はあ

Well to
tell you the
truth, I was
researching
how I could
make my
breasts
bigger.

But for
whatever
reason,
this drug
has nearly
no effect
on women...

?

As I considered
the drug could
be taking its time,
I looked over my
notes, and decided
that I should try
it on men too!

Anyway, the
fact that it
got this far is
an unexpected
SUCCESS!

Y-Yes...
My friend
suddenly started
to get really excited
and began sucking
my breasts...
Then, he...

Could it
be this
girl was
originally
a man?

But
what's
this?

Because we became women, Riko san gave us a set of precise procedures. It's thanks to her that we're still able to go to college.

Several months from then, Ryou and I commuted to college as a pair of sisters.

By wearing the special bras made by Riko san...

...we were able to stop our aphrodisiac from dispersing.

Eh? Will this stop our milk no matter what?

The bra subdues my breasts, but it also makes me incredibly horny...

Meanwhile, I help Riko san carry out her research when I can.

I have to regularly change, or my milk will become too potent.

And today...

UWA!

おねえ

ONEE CHAN!

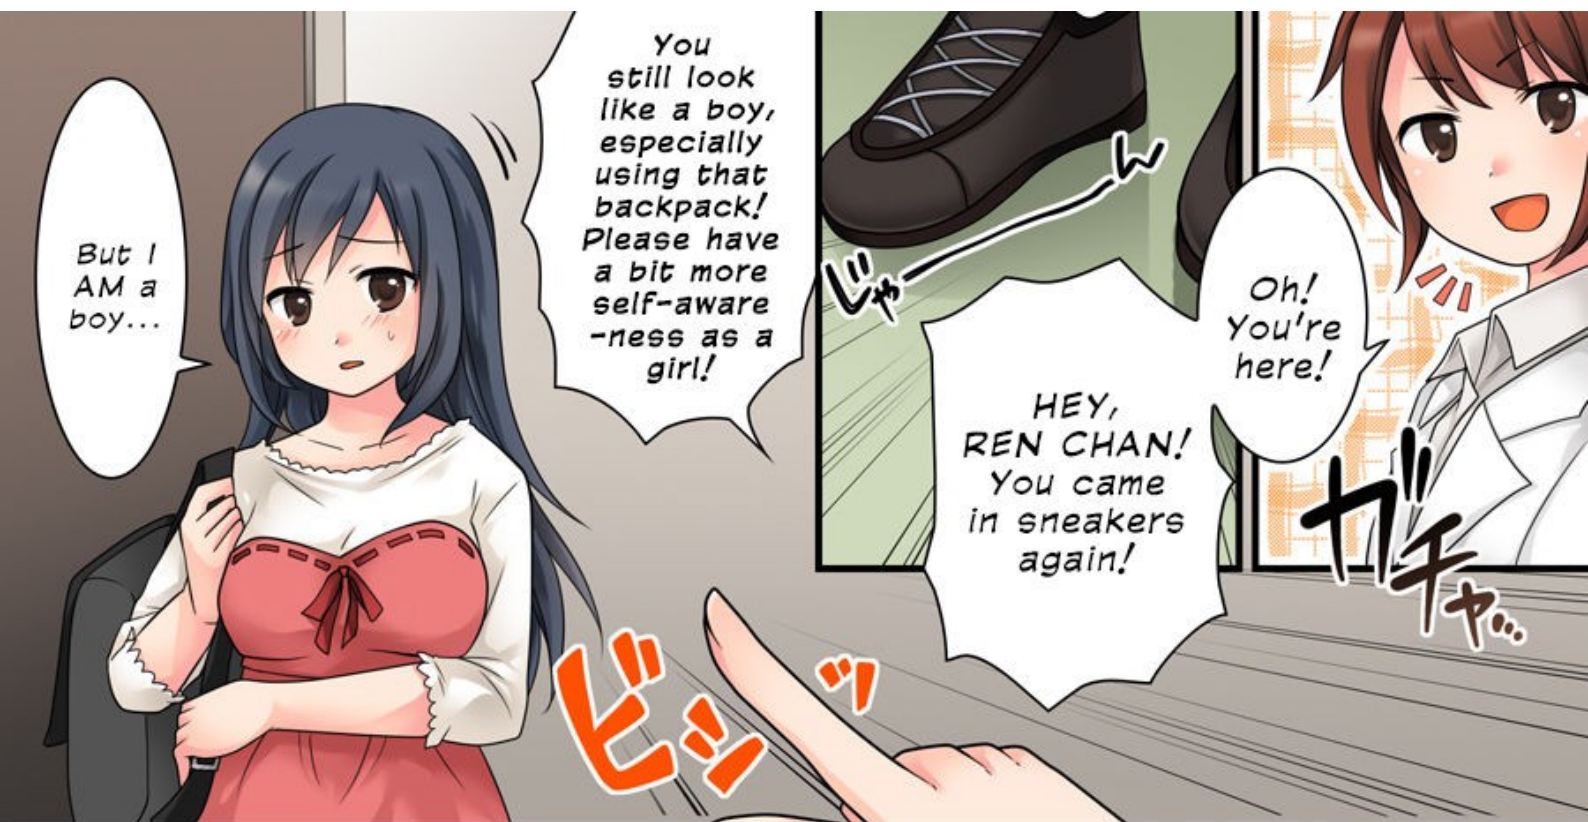

Who ya calling oneechan!? We're in the same year!

Eh?~ You didn't know~?

