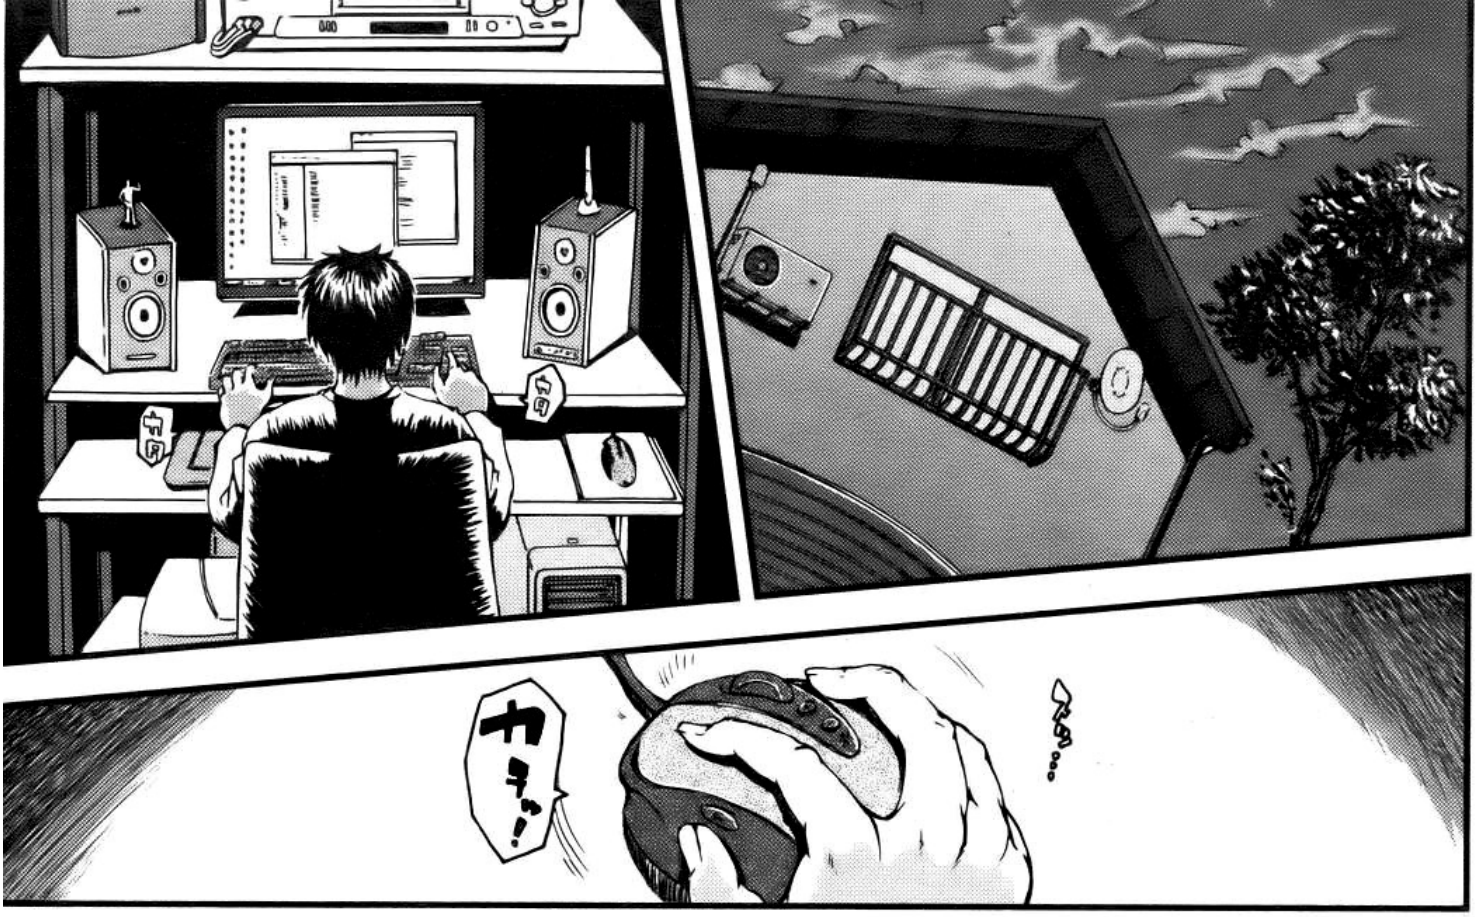
That's right~
You were defeated by the antivirus software again?
It's the seventh time already...
Uh~
Are...
I'm not alright...
Are you alright?
Eh?
...Is impossible for you now!
Worm, going anywhere...
Trojan!
Hey~ thanks for your work~
You got into a corporate server right? How did it go?
Hm? It was easy.

