Today's customers will be here until the incense runs out, so we'll be here for a while

Umugai Tower

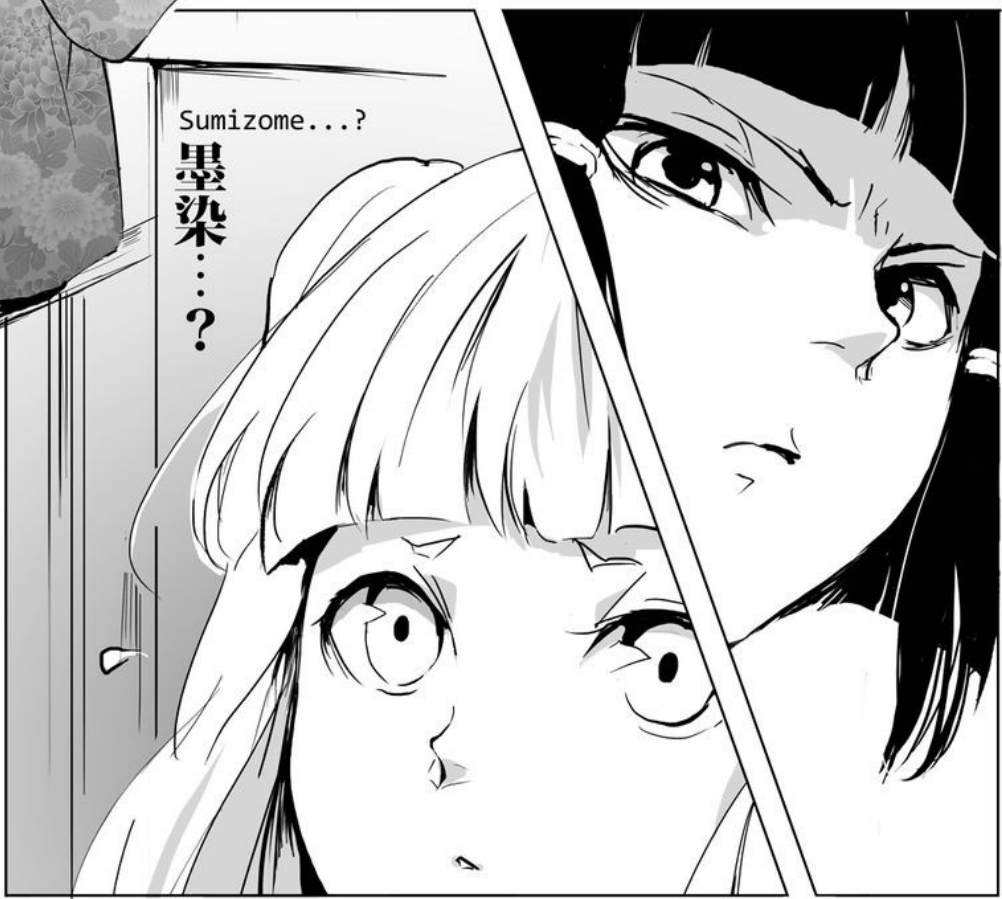

Shiroizumi, time for work

Ah, yes...

Sumizome...?
墨染...?
?

I wonder why he's always staring at me...

You really do have the features of a young girl

I am Shirozumi

Come over here

Ah...

This is the prodigal son of those great shops... I thought he'd look more reliable and strong

Well I said my name...

He seems kind of scary for some reason...

Fuaa...

I'll make it all better in a second

D-don't....!!

S...stop touching it!!

Ahh...!

D-don't....!!

I'll keep
pleasing you,

I tell you to

I've been doing

dangling
around here

Lick it

またいつちゃう!

