First off I'd like to thank you very much for picking this book!  
 I never would have even dreamed that the Ginza Shopping Street that I started on Pixiv as a work between friends would get it's own book!

Thanks to Ushitora for working hard with this on me, as well as everyone else. (ノノノ)  
 This time is Ushitora's "Kumahachi" and my "Juuzou" meeting to their present everyday life lol kind of drawing. Although...if their everyday life is like this then making a permanent residence there might be a bit difficult. (ノエノ)  
 If the opportunity ever arises again I'd like to write a manga about Ginza again~  
 Finally I'd really like to from the bottom of my heart thank Ushitora and Senichi san for creating this wonderful manga with me!  
 I love the both of you~~~~!!  
 It's all thanks to you two that I was about to make this wonderful manga, I can't thank you enough, thank you.