The virus and spyware...
...Smashed it into pieces!
Trojan, you're amazing!
I was defeated by the antivirus software just now...
That's not good~
Earlier... you said it's impossible for me to go anywhere...
What do you mean!?
Ah... That.
I mean this.
Eh?
Th... this is...!?
That's right... it's Worm's search file.
This is why you'll be caught before you can slip inside no matter where you go.
That file definition has been circulated around by the antivirus software.
No way...
But it's okay! There's a way around this!
Eh? What should I do...

You can upgrade!
Upgrade?
If you get a body the antivirus software doesn't have a file definition for...
Those guys can't tell if we're viruses.
Hmm~
I just did it myself,
Shall I do it for you too Worm?
Y...
Yes please!
C'mere,
I'll make you like new.
Yes!
That hurts quite a bit...
Will Worm be okay?

Is it over...?
Oh...
Waah! Trojan, what are you doing!?
What, I'm upgrading you.
But this is... ah! No!
N... Noo-oo!?
どたばたどたばたどたばた
...
Hey~ Thanks for waiting~
.....
Well? How do you feel?
Y... yeah... I'm fine!
With this, you can go anywhere you want, Worm!
O... okay~

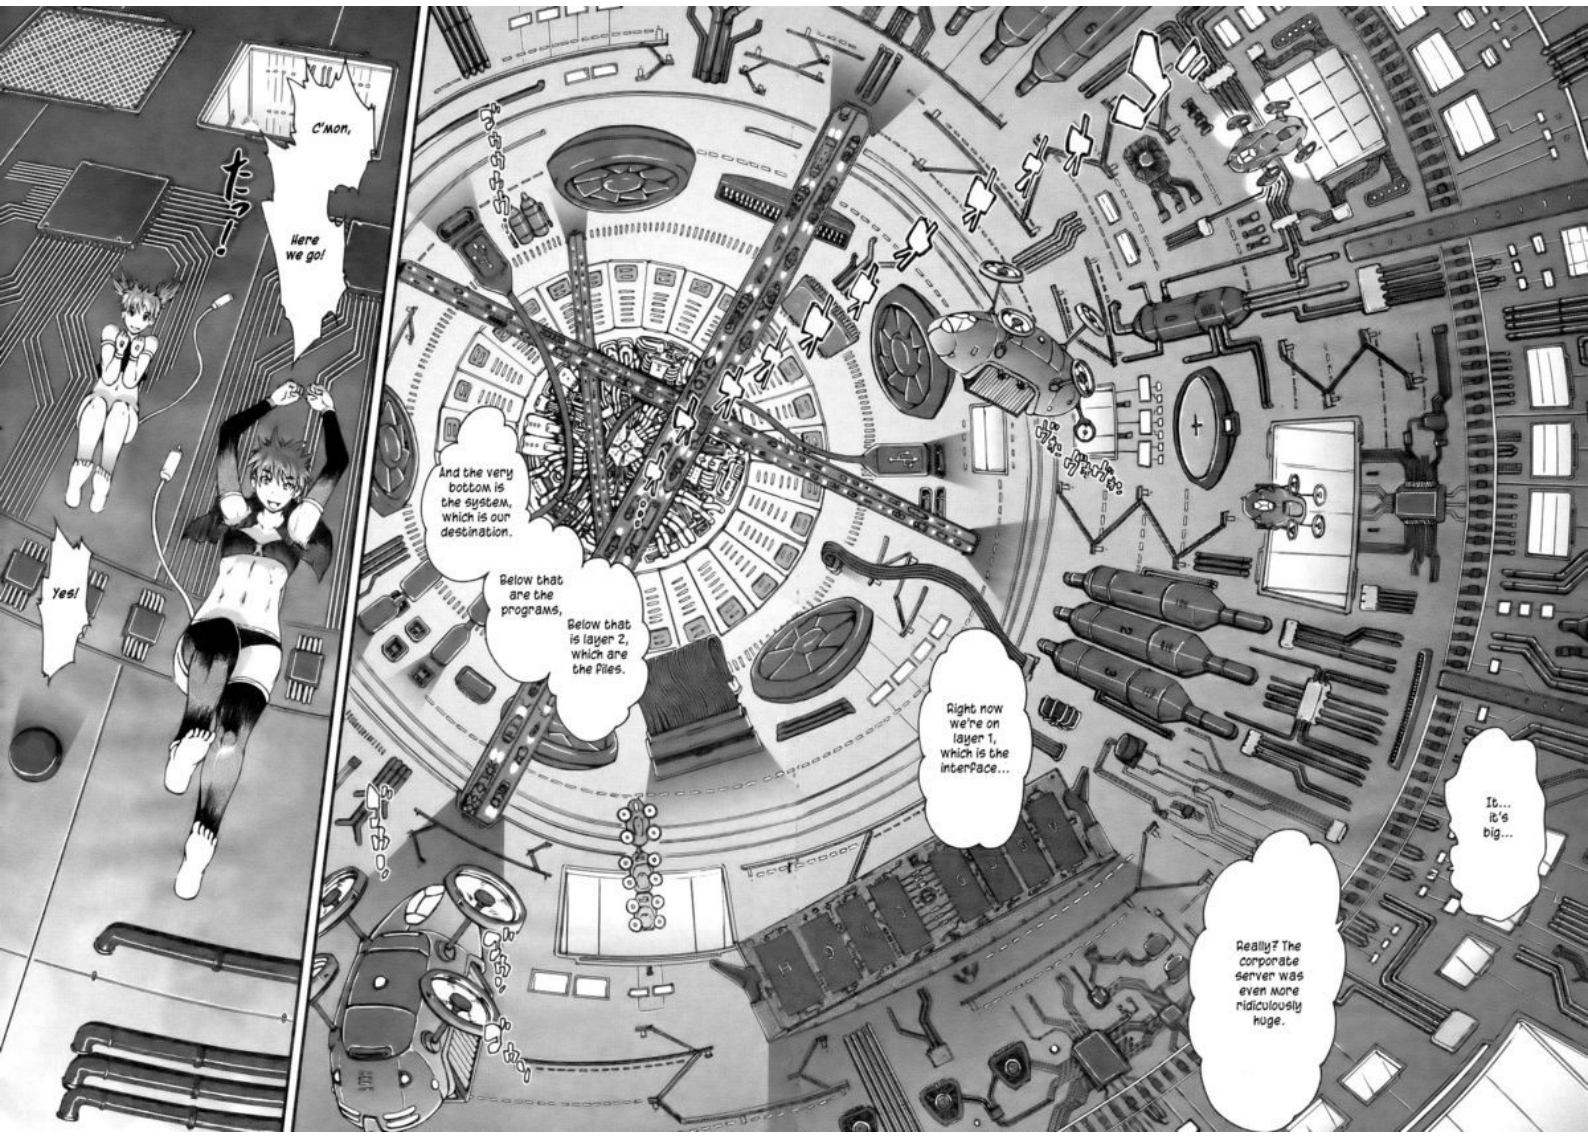
What's wrong?
.....
しゅん…
I'll go back there one more time... and get my revenge!
ぶんっ!
Run riot to your heart's content.
Um~
I'm a bit nervous... going by myself... Trojan... could you come with me?
Huh!?
But my plan...
...Is to now go into a government server, you know?
Uh--
I... haven't gotten past the antivirus scan once...
Why don't you go with her?
That's right...
Worm, you're going to a private PC?
It shouldn't take long then... how about I go with you for just a bit?
Really!?



