

My Ideal Life in Another World

ボクの理想の異世界生活

NORUN

The protagonist of this story, who used to be a 40 year old virgin man until he masturbated too much, died of a technobreak and found himself reincarnated in another world. In this new world, where biological dispositions make it so men can only go into heat and procreate once per year, he has a special ability called "The Monarch's Gift" that allows him to go into heat whenever he pleases.

MISHA

Norun's fiancée in the world he was reincarnated in. A kind girl that likes to look after people and also forgives his lewd tendencies. Women in this world go into heat whenever they smell or swallow a man's semen.

There exists
two types
of collars that
a woman
may wear:

However,
the second
kind is
crafted using
a special kind
of metal that
makes it
impossible to
be removed
by its wearer:

The first
kind of
collar can
be freely
taken off
by its
wearer:

The
second
type
symbolizes
slavery.

A chain
to a life of
servitude. A
destiny that
may have
fallen upon
them due to
a plethora of
reasons, such
as poverty or
committing a
crime.

The
first type
symbolizes
an oath.

A woman's
vow to
love her
husband for
as long
as she lives,
similar to a
wedding
ring.

A chill ran
down my
spine the first
time I laid my
eyes upon
one such
collar:

UM...
MRS. MISHA...
LONG TIME
NO SEE.

NERVOUS
ニキ

She did mention
it some time that
I remember..
It certainly would
be too difficult for
a single woman to
both work and be
a housewife.
That's why my
mother-in-law
hired a maid to
move in with us.

DON'T
HOLD IT
IN AND
COME.
