I Fell in Love For the First Time.

My stories always begin with an idea that just popped into my head.

"When do people fall in love for the first time...?"
(For me, it was junior high.)
I think the sadness and longing of love must be the same no matter what your gender is...

Then I had a meeting with my editor, T-san. It lasted about half an hour.

"Well, how about you make your next story about two girls, then?"

That was how I ended up attempting a story in the genre some call "lez" and others call "yuri."

Well, that said, I came up with the script in the same way I always do. I figure things must not be that different between two girls.

I hope this story will give you at least a few warm fuzzies.

Well, that's it for the first half of the book. The second half is about a boy and an older girl. I hope you enjoy it. ☆

I fell in love for the first time.