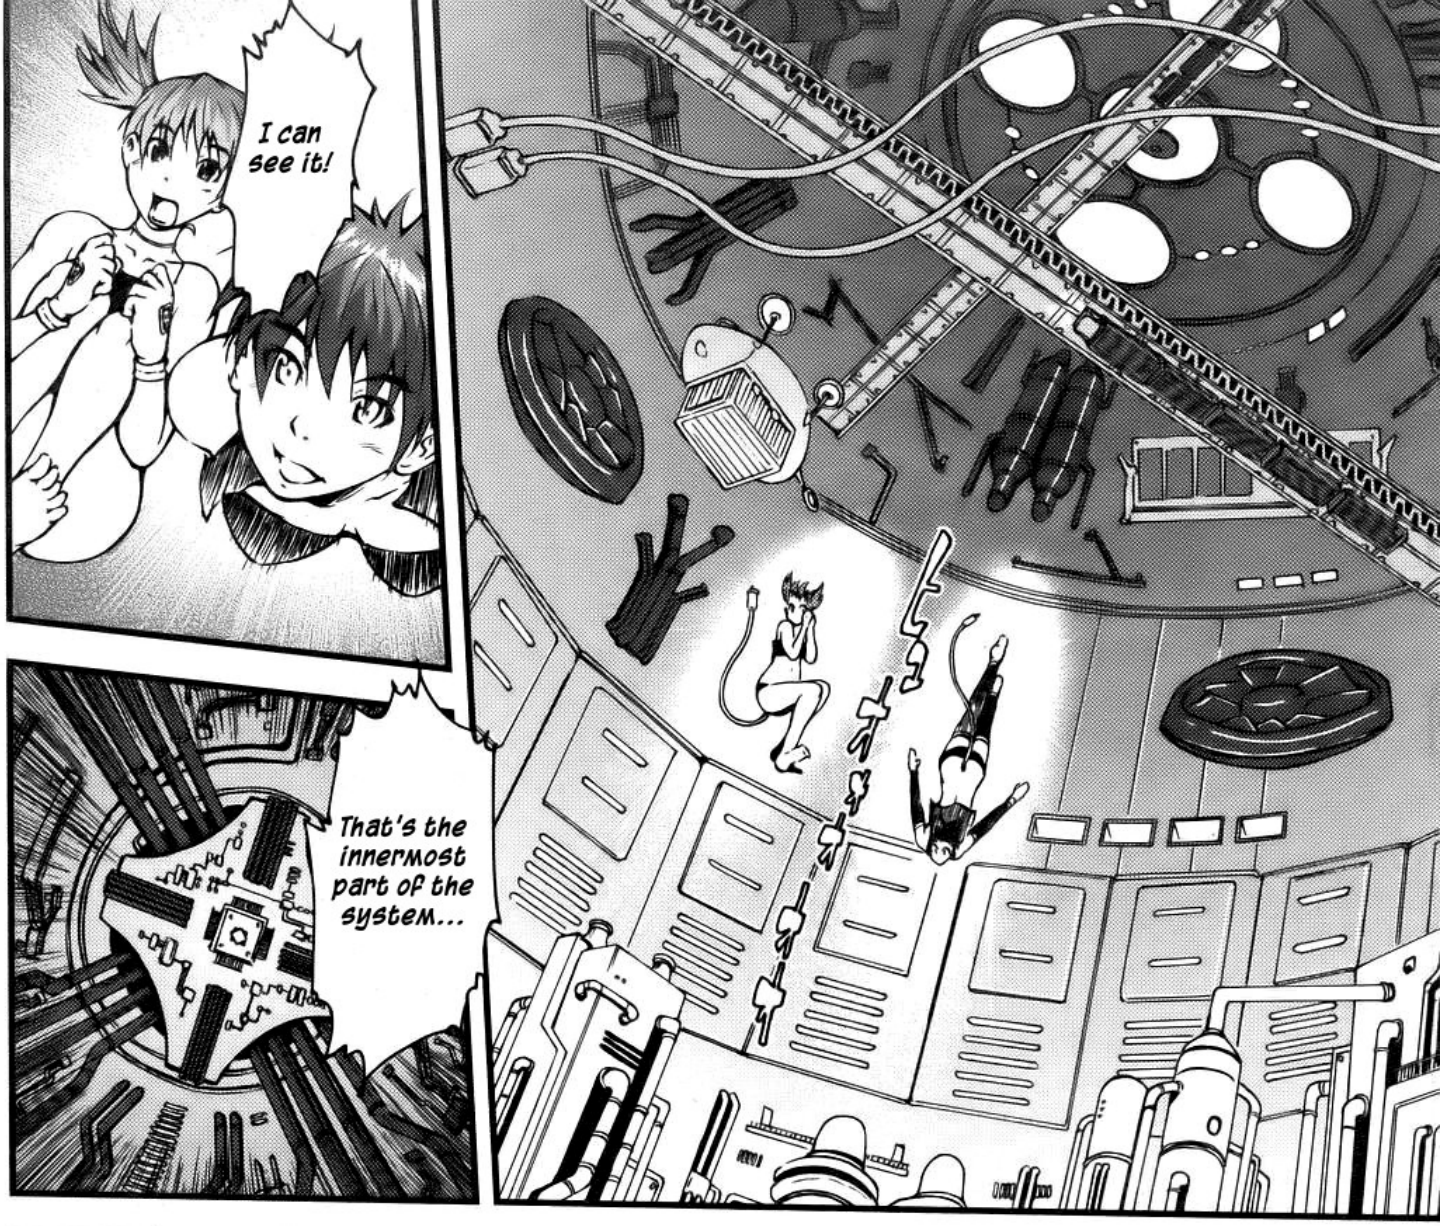
01 1 001 1 1 01 1 0001 01 01 1 1 01 1 1 01 1 01 01 001 01 01 01 01 1 1 1 01 01 0001 01 01 01 01 1 1 01

