Afterword

I was on nico nico in front of an ocean of Oniko, and I was looking at the comments, and I found a comment that was like "It would be nice if they made an erotic book out of this", so I thought "Oh! Why not draw one?" and I drew one.

In the middle of drawing it, I finally decided on a design for Konipon and that somehow frustrating thought came to my mind: "Ahh, had I been a little faster, I could have put her in too...".
Konipon is so cute.

If I have the opportunity, maybe I'll draw a manga in which people would tease Konipon, or maybe one in which she would tease people...
