Hello again everyone! SirFatCat here with another edit, although sadly it's another re-edit. I really like Takeda Hiromitsu, and I also really liked this work of his, but sadly the only version available in English was CGRascal's. And so, being bored, I started re-editing it for my personal pleasure and here I hope to share it with you guys. Also I've joined XCX scans (which can be found <http://xexscans.wordpress.com>, come check out some of their/our works :3), and so I'm editing for them now. If you want to see more of my edits, just go and check their blog every now again and look for me! Seeya guys!
