But...

my name is Tyga

After my encounter with Claus...

Why There So Much Claus?

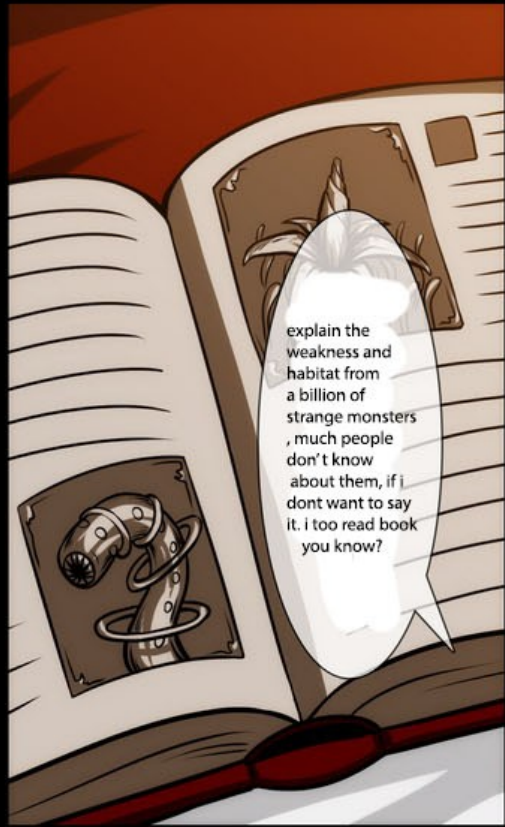

hey hot, how are you?

1 hour ago

Tyga, where are you?

explain the weakness and habitat from a billion of strange monsters, much people don't know about them, if i dont want to say it. i too read book you know?

eh? ah... I found this rare book, i'm reading interesting things about evil plants, for example this book...

now i see that you like hiding from me, what you reading?

well, i think you read the book, those are akatena flowers, let me tell you a story...

Really? well Claus, can you explain me, this monster

my sister always is asking me because i know it all

my body  
its food for  
akatena  
flowers

Well, the story  
is like this...

i only live for  
searching new  
content for my  
novels but i  
was and idiot,  
is all fault of  
the squid.

OH  
GOD!  
i love his  
books...  
eh... sorry  
continue

Wait a sec,  
Clint...?

Are you sure  
that is Clint  
Westwood?

The famous  
novelist  
adventurer?

this is the  
story of my  
last partner  
Clint, and i  
tell you like  
he tell me

