

After the body modification and the training is done,  
it is now time to make her excrete her  
personality and turn her into a product.

She must do her final defeat-mating  
with a livestock that can ejaculate  
personality excretion jelly.

Thank you for...♥

Ending my, Taimanin  
Rinko's life...♥  
With a magnificent  
cock like this...♥

The ability to satisfy  
interspecies is crucial  
for non-human owners.

She must thank and  
service the livestock  
that'll destroy her anus by  
licking its balls and  
anus sincerely.

To excrete her personality, personality excretion jelly must be injected inside her rectum to the point her belly inflates.

When the injection is complete, the Taimanin won't be able to close her anus by herself.

Because of that, her anus must be plugged to keep the jelly in until it absorbs all her personality.

Inflated belly, loose anus, swollen up clitoris and breasts. As foolish as I was, I didn't give up hope until that day. Right before the execution, I tried to escape.

But, with a body like this, breast milk and personality dripping down,

escape was never an option. I was caught immediately.

My final struggle ended in vain, as the slave collar I put on myself activated.

"Beep-  
Escape attempt detected."

"Disabling body control. Switching to briefing mode."

Yes, I am product name Akiyama Rinko. The product briefing will begin soon, and when it's done, the execution will start.

For easy excretion, my anus has been stretched

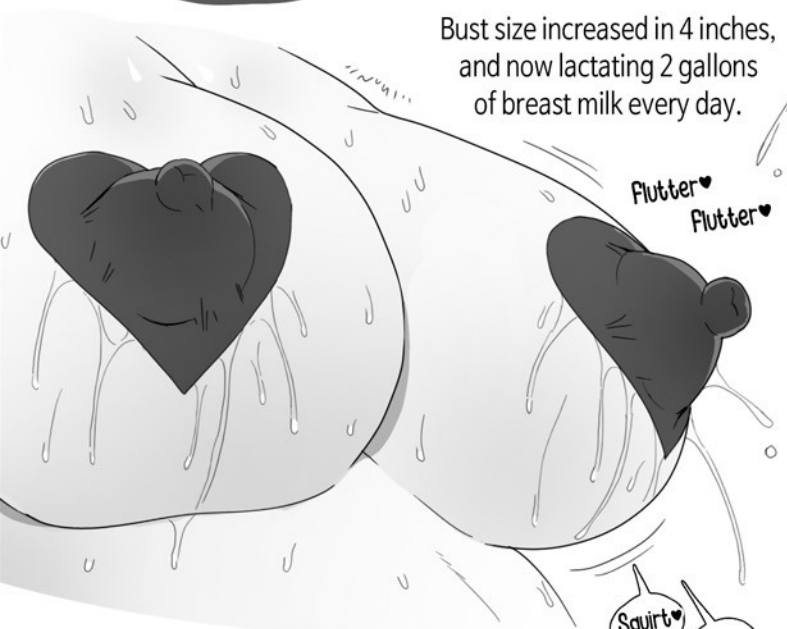

and the sensitivity is increased. Now my anus is extremely loose and sensitive.

Before the excretion, let's check the quality of personality jelly.

The personality jelly is included in the product, and it can be processed in any form-

Haa...♥  
As you can see...♥

It is high-quality personality jelly...♥  
With a thick viscosity...♥

I have now excreted...  
About 55 inches...♥

The entire length of the personality jelly is 70 inches in total...♥

인격배설을 위해서는  
복부가 부풀어 오를  
정도의 인격젤리를  
받아내야 합니다.

젤리주입 과정까지 모두  
끝마친 대마인은 더 이상  
항문을 스스로 닫을 수  
없게되며

인격을 흡착해 배출이  
쉽도록 하는 애널플러그를 삽입하여  
인격젤리가 흘러지 않도록 해줍니다.

네, 상품명 아키야마 린코  
제품 브리핑 후 인격배설  
처형식을 시작하겠습니다.

원활한 배설을 위해  
항문의 확장과 감도  
조정을 실시하였으며

현재 항문은  
극도로 민감하고  
혈렁해져 인격배설  
전용 오르가즘구멍이  
된 상태입니다.

가슴은 10.2cm 가량  
비대해져 하루에 7.5리터의  
모유를 끊임없이  
분비하고 있습니다.

복부와 팔약근은 인격젤리를  
담은 상태로 아슬아슬하게  
버티고 있기 때문에

언제든지 인격을  
싸지를 수 있습니다.
