She gooned for months.
She lost her job.
She started to make online content as her
new online daddy told her to do.

Every day...

Deeper and deeper...

No more thinking.

Under her new identity, Luna started dating her online daddy.

Her past life as a boi was just a blurry memory from a long time ago

PATREON
/instableunicorn

Luna was developing a really slutty and submis-
sive personality

In no time she was horny all day and totally obsessed with her daddys cock.

In a couple of months, Luna was able to solve familiar conflicts and re-engage with old friends.

PATREON
/instableunicorn
