...Chief.

She's been seen with so many of the victims...

And this whole thing is way too similar to the old records of Monster sightings.

Indeed, if she really isn't a monster...

No, she must be.

Squeak

Pheww...

...Fuck!

She's hiding her true self and pretending to be human.

But if we can't prove it, there's just gonna be more victims...

It must be some kind of undiscovered concealment magic.

But if she is a monster, why doesn't the bell ring?

Or rather, he was enjoying being spoiled by her.

But he was starting to act rather strange, like he had been mesmerized or something...

During interrogation

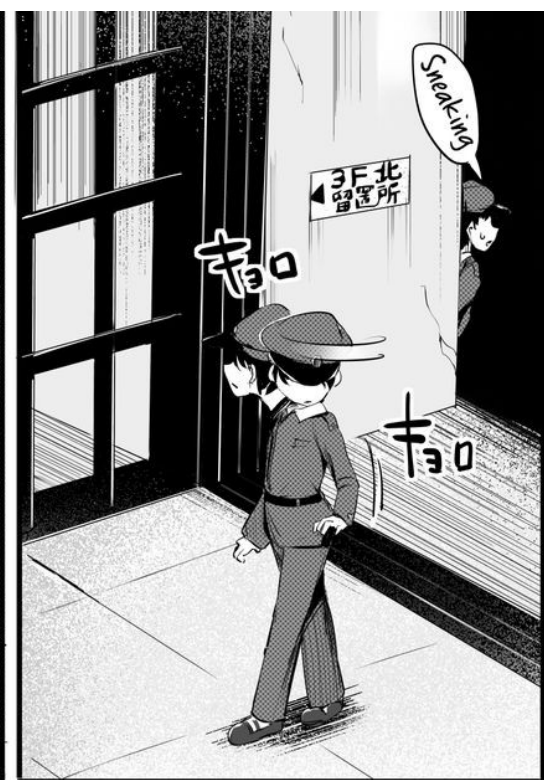

On the other hand, Gido had taken quite a liking to her...

And the day we legally had to release her was fast approaching.

But as time went on, we still couldn't find any solid evidence.

I had no choice but to try and find other minor offenses she'd committed to extend her detention...

How suspicious...

Ooh, that's right ♡
You're such a spoilt boy ♡