ヤン

I told you not to cum without my permission

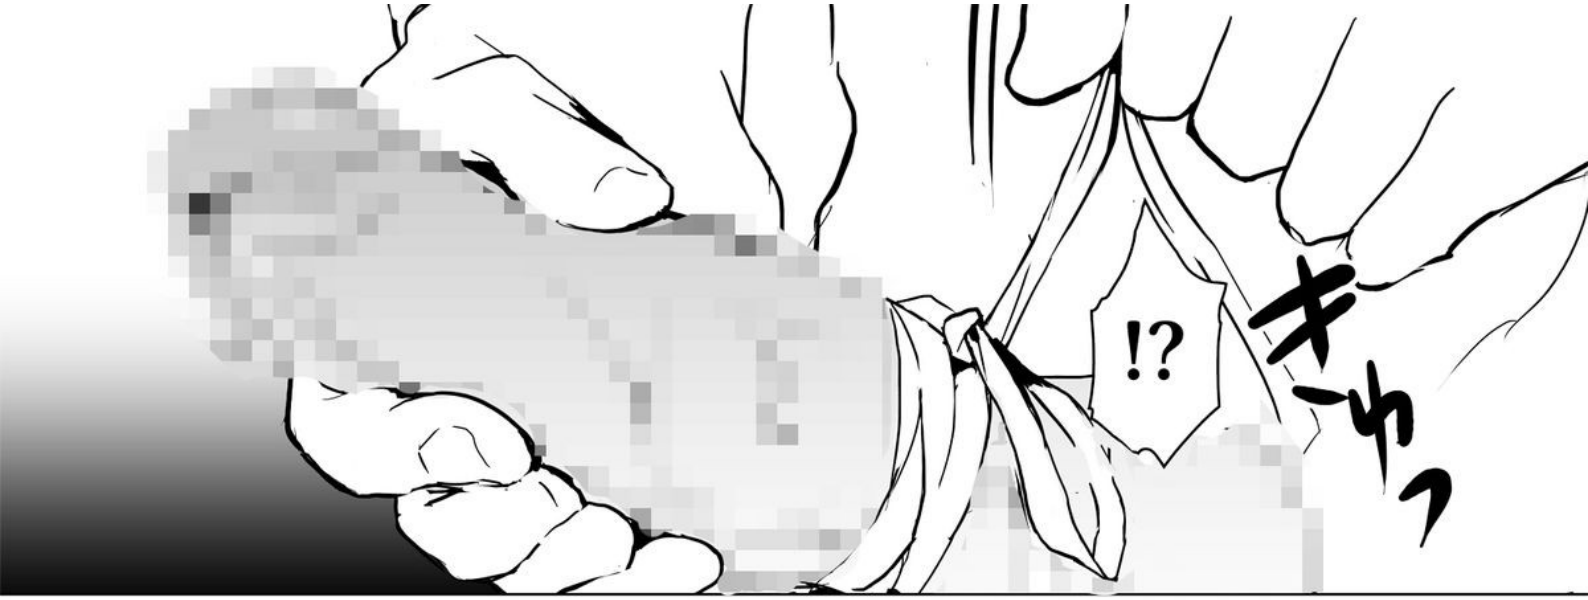

Ah!

You need to let someone know you don't understand what they're saying so they can show you!

Wh...!!

What are you...?!

