

DOG "LUV" LIFE

A LOVE STORY...
OF A GIRL AND
HER DOG,
NAMED "LUV"

Translator's Note:

The Japanese word "Rabu" is a clever play-on-words in Japanese, because both "Love/Luv" as well as "Lab" (for Labrador Retriever) are both pronounced in Japanese as "Rabu"

Hearing the sound of my voice and Luv's grunting echoing off the walls of the bathroom as my dripping ass and his haunches are bangin' together...

I can feel the cum squirting from the tip of his fat cock as it hits against my cervix... ♥