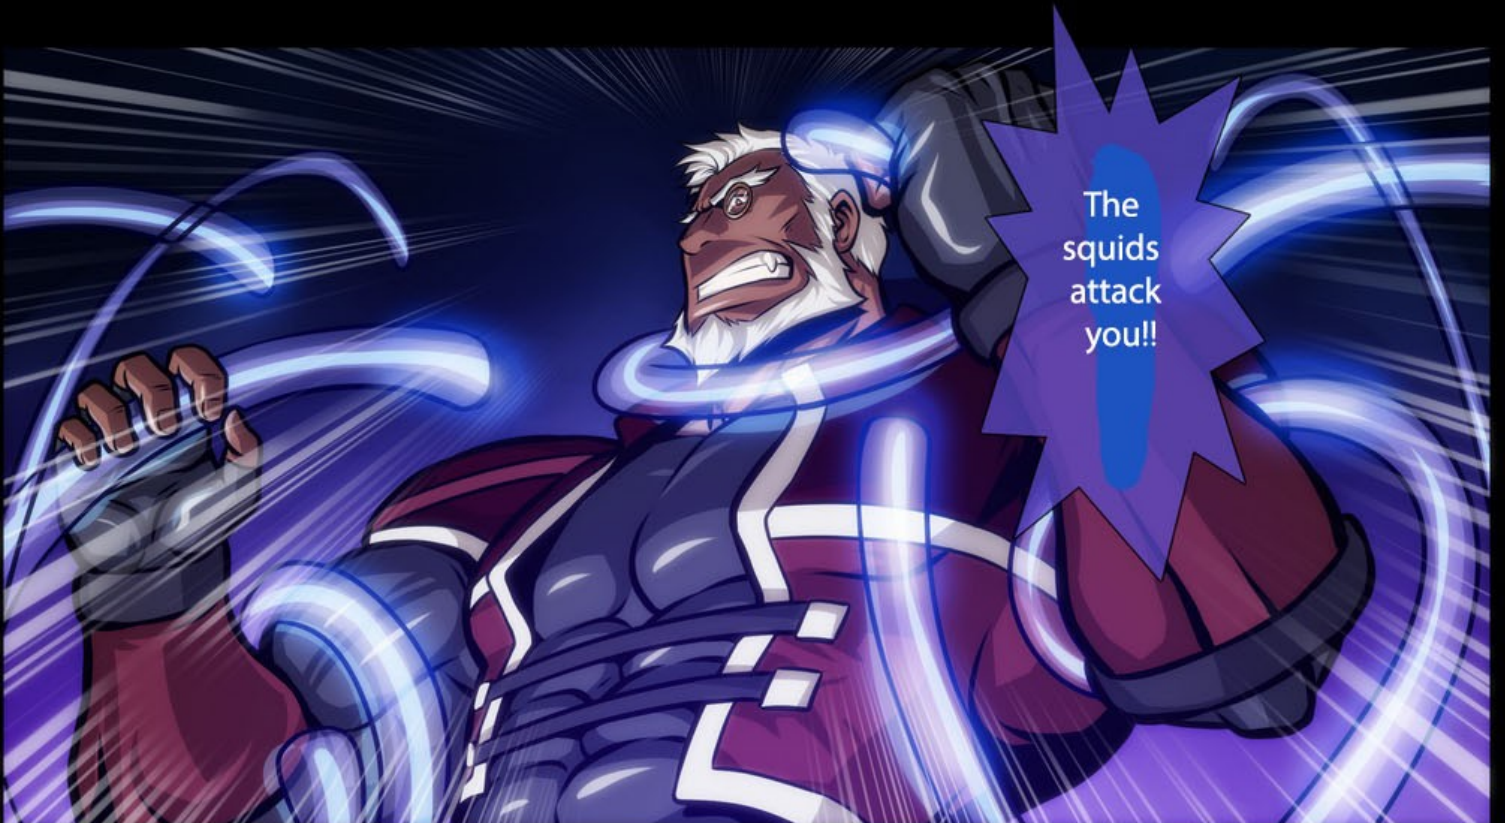

if you  
try to put  
your hands  
on it...

it pretend  
to be a  
simple grass,  
its shine  
attract to  
humans and  
other  
creatures

those  
flowers  
are really  
monsters,  
and i dont  
have any  
repelent

The  
squids  
attack  
you!!

all my  
body was  
incapacitated

the  
insects  
wrap  
around  
my body

the  
flower  
swallow  
me

the stomach drop a secretion in my body

once I swallowed by the monster, was impossible escape

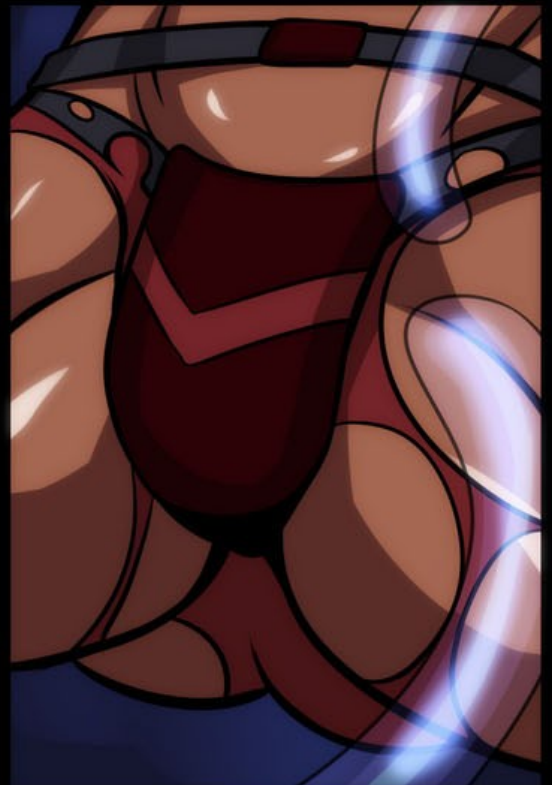

I wish to be a magician but, in my condition i couldn't fight, even speak

it's harmless to body, but my impurities and cloth was melted

prey's body is cleaned...

