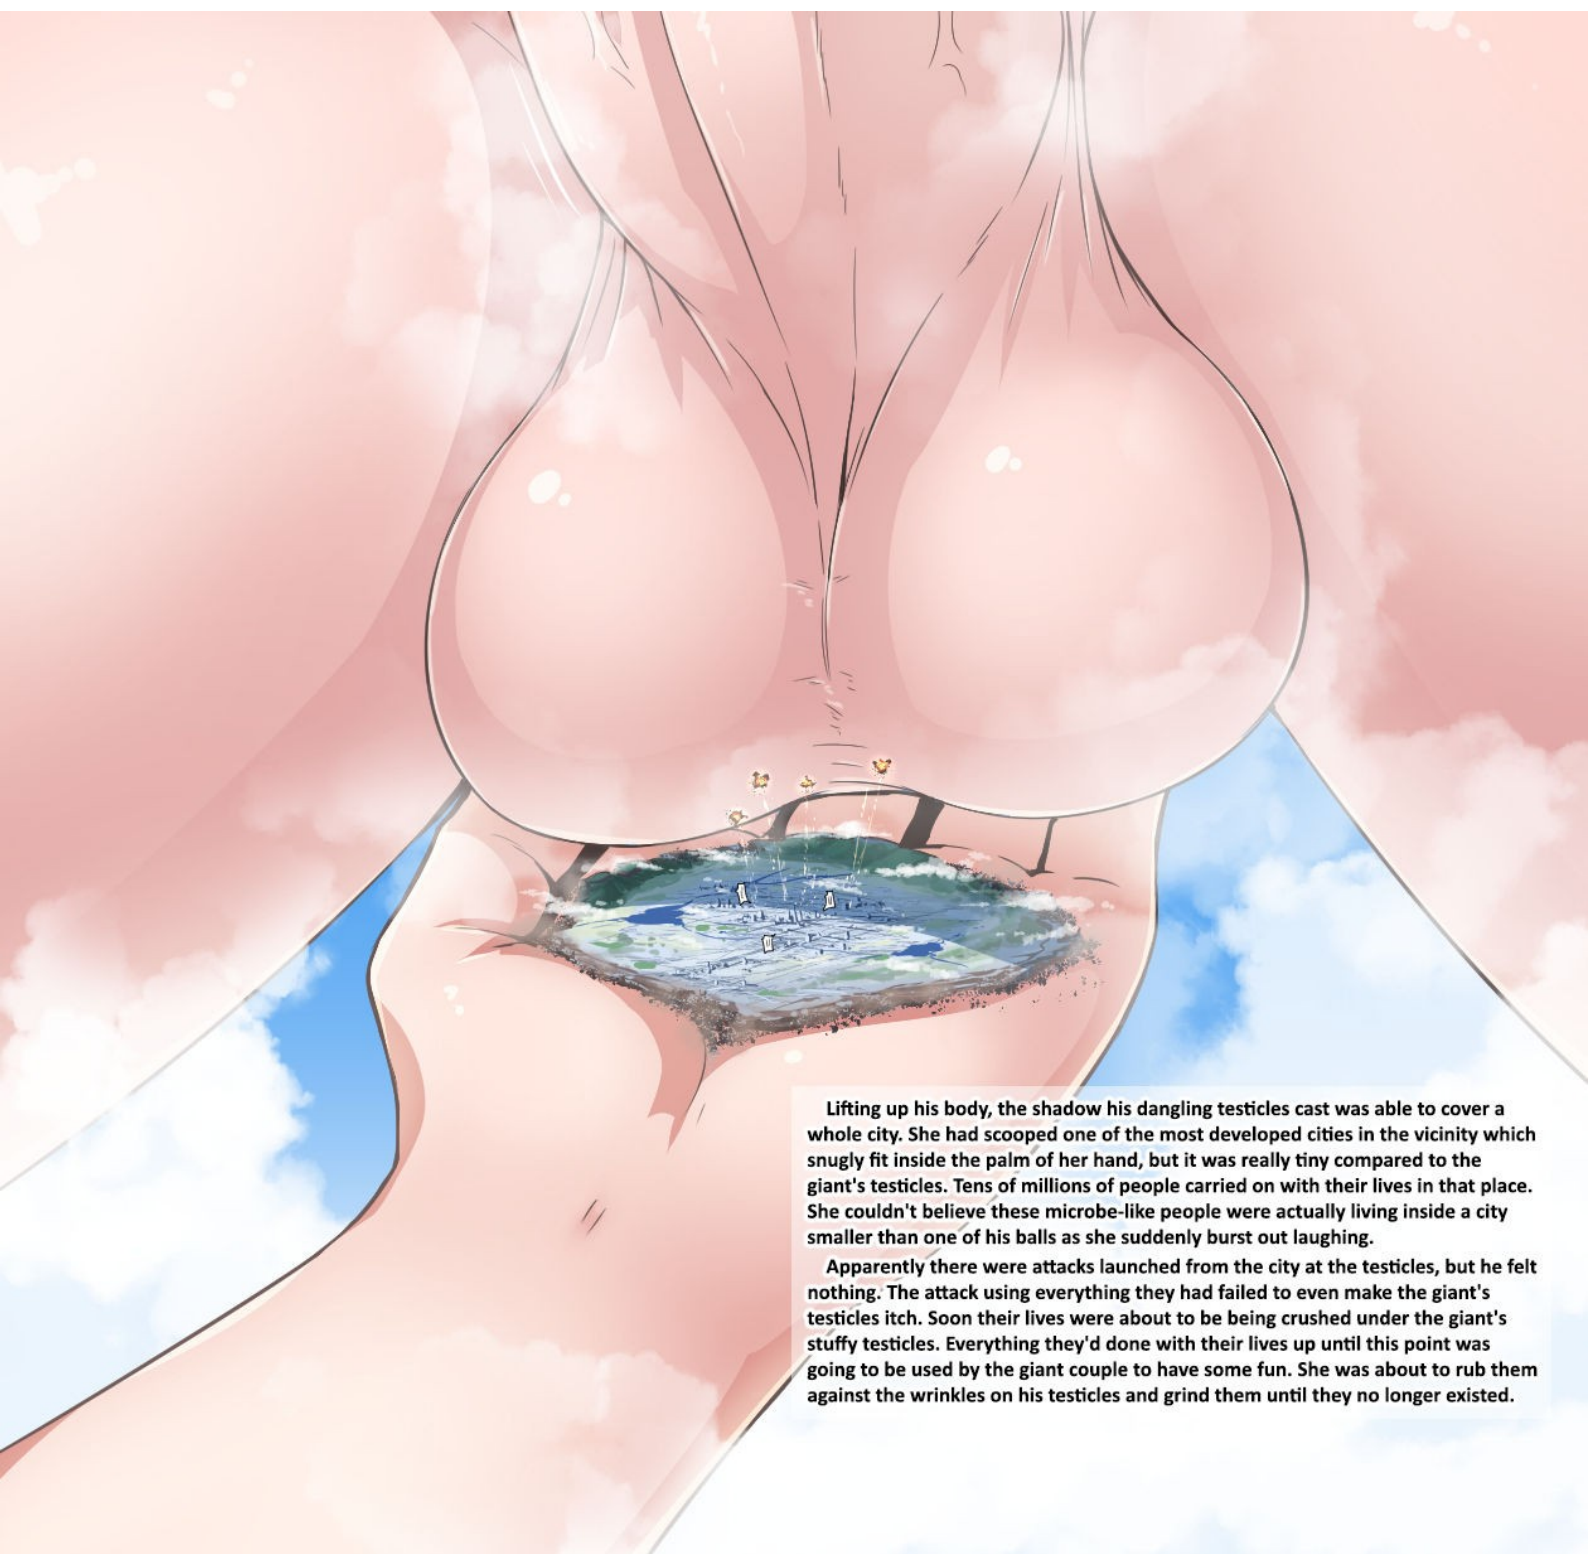

After they enjoyed having sex and destroyed a continent in the process, they arrived at a new continent. There were still a great number of intact cities all over the area, but both continued to advance inland. They didn't care if they trampled on some along the way until many people got involved as they sat down.

Lying down on his back, he enjoyed the feeling of crushing things while she positioned herself between his thighs. She held in her hands cities she'd collected in the vicinity. She laughed mischievously as her left hand groped and started to massage his testicles. The chilly feeling and sensation of things breaking apart tickled his testicles. He guessed she was probably holding a city in her hand. A city where millions of citizens lived had been crushed and disappeared in the blink of an eye under the giant's testicles.

