she said really struck
my nerve and I slapped
her

Maybe I should have
just let her go and forget
all about it... Maybe that
was for better.

But then 3 years we
spent should've meant
something...

None of it mattered to
her when some douche
with Bentley rolled in.

Ang스토리 1-68 by CousinAnon

From this day forward
anyone who plays around
with Somie's desk, shoes
or any of his belongings,

and anyone who
pushes him around,
throwing things at
him or hitting him

I will personally see
to it that the offenders
are fucked for good.

Because he is my
friend.