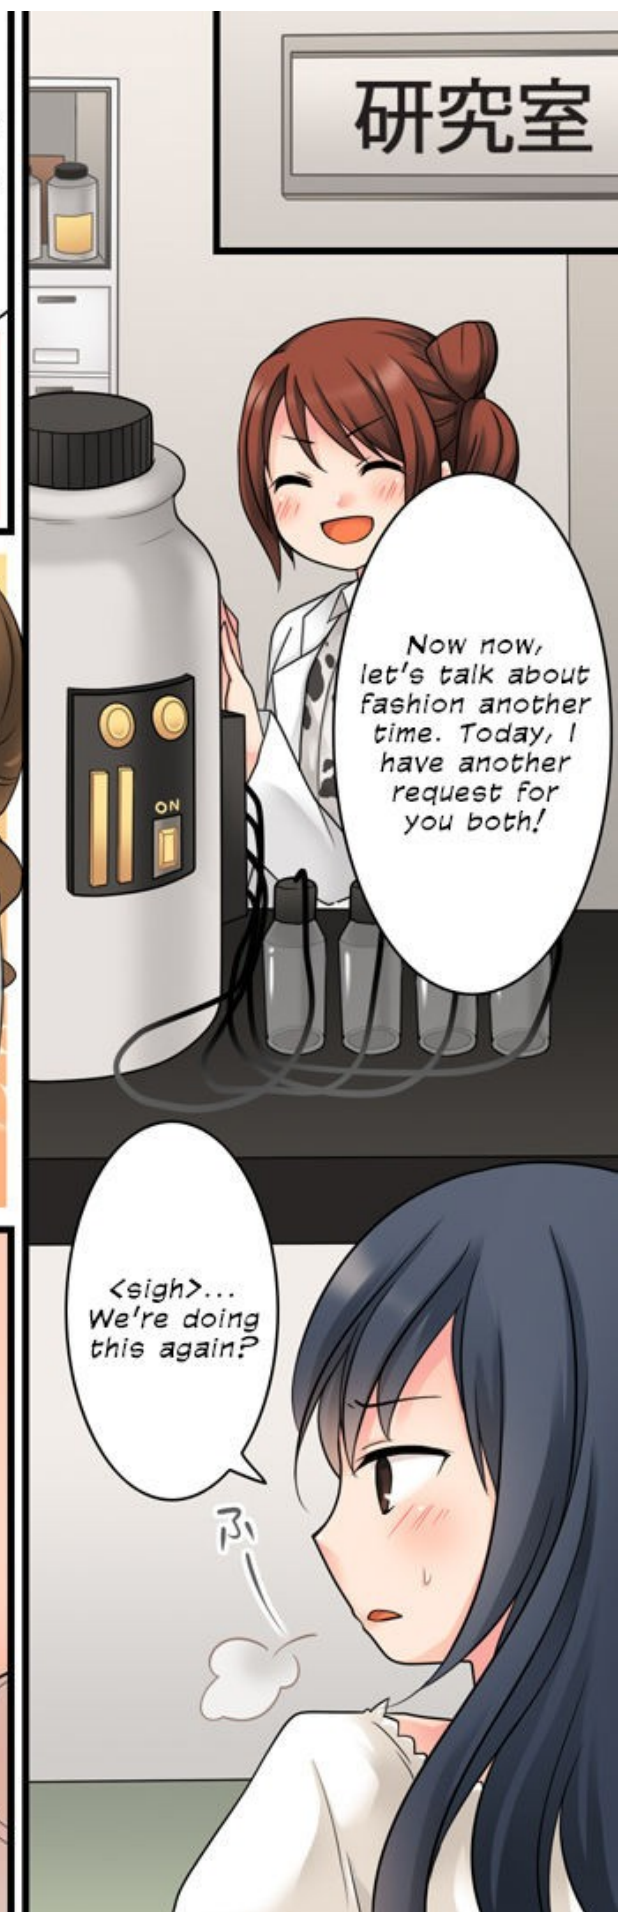

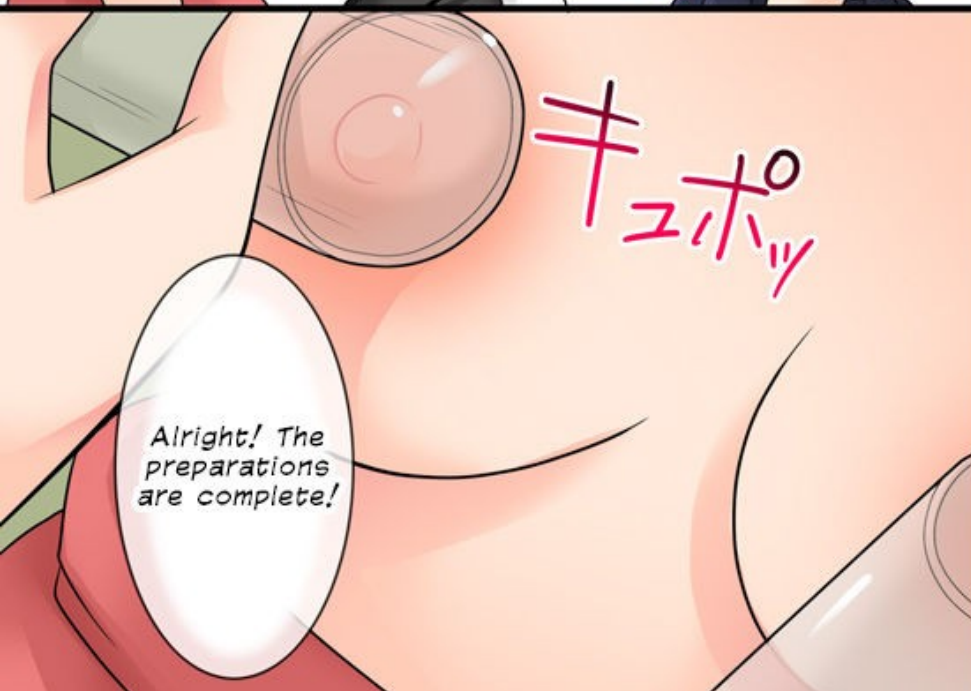

We're the new hot topic on these school grounds, as the "sisters with huge tits!"

And just when did that happen?
