so the way this world's entertainment culture is in full bloom...

If money's the issue then we can use magic to make as much of it as we want,

But there's something that's even more important than that.

money is important, Nn~

Wouldn't it be faster to make whatever you want through magic?

The pleasure gained from the delusions and convictions you have while enjoying it.

The excitement of an unexpected meeting, and the thrill of acquiring ...

There's a variant color!

Discovery and ownership.

Acquisition and growth.

新刊既刊全て ¥500-

Go back and hold the fort!? Eeh ~!

You two are going out by yourselves?

(UMMIINGI)

Ufu fu!
It's sleepy-time for the kiddies!

Only treating me like a kid at times like this...

...like you can talk when we've had sex...

For kids who can't become adults, that is.

Night is the time for kids, isn't it?

...to actually being able to live like a human...

I never thought that I'd go from that dumpster life...

I'm grateful for you two.

I want the three of us to stay together...

You're just a familiar, so don't get full of yourself just because we've had sex!

Keep on complaining and we'll send you back to being a stray!

Aoiichi, you're so strict!

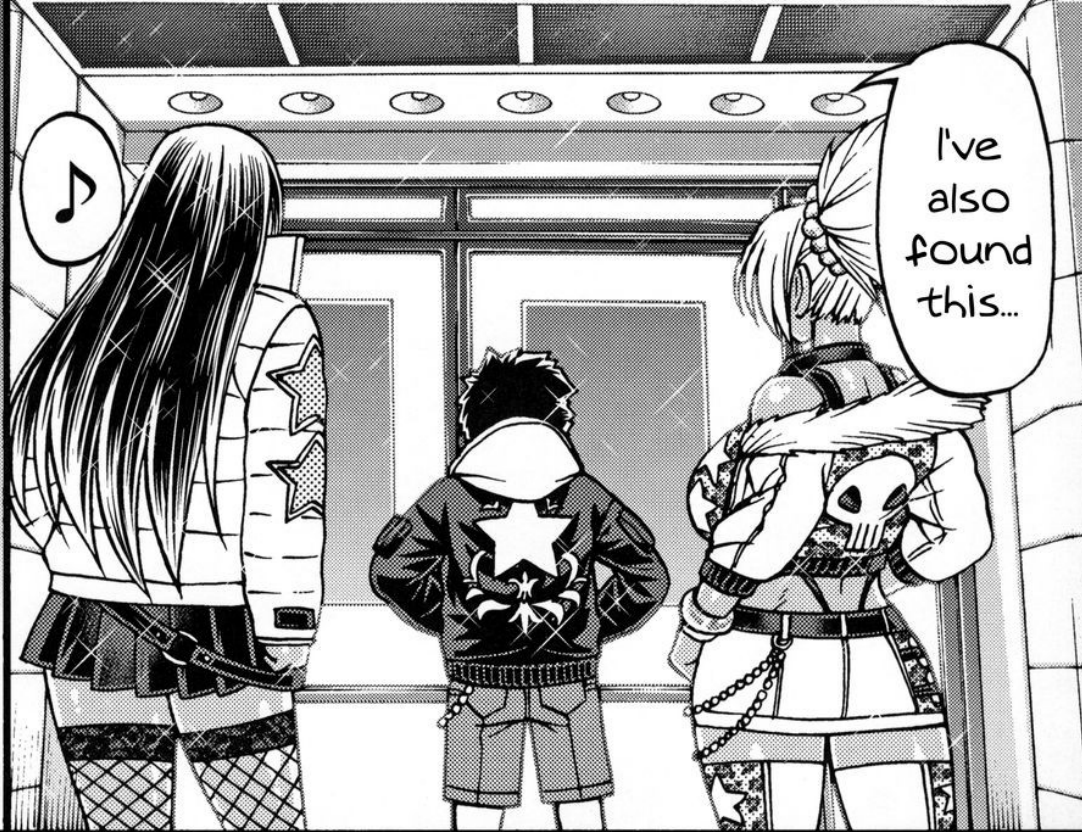

Just like the two of you've found something you love,

So rare! Words of appreciation!

You've got an unexpectedly sweet side, don'tcha!

Shut up...

Hey...

HERE COMES A NEW CHALLENGER!