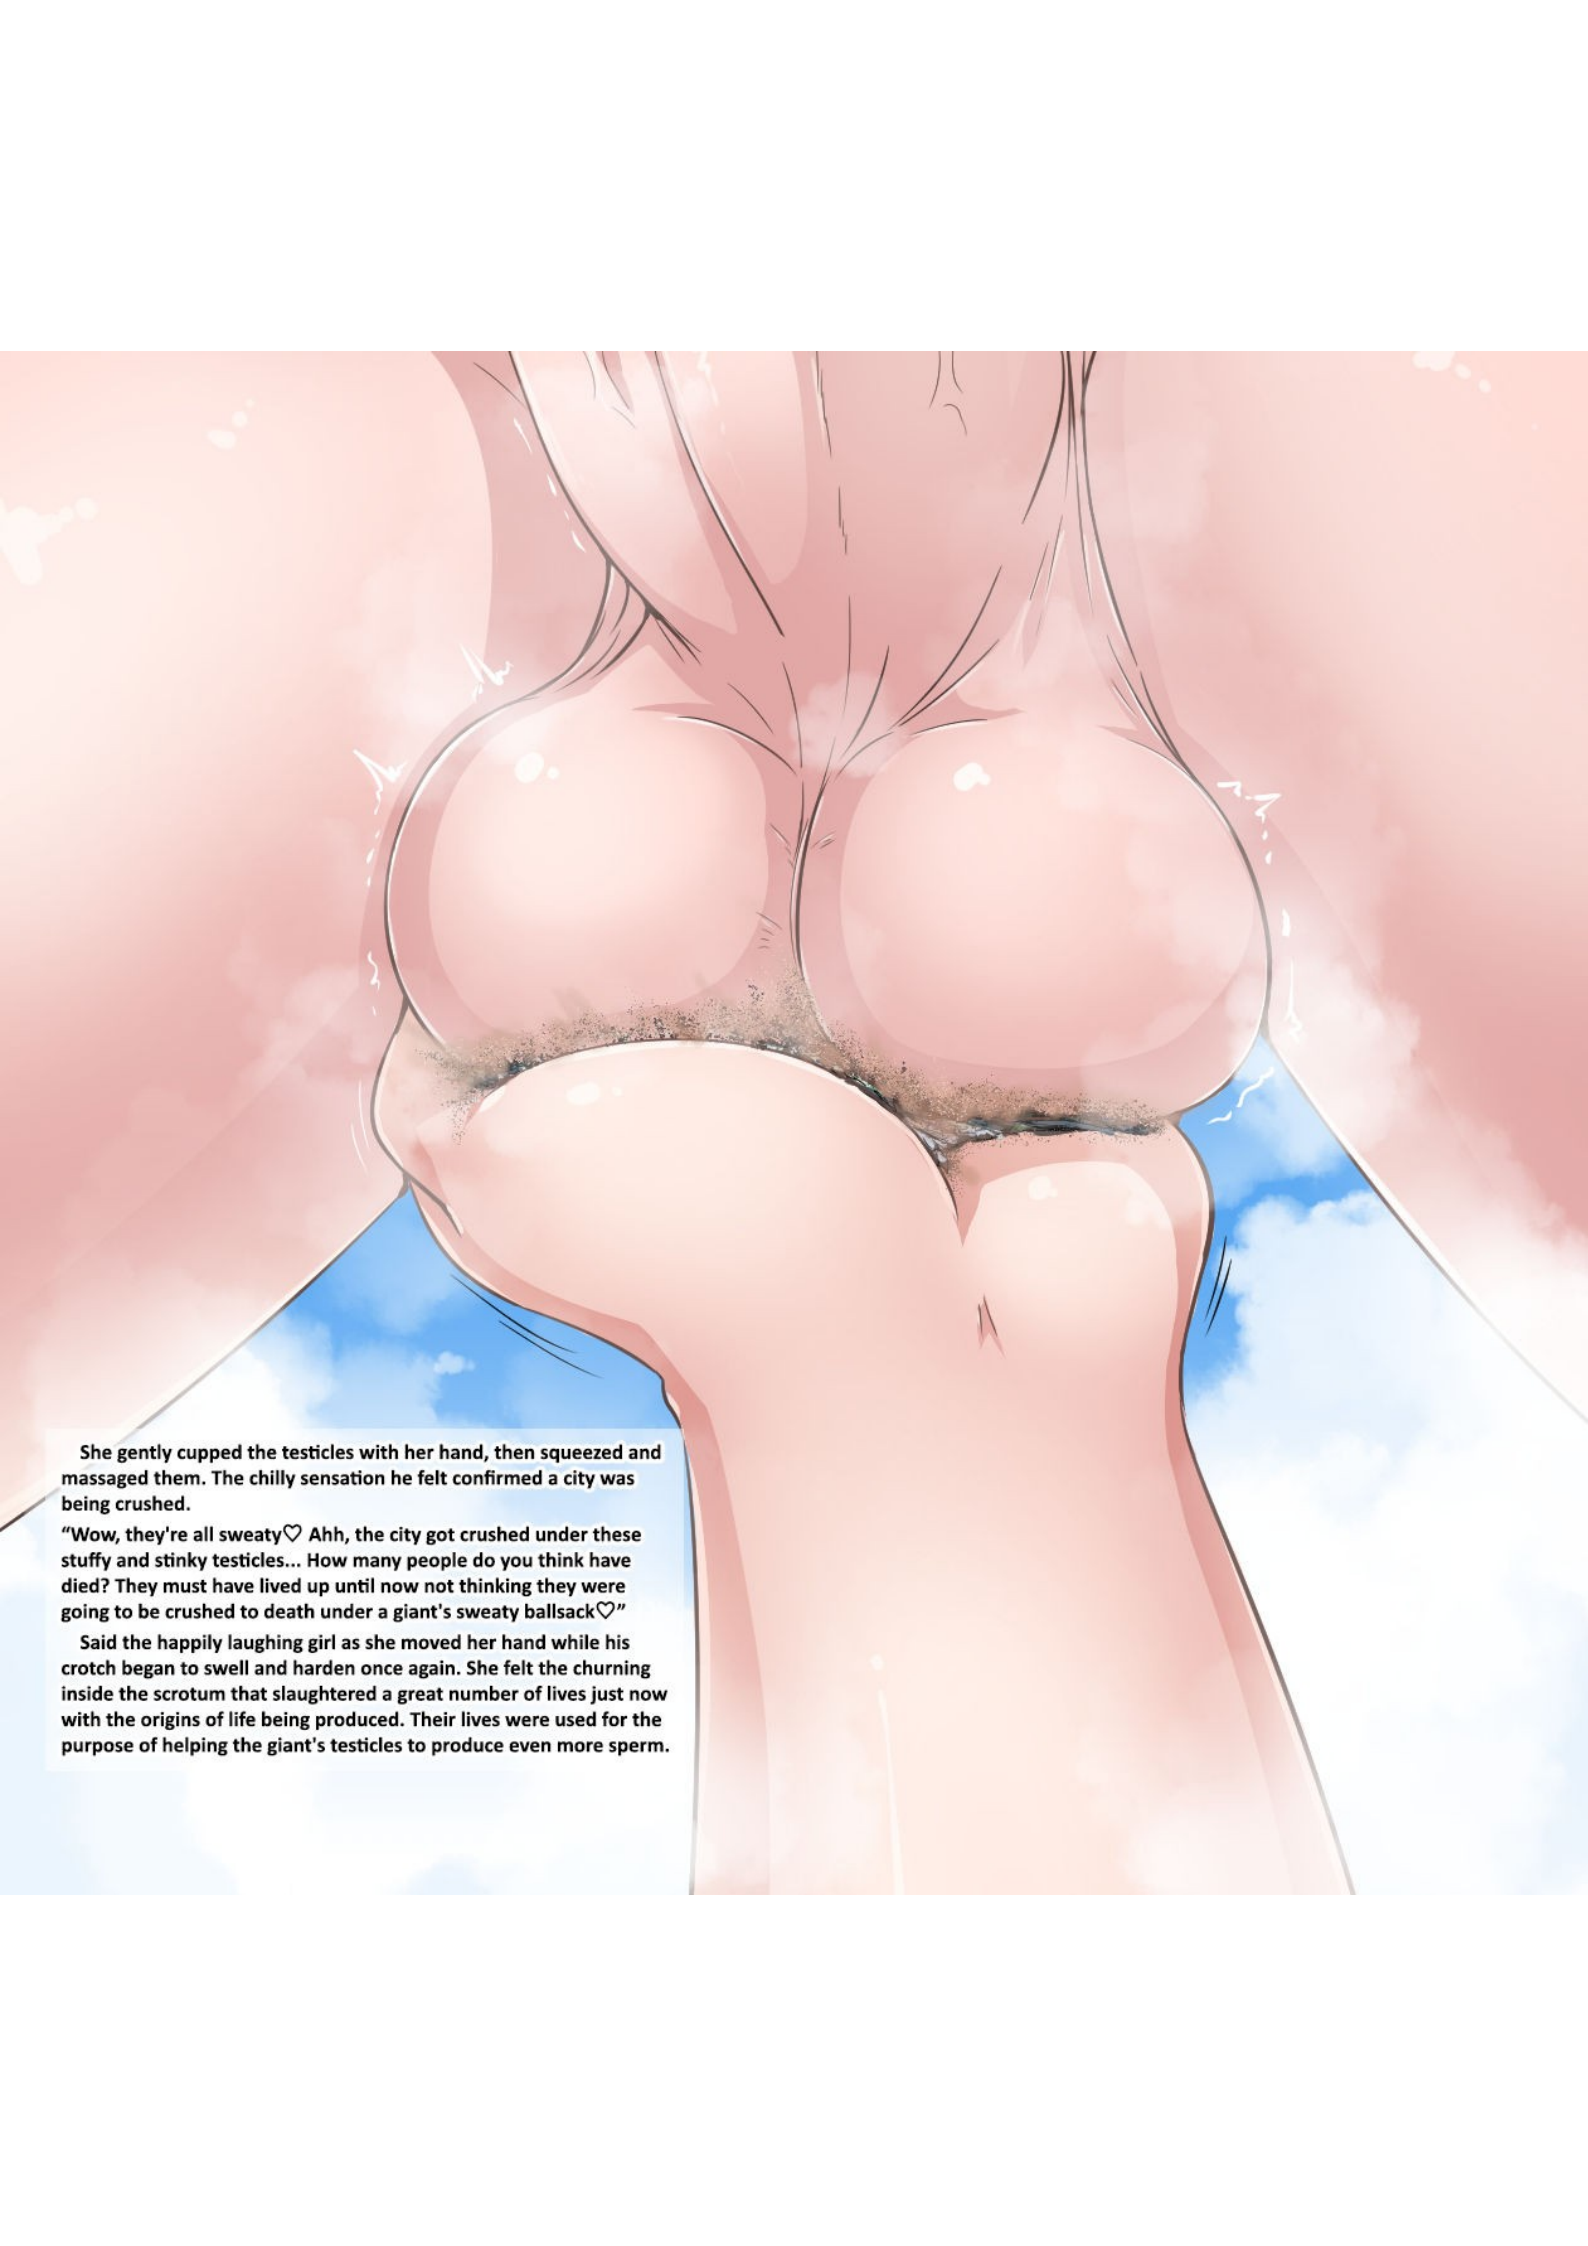

Their lives were simply used to massage his balls and give him pleasure. His soft dick gradually became harder knowing what really happened until his gigantic erection pointed at the sky and penetrated the layer of clouds. The giant fleshy tower jolted and shivered while she licked it from the base to the tip. She didn't mind sucking his dick one bit even though tens of millions of people were watching from the city placed at the base of the dick.

Once she realized the dick was getting harder every time a city and its tiny citizens were crushed against his shaft or testicles, she began scooping up more to replace them and assaulted his giant cock with them. It wasn't long before it responded with a merciless ejaculation. The semen erupted and splattered all over the continent, destroying several cities and causing another world-class destruction event.

Lifting up his body, the shadow his dangling testicles cast was able to cover a whole city. She had scooped one of the most developed cities in the vicinity which snugly fit inside the palm of her hand, but it was really tiny compared to the giant's testicles. Tens of millions of people carried on with their lives in that place. She couldn't believe these microbe-like people were actually living inside a city smaller than one of his balls as she suddenly burst out laughing.

Apparently there were attacks launched from the city at the testicles, but he felt nothing. The attack using everything they had failed to even make the giant's testicles itch. Soon their lives were about to be being crushed under the giant's stuffy testicles. Everything they'd done with their lives up until this point was going to be used by the giant couple to have some fun. She was about to rub them against the wrinkles on his testicles and grind them until they no longer existed.

She gently cupped the testicles with her hand, then squeezed and massaged them. The chilly sensation he felt confirmed a city was being crushed.

"Wow, they're all sweaty♡ Ahh, the city got crushed under these stuffy and stinky testicles... How many people do you think have died? They must have lived up until now not thinking they were going to be crushed to death under a giant's sweaty ballsack♡"

Said the happily laughing girl as she moved her hand while his crotch began to swell and harden once again. She felt the churning inside the scrotum that slaughtered a great number of lives just now with the origins of life being produced. Their lives were used for the purpose of helping the giant's testicles to produce even more sperm.

Her assault on the tiny people was continuing to escalate. She seemed to think of their lives as nothing more than toys anymore.

