Do you want to preserve the growth
of your children beyond their
3rd, 5th and 7th year?

Do you want to prepare
for their imminent puberty?

...to the fathers with those wishes,
we've got a new offer

After their 3rd, 5th and 7th years,
their 9th, 11th and 13th years follow.

We shall help you record the path of your
child to puberty during these years

Girls which have passed their 9th year become more and more lady-like with a more developed figure.

Their budding breasts are proof of their growth.

For those who wish to preserve their first brassiere, our studio offer's specially made "first bras" with individual designs and sizes.

From adult-like bras which are see-through up to the nipple, to risky mirobikinis.

初 First ぶ ら Bra

The first step towards adulthood...a girl's first period.
An event which happens to every girl, yet it always
occurs all of a sudden.

Readying red rice is good, but the right preparation is
also important - celebrating the first menstrual pad
and the first tampon.

初潮 First Period

Particularly the tampon is a girl's first experience of
vaginal penetration. As preparation for even bigger
things to enter their precious vagina in the future,
the father shall help their daughters with this first
step.

On the off-chance of something happening to the
girl's hymen, we also offer the option of taking a
commemorative photo of the hymen.

初生毛

First Fuzz

Once a girl hits 11 years, she finally develops secondary sexual characteristics: The mons pubis above her child pussy starts growing fuzz...

"I want her pussy to stay smooth forever!"

...for fathers with this wish we offer shaving lessons, though the father should be the first one to shave her.

We also offer charms with a commemorative photo of the precious first fuzz and her pussy together with a photo of her face.

卒 ラ

Graduation Backpack

Finally graduation from elementary school...

A backpack which seemed so big on her first school day...

Now is a good time to make commemorative photos of your 6th grade girl - showing off her womanly limbs - as this is a time where you can really feel her growth.

You may recycle her backpack into specially made, one-of-a-kind restraints.

This could be your - albeit early - debut into S&M!

Perhaps you're in the mood for a meat slave? ♪

Worries about your wonderfully
developed daughter...

Rather than her first time being taken by some
random rapist, we think her father should take on
that role.

Your daughter's first time will be carefully recor-
ded by a dedicated team which is also responsible
for the subsequent editing...

...producing an original porno of which only one
will exist in this world

First Time 初体験

"When I grow up, I want to be daddy's wife...!"

For this kind of daughter we have a special
photo shoot option: Your first bridal night,
together with your daughter in a wedding dress

After reaching junior high school and donning their splendid uniforms, your girls are already giving off a mature aura.

This is likely the time where they grow used to having daily sex.

"I want to bang my daughter while she's wearing the uniform of that elitist school!"

"I want to bang her wearing bloomers!"

For these gentlemen, we arranged a collection of costumes which are of course also available during the photo shootings.

初コス First Costume

At the age of 13, girls in the past were already able to marry and even childbirth wasn't considered unusual.

Pregnancy, birth and parenting. A proper preparation will lead to confidence once push comes to shove and should be actively handled by the father.

A gentle introduction in breast-feeding and diaper-changing will be provided by dedicated staff members.

初産

First Birth

If the cream-pie sex-between you and your daughter actually leads to pregnancy, please don't worry.

We have a doctor and photo staff ready to accompany you properly until your daughter's childbirth.

Translator Notes

Wancho announced this work on pixiv the day before the 15th November, the day of Shichi-Go-San (7-5-3), which celebrates the growth of 3, 5 and 7 year old children. Taking this event into account, he came up with a story by adding a 6:

$$(7, 5, 3) + 6 = (13, 11, 9)$$

The odd numbering is associated with luck, while the date itself (15th) is the sum of all numbers. Shichi-Go-San is celebrated by dressing up the children in elegant clothing and visiting the local Shinto shrine, where special candy is distributed.

The clothing generally depends on their age: 3yo wear a hair ornament, 5yo boys wear a hakama and 7yo girls a kimono. The flowers on the side of each manga page likely reference the flower patterns which are frequently used for girl's kimono dresses.
