Petit Devil
tha internets

Artist:
Yui Haga

Translator:
Uglicus

Editor:
Slothfully Determind

Ah yes. This is an interesting one. Translated way back by Uglicus, but these terrible terrible scans... There were actually pages from two sets of scans, the others a bit worse off than this. Not only that, these scans had counterfeit pages that removed the (clearly false anyway) references to incest. So what Uglicus started with turned out to be one counterfeit page, two blurrily scanned pages, and one original page that refers to her as 'sister' anyway.

Thanks to Dante for tracking down a complete, unaltered scan on the Japanese internets. That said, if anyone finds something better please let me know immediately.

So I put this aside for a couple months, working on other stuff/goofing off, kind of gave up hope on finding better scans. Really should have done this sooner I guess; first two pages took a few hours but the second two weren't as bad...

How bad were they? Read on.
