**This all started
one month ago...**

As a researcher in the Extraterrestrial Department, I was sent to an unknown planet in order to look for new resources...

This planet is abundant with a variety of living species, and a lot of undiscovered plants. Though when I was passing by a cave, I heard someone calling my name...

The voice was magnetic, beckoning me to explore the cave...

That's odd, where did that voice come from? And why are there so many sticky plants...

This is making me uneasy...

What an interesting lifeform...

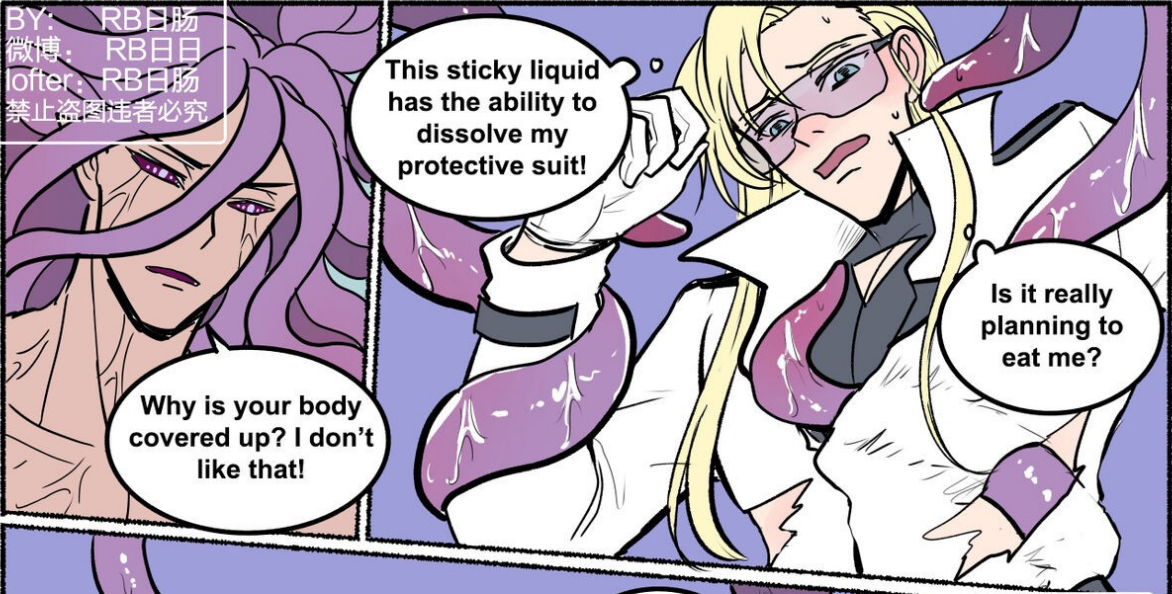

Such a sharp fellow...

一切都要从一个
多月前说起...

为了获取新能源，
我作为外星环境探

个陌生的星球...

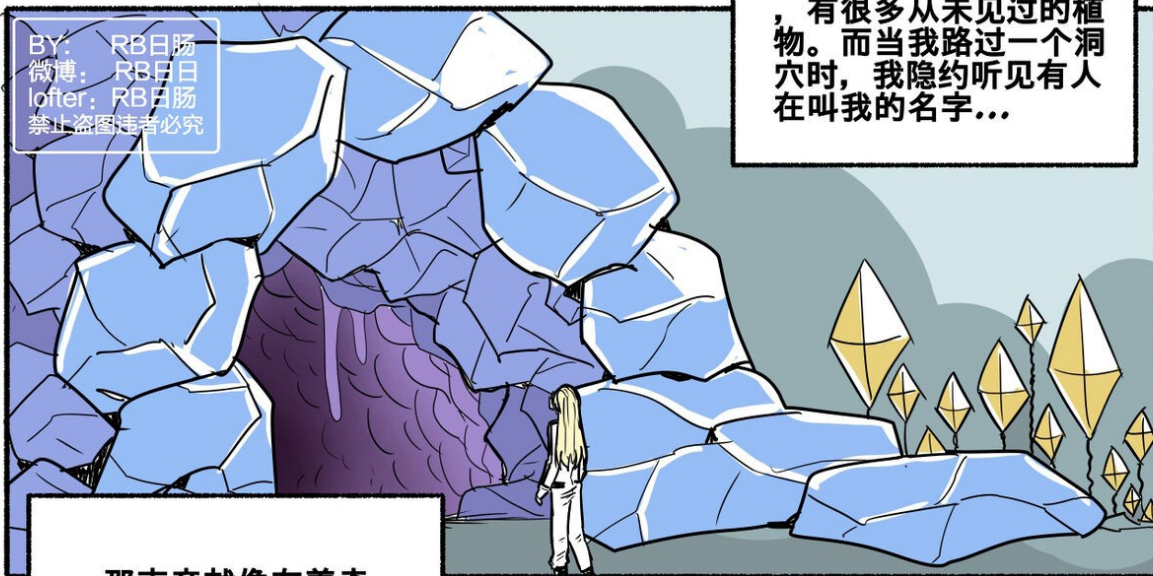

晶体植物

这是个物种丰富的星球，
有很多从未见过的植物。
而当我路过一个洞穴时，
我隐约听见有人在叫我的名字...

从哪里传出来的？
怎么到处都是这种
黏糊糊的植物...

真让人觉
得不舒服...