its  
useless  
to struggle,  
will be in  
vain

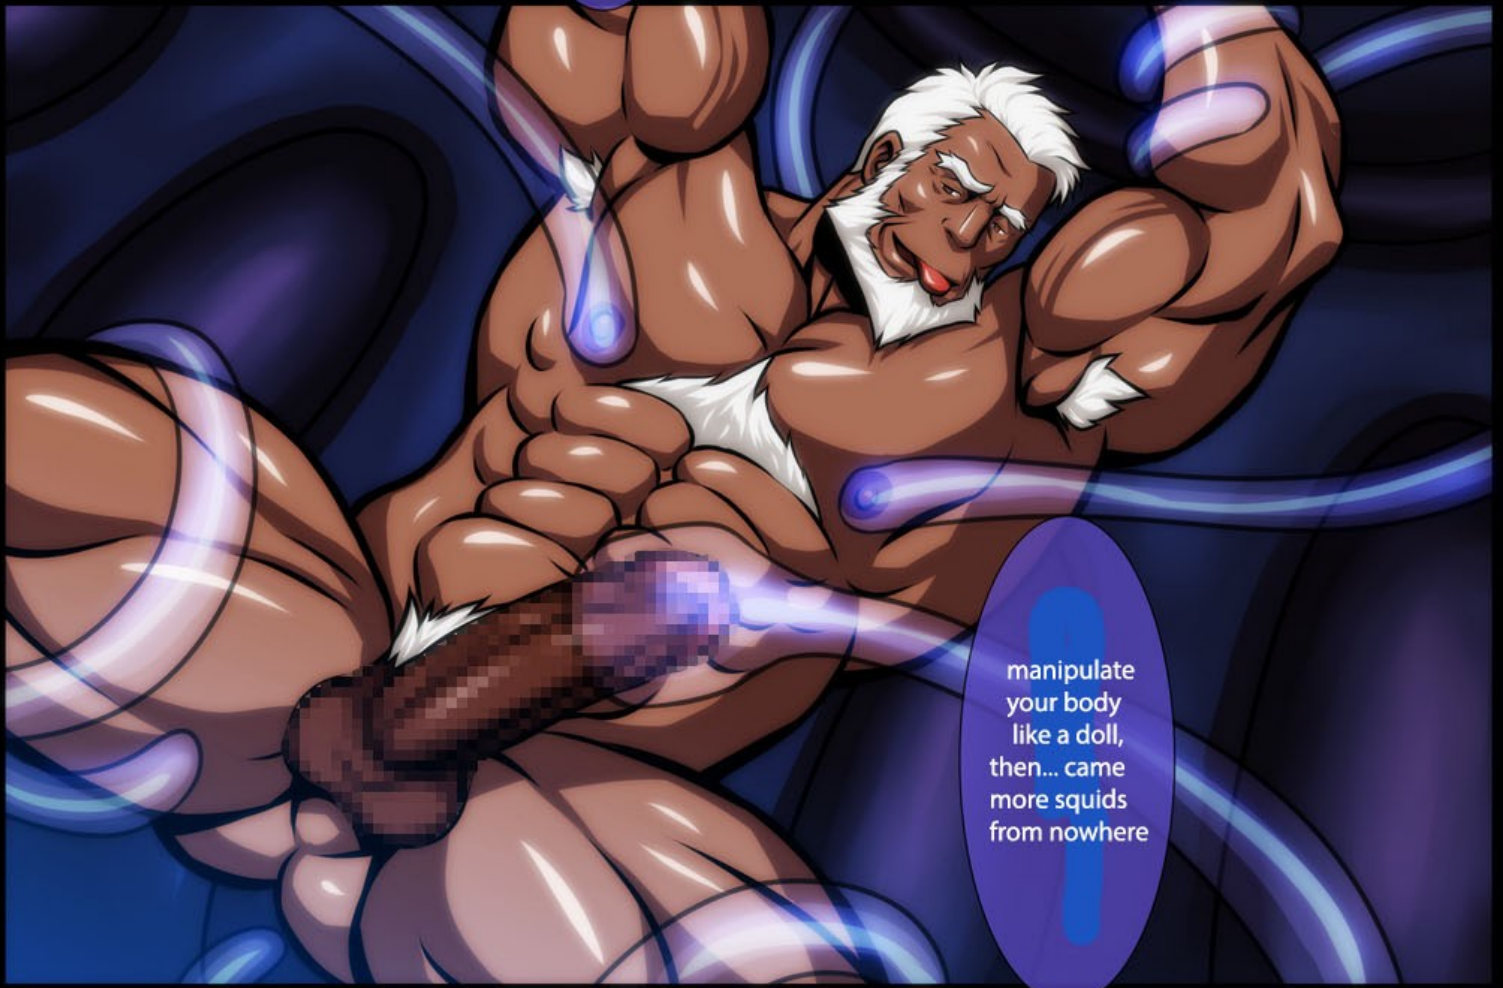

anyway...  
sooner or  
latter, the  
mental  
toxin is  
injected

i was  
the prey  
of the  
flower

the purpose of  
the monster is...  
get the people who  
still not come to live,  
im talking about the  
semen otherway...  
the life seeds

manipulate  
your body  
like a doll,  
then... came  
more squids  
from nowhere

I can remember the rest very faintly

the squid invade the body

stimulate the prostate

the woman's shape is perfect for they feed from you

ああ...あああ

the attack is repeated dozens of times, my mind went blank

all my power was vanishing, and the monster found another way

the death is the unique escape

after hour I still giving it

bounded by the flower, there's no more option but to be the food

AH...  
what  
the...?

maboroshi's  
butterfly,  
it show the  
most wished  
thing to the  
people

Hm...  
I wonder  
if there  
more  
about  
this guys  
in that  
book

N... NAP?

gahh..  
I think I  
need a little  
nap,  
your not?

I bought

other day,  
don't worry

harmless,

two more  
people that not  
satisfied yet...