I said it'll be fine...
It's him! He was the one who defeated me earlier!
I will perform a scan.
C'mon, hurry up and scan us.
Uh.
ぐぐっ…
ず…
…
Didn't I say so?
We did it, Trojan! This is the first time that guy said I could pass!
See.
!
ど
Very well, you are authorized to pass.

TCP/IP
Worm, is this the first time you've come this far?
Yes... that's right!
I see...
I guess for your first time,
Something this size is perfect?
Look...
This is...
...Inside a PC.



C'mon,
Here we go!
たっ!
Yes!
And the very bottom is the system, which is our destination.
Below that are the programs,
Below that is layer 2, which are the Piles.
Right now we're on layer 1, which is the interface...
Really? The corporate server was even more ridiculously huge.
It... it's big...



...Which we're gonna destroy!
ドドド

Hm!?
An irregular error has occurred.
OK
Pi!
Uwah,
This sucks.
It crashed.
カシカシ
Wh-
What's wrong with you!
ぐらぐら
I'll format it and reinstall the OS...
Can't be helped~

Puhaa!
Ow...

Yes! I finally did what a virus is supposed to do!
Well? It feels good to smash things, right?
Take that!
Okay~♡
Now then... how about we smash stuff a bit more and then go home?
Eh?

We weren't planning to go this far...
This is weird--
ドォォン!
ドォォン!
ドォォン!

And it's a couple of viruses?
I came to see what happened...
Wh...
Who's he?
Kuh...
Ku...
So you... were the ones who crashed the system...
The administrator.
I am the most powerful entity in the PC.
Uh-- This is bad...
T... Trojan...
So run away as quick as you can, okay?
...There's no way you can win,
Are you listening? If you meet the administrator...
Though you won't meet him often...
A-
Administrator!?

The owner ordered a format.
We will delete you.
Did you say format!?
Format?
Destroy everything at once... and reconstruct it from the bottom up.
ドォォ
We can still make it!
We're getting out of here!
Y... yes!