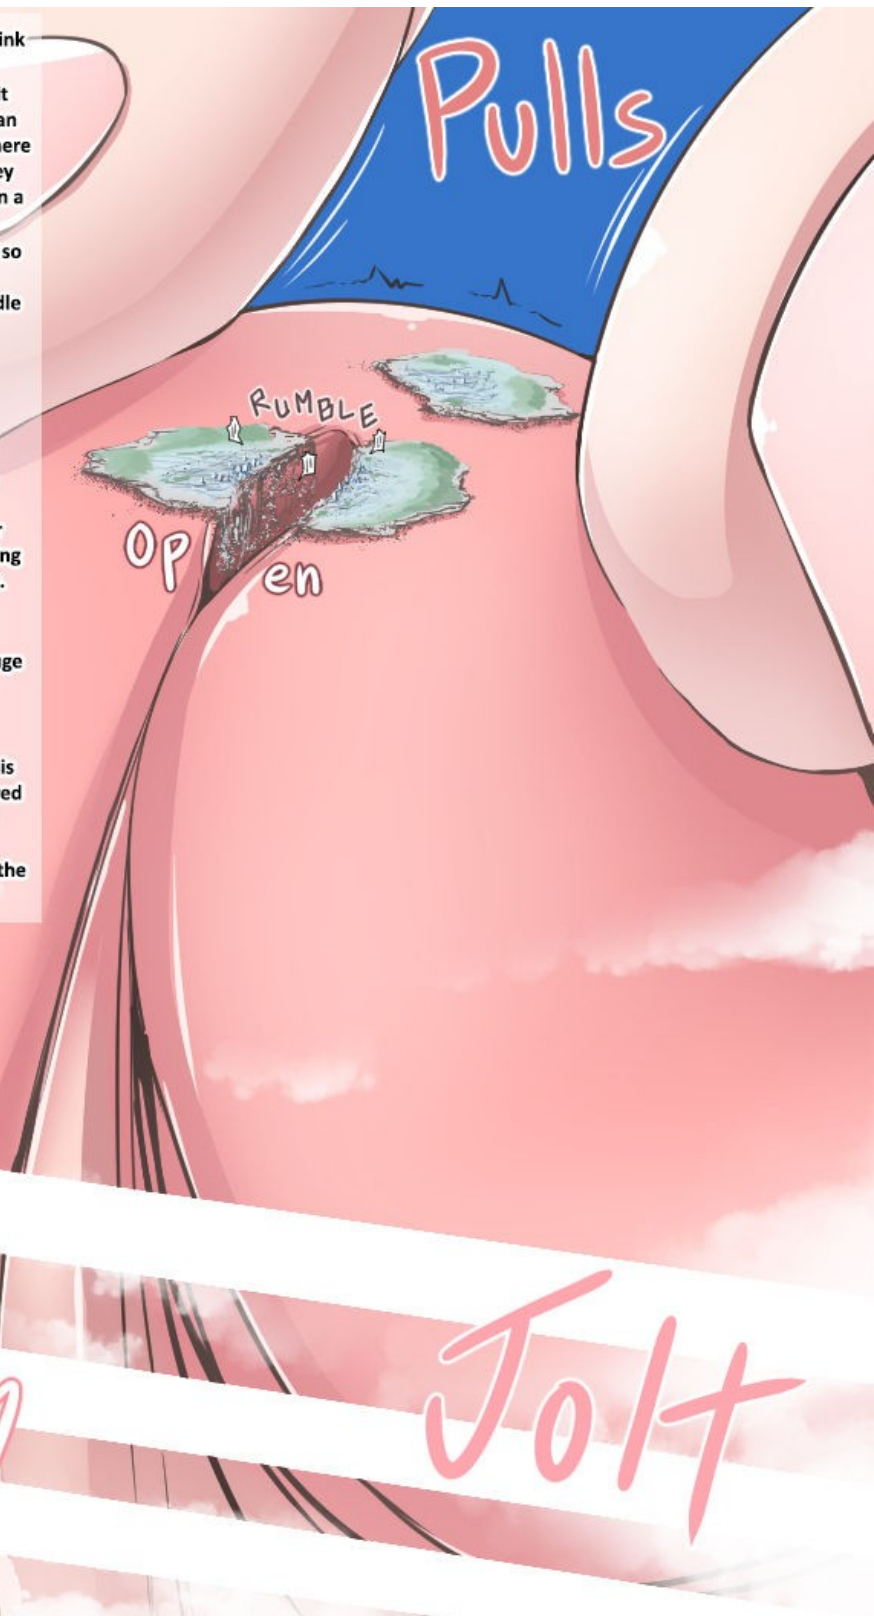

After their bodies grew once again, she picked up a human city and, placed it on the very tip of his erect penis, and began to observe it. A city with more than 300 million people had been placed on a pink-colored surface and an atmosphere filled with a steamy, hot, fishy stench that emanated from the giant's dick. They would disappear without any trace if he happened to ejaculate right now. Even a single drop of his precum would be more than enough to wash away the city.

He tried his best to endure any tickling when the city was placed on his dick so it wouldn't kill any more humans. Without any warning, she spread open his urethra using two of her fingers. A huge trench suddenly appeared in the middle of the city.

Hundreds of skyscrapers, thousands of low-rise buildings and tens of thousands of buildings in the residential area were engulfed into the giant's urethra in an instant and disappeared inside the gloomy hole. The dick swallowed up a large number of humans along with their city and they might have ended up all the way down inside the testicles. Or they might have been crushed on the way down against the urethra's wall. Either way, all of their remains will be washed away the next time he ejaculates. She was moving her fingers back and forth to make the urethra open and close as if she was enjoying making his dick eat up the city. It really looked like a mouth when she did that. Like the mouth of a giant monster able to gulp down a whole city in one go.

In reality, it was the slit of a gigantic male's genitals, but that didn't really matter for the micro-sized tiny people. For them it may as well have been a huge monster eating the city and killing the tiny people. Another city fell down the urethra once more. Millions of people were eaten by the penis only to be crushed inside and have their lives consumed.

They never thought about how they could destroy the world they lived in this easily. Many cities just as big as the one they'd lived in for years were swallowed up and disappeared inside his penis in the span of just a few minutes. Several million people cried and screamed as they fell down toward the testicles and died smashed against the urethra's wall. As far as the giants were concerned, the tiny cities and the humans who lived in them weren't worth considering.

City Surrounded by Smegma Mountains

The foreskin was pulled back due to the erection and tiny people's city showed up at the base of the giant's glans. Many of the people have survived and were trying to escape somehow, but they were blocked by mountains surrounding them. A fishy smell was released from the muddy pale-yellow mountain ranges. These were smegma stuck to the base of the giant's glans which were hundreds of meters high and encircled the city.

"Hey hey, don't you properly clean it up? Looks like there's a pest's city buried in the smegma."

Kyoko grinned as she looked down at the tiny people trying to escape from the smegma in the gap at the base of the glans.

"A~~h, you poor things. You wouldn't have died by the smegma if he had properly washed it♡"

Kyoko grasped the shaft and moved her hand toward the glans. The pulled back foreskin gathered around the base of the glans where it squashed and compressed with the smegma making a dirty sound.

In that moment, the lives of the hundreds of thousand of people who managed to survived in the gap at the base of the glans vanished. Kyoko stretched back the foreskin once again where the sticky viscous smegma showed up with the former city thoroughly mixed and buried into it.

