Hello! My name is Kimiko!
I am 43 years old. I live in Hyogo countryside. I grow potatoes and green onion in small field. My husband passed away 5 years ago. And my daughter is moving away to Tokyo for University. I wanted to try new things because now I am lonely. So I install this app, and became a host.
If you like Japanese countryside life, and want to experience farming and relax with nature, please come and visit me!