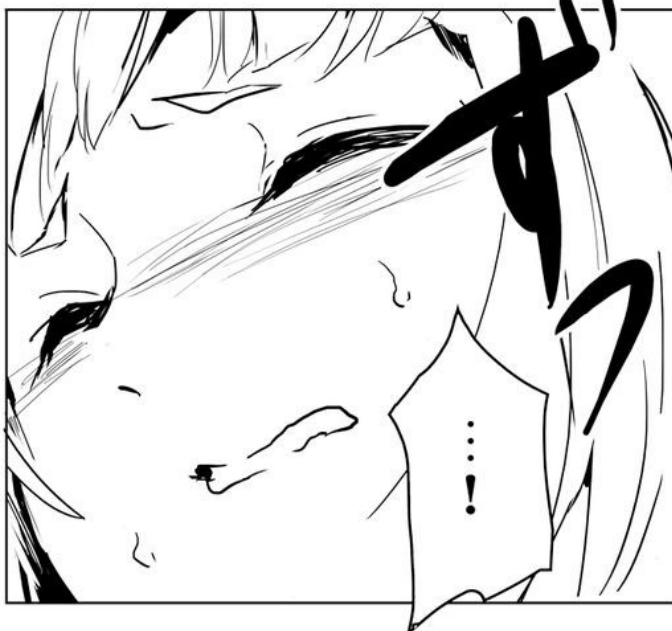

Try and cum through that

Well, I wouldn't do it too suddenly if I were you

With this you won't be able to go and be selfish anymore, isn't that right?

I-I don't want something like this!!

...

Fuuuaahh!!

Aaahh...!!

N-no...!!