Tiny Cities Caught in a Giant Couple's Fun

"A tiny people's city is really sooo tiny... With this much riding on top, don't make any sudden movements! ♡"

The cities were placed on top of the giant's erected penis. Kyoko looked down with interest as the weight of all the multiple cities currently riding the shaft couldn't even bend down the manly penis.

The cities with hundreds of thousands of residents placed onto the glans and shaft were invaded by the warm smell coming from the gigantic penis. Since they couldn't escape because they were far above the clouds, the tiny people could only cling to the giant's penis.

P **U** **M** **B**

Two giants suddenly appeared in the world. The giants, who seemed to be a pair of lovers, landed on the continent without confirming what might be present at their feet. The female giant took a single step and annihilated a harbor city with a powerful thud. Then she lifted her other barefoot, large enough to fully cover the next city, and turned about a million people into a stain in an instant.

Naked as the day they were born, the giants kept walking while affectionately chatting to each other. Countless humans were trampled under their feet. Stepping on them transformed them to nothing more than scraps of meat.

"Oh, don't you think this place is good enough? Your dick looks hard, don't you want to insert it right away?"

The red-haired girl looked down at the plain while unconsciously crushing a mountain range. Very few mountains were in the way and multiple large cities were present.

Sweaty

Musty

Kyoko brought her body closer to the ground and covered a large city under her. She did not even realize her palms had crushed a city while supporting her body over the ground.

"That's quite a developed city. Whoa, it's all crowded."

She was finally able to see the city's details when she brought her face as close as possible to the ground. Tiny buildings the size of dirt were gathered together below and between them. The dust-sized people's tiny screaming as they were desperately trying to flee couldn't be heard. Kyoko could easily blow them away at any time from her current position. Just walking around had made them panic as if it were the end of the world. As she laughed now, the air escaping her mouth alone blew away buildings and thousands of people were crushed to death in the rubble. Her mind was filled with a sensation of superiority as if she became a God just by looking down at their tiny existence from high over the clouds.

"We're now going to show all of you our giant sex. So don't die until we're done with it♥"

She spoke to the city right below her eyes as she grinned. She wondered if there were any lowlives able to understand her words right now. Tens of millions of people, perhaps even hundreds of millions, were currently watching her announcement of mating openly under the blue sky. Furthermore, they were giants with a size that allowed them to easily crush a mountain range under their feet. The thought that no one could do anything to stop them from the great sex they were about to show everyone filled her with pleasure and made her crotch ache impatiently.

"What're you doing... just do it now!"

Lying face down, Kyoko was trying to provoke him by sticking her butt up. Responding to her invitation, he approached her and put his hands on her waist, bringing his erect dick against her already-drenched secret part.

SLESH... SLOSH... The dozens of kilometers long penis was spreading out Kyoko's tight vagina and continued to penetrate deeper inside. Both genitals combined together high in the sky and their vulgar sounds echoed throughout the continent.

Mankind Annihilation Sex Spree on a Continent Bed with Gigantic Kyoko-chan♥

"You're still cumming this much after the 5th time~ Even after saying how cute I am so many times... Look at how much this condom is filled."

In her right hand Kyoko held a used condom filled to the brim with cum and, with a loud thud, placed it on the continent. Many of the unlucky cities that were directly below the fishy smelling condom disappeared under it, as the surrounding cities and mountains were blasted by the shockwave, killing millions of people.

"Ah, I've crushed some... I feel so bad for them. Look how many you've killed because of how much you came inside the condom."

Still holding the condom at her fingertips, Kyoko slid the used condom towards other large cities. The pouch made by the absurd amount inside the condom looked heavy as it was dragged on the continent, crushing over several cities in the process.

"Hahaha, how does it feel to be crushed by a rubber bag full of smelly semen? It must be so miserable to have the cities you lived in crushed under a condom coated with my juice."

Kyoko carelessly picked up the condom and threw it away. The gigantic used condom flew hundreds of kilometers into the air, erasing a city when it landed. It didn't stop immediately, and proceeded to carve through a mountain range where it wound up crushing another city after it finally stopped. She hadn't even looked where she threw it. She didn't have any interest in them even though she murdered millions of people in her casual act.

"Hmm? Do you like this sort of thing? Look, you're getting hard again!"

Kyoko raised her head and grinned while gazing at the giant penis.

"Let's start the 6th round then? But, what should we do next? I could give you a handjob you while aim your dick at the continent. With how much you cum, these tiny people could be wiped out from that alone. So it'll be like their fate depends on how much you ejaculate."

The gigantic magical girl looked like she was having fun as she grasped the penis with her right hand and fondled the balls with her left hand.

"These are really huge balls. They look big enough to crush a tiny's country. Ok, let's give you a handjob and annihilate tiny people in a semen tsunami now♥"

AFTER SATANIA BECAME MY GIRLFRIEND, SHE STARTED TO HAVE STRANGE IDEAS.

I, THE GREAT SATANICHIA, WILL HELP CURE YOUR PREMATURE EJACULATION PROBLEM.

I'VE REDUCED AND TELEPORTED A CITY ONTO THE TABLE.

Hehe

Pulling down the trousers against his will, she exposed his penis. Without any sign of hesitation, Satania grasped the organ while grinning as if she was triumphant. She roughly placed her elbow and breasts on part of the micro-sized city that was stretching all over the table, instantly crushing mountains and anything else underneath.

"Are you ready? You'll have to endure for a while. You know, it was a lot of work to prepare this city."

Holding the crotch while aiming it at the microscopic city, Satania started stroking it as she usually does. With a total length of 25 kilometers and 6 kilometers in diameter, Satania was able to easily stroke the gigantic penis. The people in the microscopic city started screaming and tried to escape from that unbelievable sight.

"Hey, you're already dripping precum!"

Satania's slender fingers tightened around the pulsing, swelled up shaft as a clear liquid leaked from the tip of the glans. A vast amount of viscous liquid dripped from tens of kilometers high and landed directly onto a group of skyscrapers, crushing tens of thousands of people.

