Afterword

Nice to meet you. My name is Dokusai-Hime and I usually work on CG collections of masochist males (and sometimes vice versa). In my previous work, I drew characters wearing very colorful and flashy clothes. So this time, I drew girls with black hair and wearing simple school uniforms.

One of the themes was "the public morals committee", so I wanted to show a school with strict school rules. I asked around my friends and other authors, but schools with a public morals committee are actually quite rare. Maybe they only exist in manga and anime.

The head of such a stiff committee actually loves to have his nipples teased...

It is fun drawing a square person like him giving in to sexual desire.

I especially like the scene where boys lined up naked and had their bodies examined at the end of the story. I bet I could create a whole story on this situation alone.

The girls are wearing white gloves, but the boys are fully naked... These kinds of contrasts are an important essence for CFNM (Clothed Female and Naked Male) genre and I would like to keep drawing it.

Thank you for purchasing my book.
