A Pregnant Slave's Life in a Whorehouse

The Story of a Girl Called El

From the northern continent to the southern continent.

This was a time of great strife that the theocratic "Holy Valestin-Estena Empire" later called "Estena's Descent into War." Human and elf, the half-elves from the two worlds of forest and man were loathed... the invaders from the north, devotees of the Estena Church in Valestin, declared these "aifs" to be "demons," and they were even more cruelly persecuted.

Milt, one such "aif," lived quietly alone in the remote borderlands. In the confusion of battle, she fell into the hands of a slaver and became the property of Lord Heintief, who had ventured out of central Valestin. Her life as a "demon" thus began...

Character in this work

Milt (female)

Half-elf girl with a first-rate pair of breasts. Continuously raped by Lord Heinlief, she was saved by Raleigh. When she had sex with Raleigh to meet her medical need for semen, she accidentally became pregnant. However, during their flight she became separated from Raleigh. She was captured alone and taken to Inas City, located at the border between Valestin proper and its occupied territory. She loves Raleigh, but he's always continuing to look for another half-elf girl and, although she has his child, it was clearly an accidental result of her medical treatment. She's again being continuously raped, so she feels her body is clearly not worthy of praise. Thus, she feels that she is presumptuous and shameless for loving Raleigh.

Characters related to this work

Raleigh (male)

A knight of Valestin, but by chance he met the half-elf girl Elie, whose existence was supposed to be an abomination according to his creed. A change in his teachings was born, and he brought Elie out of her reclusive lifestyle. However, when he later became separated from Elie in the midst of the wars and plots, he actually abandoned his position as a Valestin knight and joined the underground organization called "Tropic of Capricorn." He is continuing to look for Elie.

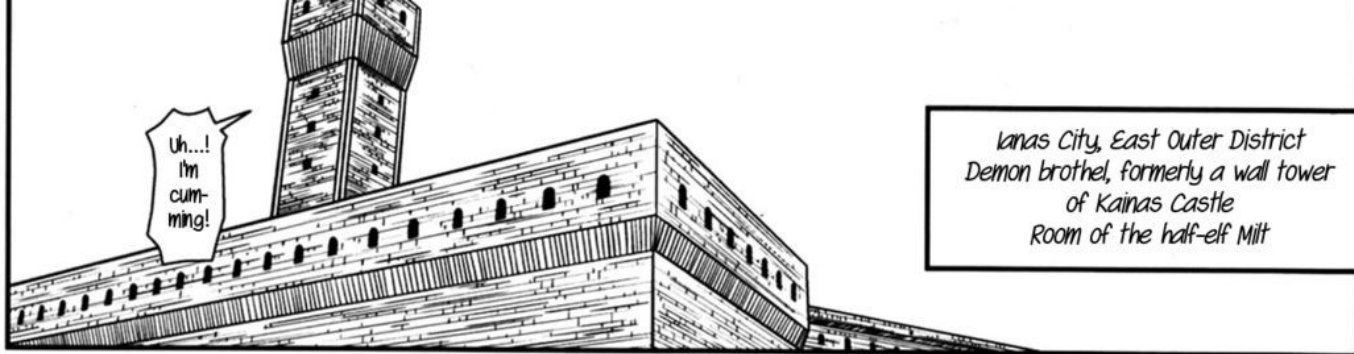

Jona (female)

A girl who's a member of the "Tropic of Capricorn." A squire. She saved Milt with Raleigh. In her role as Raleigh's support, she spends a lot of time with him and has gradually developed feelings for him. She is loyal to her duty, but as a woman she has slightly complicated feelings towards the beautiful half-elves Elie and Milt. She has met Elie.

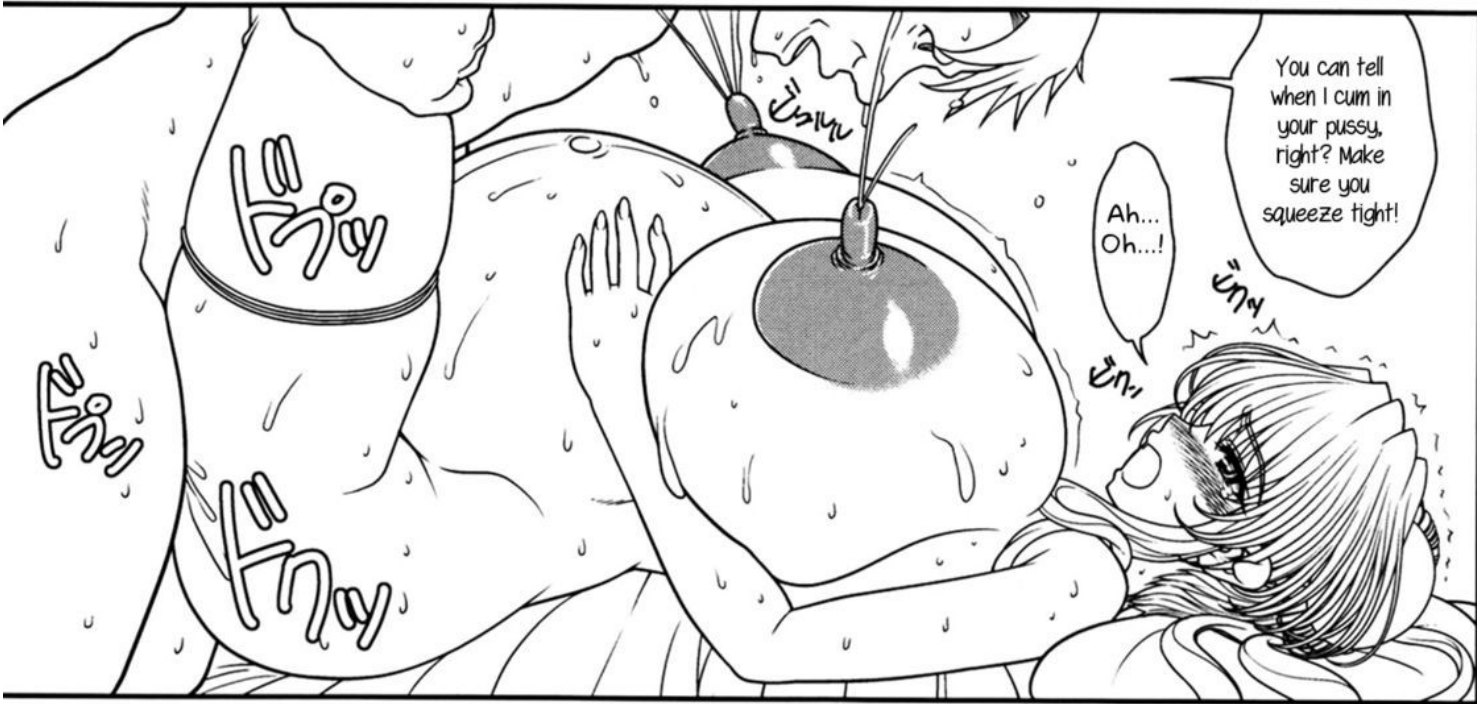

Elie (female)

A half-elf girl with emerald hair. By offering her body, she was tolerated by the humans in the village and somehow scraped a living. She saved the wounded Raleigh in the forest and later left the village with him, but currently her whereabouts are unknown. She continues to think about Raleigh.