"Ahh, what do you think of people's lives? Maybe you can't see the buildings and people being covered in your pervy precum?"

Satania was having fun watching the buildings being overrun by transparent liquid down in the city. The highly viscous precum was slowly spreading through the surrounding skyscrapers and started to engulf the residential district. The speck-sized people were slowly moving between those buildings. Even though they were running for their lives, they were hopelessly slow as the giant's precum swallowed one after the other, drowning thousands within the lukewarm liquid.

"Hehehe... Causing that much damage with just a handjob, such a devilish act... While trying to cure your premature ejaculation, it's like killing two birds with one stone, don't you think?"

Satisfied with the devastation, Satania started to move her hand even faster.

"Hey, you saw what happened, didn't you? Their city will surely be doomed if this huge penis were to ejaculate."

CAN YOU FIGURE OUT THE REASON WHY?

IF YOU CAN'T ENDURE MY DEMONIC HANDJOB, HUNDREDS OF THOUSANDS WILL DIE FROM YOUR EJACULATION.

Jolt

Shiver Jolt

Fap Fap

With great force Satania's hand tightened and stroked the shaft mercilessly as he neared his limit. Thinking of how horrific it would be to kill tens of thousands of people from ejaculating, he desperately tried to endure. But he could not help feeling guilty since his penis was throbbing harder than usual.

Creaking sounds came from the erect shaft Satania's hand was wrapped around. The intensity of the pressure that spread out on the length of the shaft reached the tip and an absurd amount of warm fluid gushed out rapidly from within the pink slit to the outside world.

SPLUUUURT! SPLUUUUSH! SPLUUSH! SPLISH.....!!

Shameful sounds were made while semen was ejected from the glans. An intense storm occurred as the slightly yellow colored sperm arced before they landed and soaked all over the world stretched on the table. Groups of buildings that couldn't be seen by the naked eye were splattered by white lumps of semen, producing indecent sounds and blowing away their surroundings.

Whoooooosh...

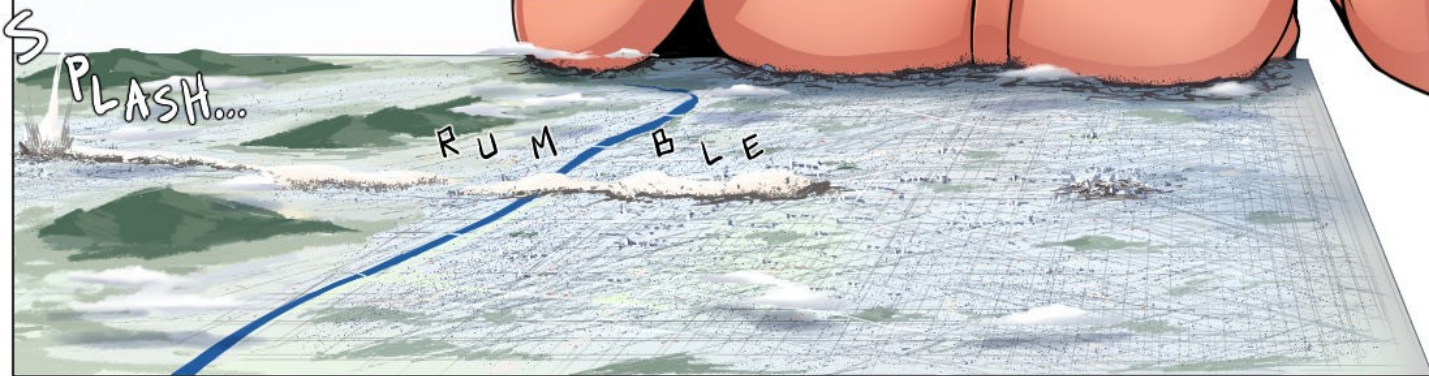

Perhaps the people who were in the places where the semen landed and their surroundings had all been killed. A single drop of semen alone was about 100 meters in diameter and the mass struck the ground from tens of kilometers high. The impact force itself was comparable to a small meteorite striking the ground, and they were both able to easily blow away buildings.

