Okay, I'll be completely honest. I don't like that asscrack kid that kept whining about his toy. Who the hell could want any toy over a real cat trap like that (okay, maybe if it were two gtx 780s)? But DAT ART. There aren't enough cat boy traps (or any animal, for that matter) that I'm aware of, and this is an attempt to remedy that. Because holy fuck would I pay a lot for that cat. The ending was also pretty good. That Santa looked like a badass.

As for TLing, the cat kept ending phrases with "nyan" and working it into his dialogue. I'll be damned if I'm gonna sit there and try to create a pun at the end of EVERY line. The ones I couldn't think of anything within 5 seconds, I left as "-nya". Hey, I tried. Also, I TL'd some of the SFX, but not others. Mainly the ones that were stupid romanized I left in kana, but I did try to at least TL one of each (even if most people won't realize which are which).

I saw another animal-trap book that wasn't TL'd yet (though I swore it was), so I might do that next instead of starting OnkH 6. Until next time!

HAPPY FAPPING!