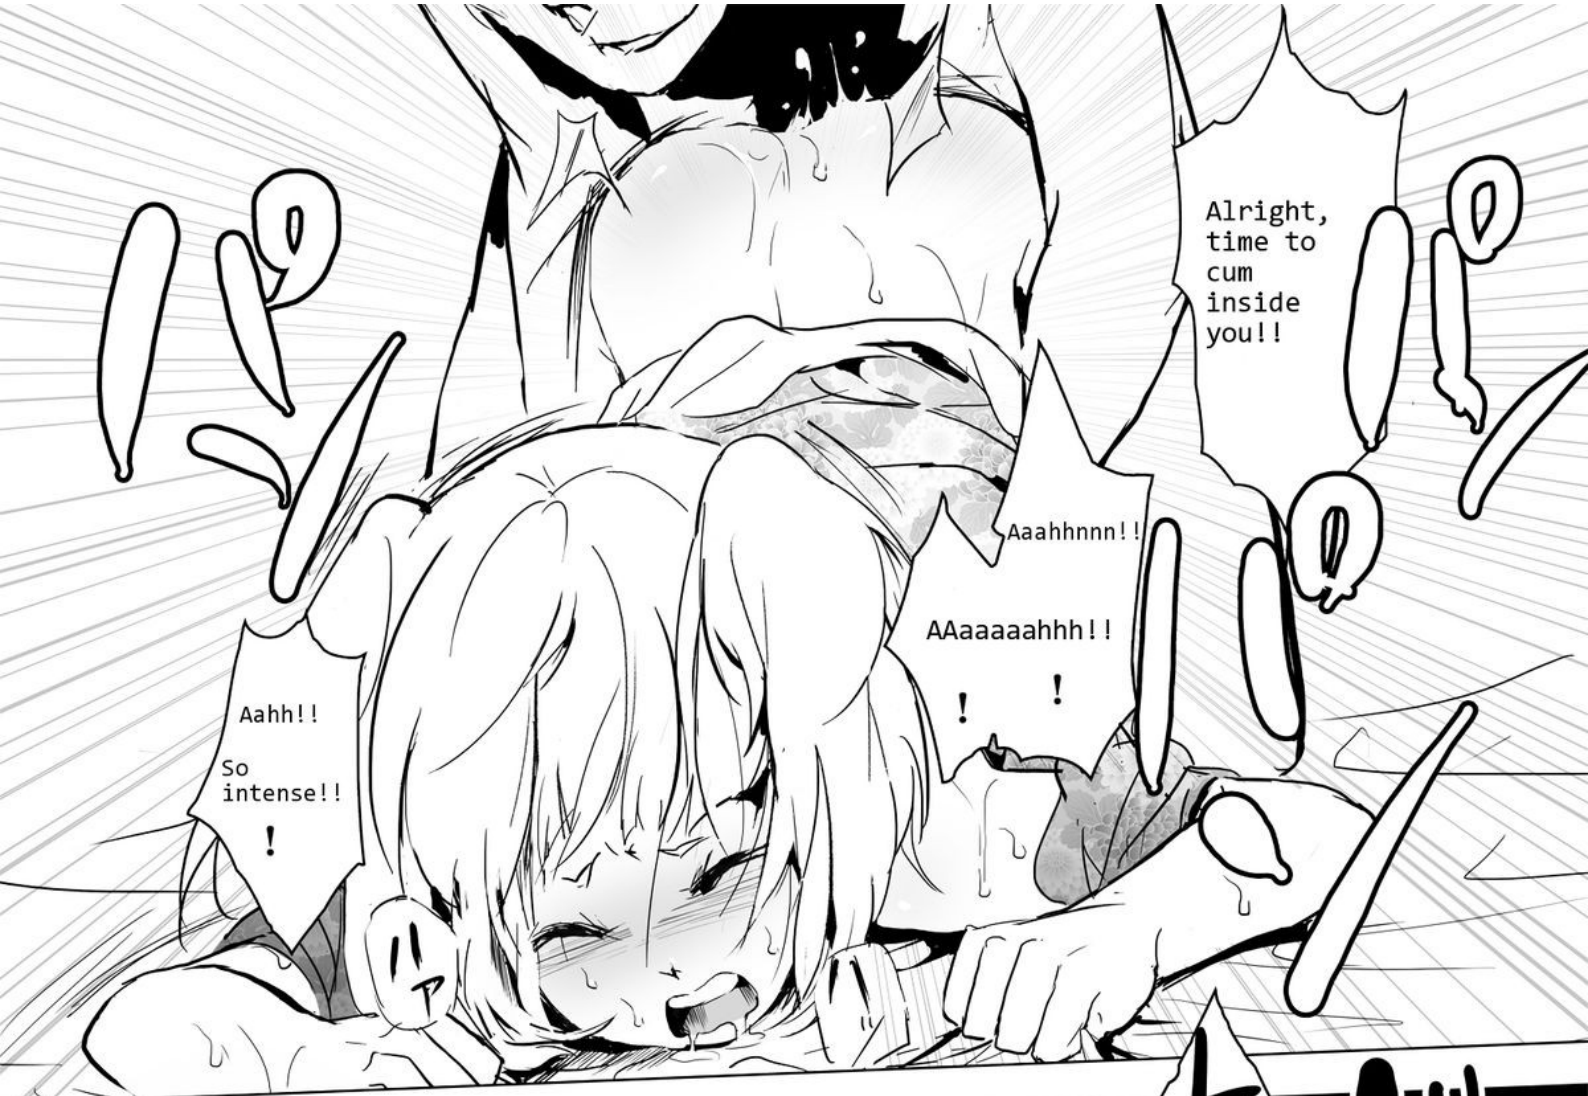

This tightness is amazing...
Are you that turned on being tied up?

AAAhh!!

It hurts!!

Aahh!!
So intense!!

Alright,
time to
cum
inside
you!!

Just how good does it feel?

Haa ...!!

Look how greedy you are
Tell me exactly what you want!!

TL shit no one actually reads

Quick TL note: The "Umugai Tower" at the beginning was originally written as 蛤楼 which by itself would just mean "Clam Tower" (or frog, as clam and frog share this same character, I fucking hate Japanese sometimes). The problem occurred when Locon decided to add some furigana with "Umugai" as its reading.

It being the name of the establishment and Umugai likely being some obscure reading of the character, the difference is too small to worry about. But if anyone is as autistic as me about this stuff and wondering why I didn't translate it, there you have it. Don't bust a nut.

Also a fun fact - on page 4 when he was referring to the man as the "prodigal son" of the shop owners, he used the words 道楽息子 which does mean prodigal son, but can also mean a man who is very loose morally or a corrupt person. Quite spot on.

I took some liberties here and there in this translation. Locon used some fucking weird wording making this shit a pain in the ass to translate. "気を矢ったか", who the fuck says that? The meaning came across at any rate, so it's fine.

That's my second Locon work done. Yes my editing is shit. I'm aware. Stop complaining about it.