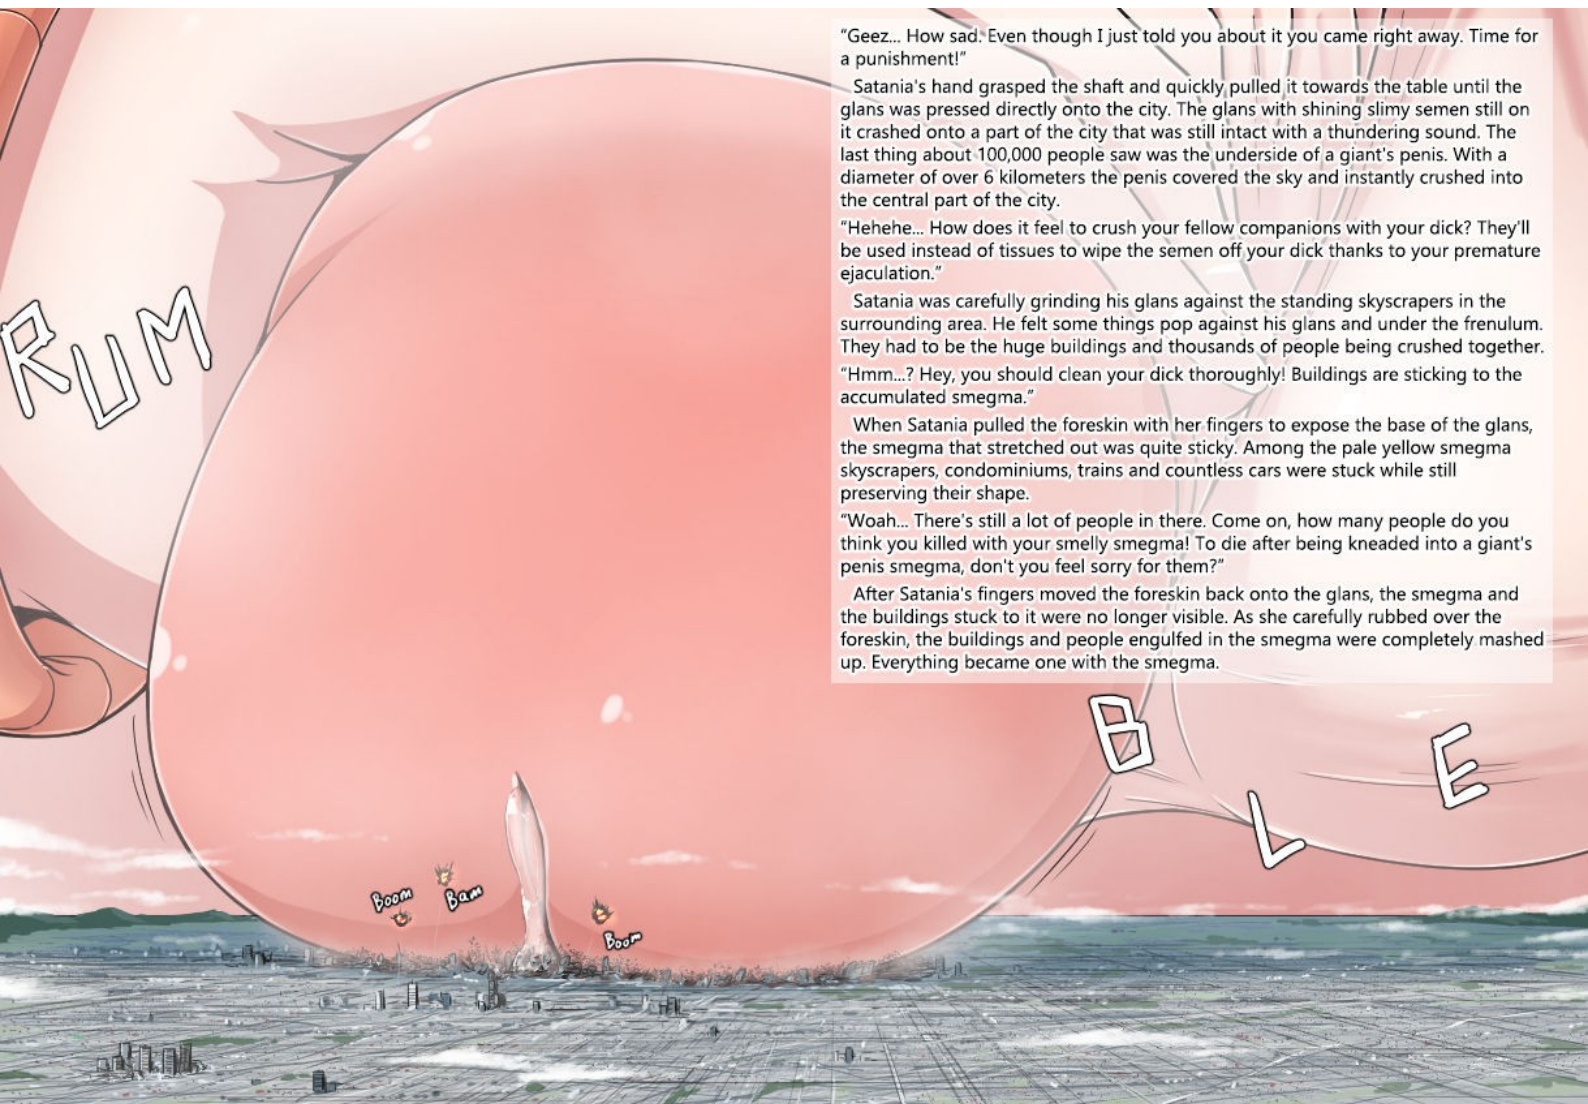

Even when looking down at the destruction caused by his own ejaculation, the force by which the semen was spilling out did not weaken. The thick semen that was collected within his testicles over time crossed over the river that separated the city and landed on a neighboring town.

A city smaller than the main city that was directly under his shaft had half of its mass annihilated by his semen. The horrible scene of the slimy sperms mixing with the mud made him feel regret.

"Woah, look how far can it fly! I'm surprised. This city seems to have survived, but your ejaculation was so amazing they must all have died."

Satania's voice lowered a little as she looked down at the cloudy liquid spreading in the city.

"Geez... How sad. Even though I just told you about it you came right away. Time for a punishment!"

Satania's hand grasped the shaft and quickly pulled it towards the table until the glans was pressed directly onto the city. The glans with shining slimy semen still on it crashed onto a part of the city that was still intact with a thundering sound. The last thing about 100,000 people saw was the underside of a giant's penis. With a diameter of over 6 kilometers the penis covered the sky and instantly crushed into the central part of the city.

"Hehehe... How does it feel to crush your fellow companions with your dick? They'll be used instead of tissues to wipe the semen off your dick thanks to your premature ejaculation."

Satania was carefully grinding his glans against the standing skyscrapers in the surrounding area. He felt some things pop against his glans and under the frenulum. They had to be the huge buildings and thousands of people being crushed together.

"Hmm...? Hey, you should clean your dick thoroughly! Buildings are sticking to the accumulated smegma."

When Satania pulled the foreskin with her fingers to expose the base of the glans, the smegma that stretched out was quite sticky. Among the pale yellow smegma skyscrapers, condominiums, trains and countless cars were stuck while still preserving their shape.

"Woah... There's still a lot of people in there. Come on, how many people do you think you killed with your smelly smegma! To die after being kneaded into a giant's penis smegma, don't you feel sorry for them?"

After Satania's fingers moved the foreskin back onto the glans, the smegma and the buildings stuck to it were no longer visible. As she carefully rubbed over the foreskin, the buildings and people engulfed in the smegma were completely mashed up. Everything became one with the smegma.
