

Mobile Arena "Aurora"

A place, where Putanari women keep having their dirty fights night and day.

They punch, throw and attack each other as hard as they can...

And all of them wear items that partially transform the physical damage they take into sexual pleasure...

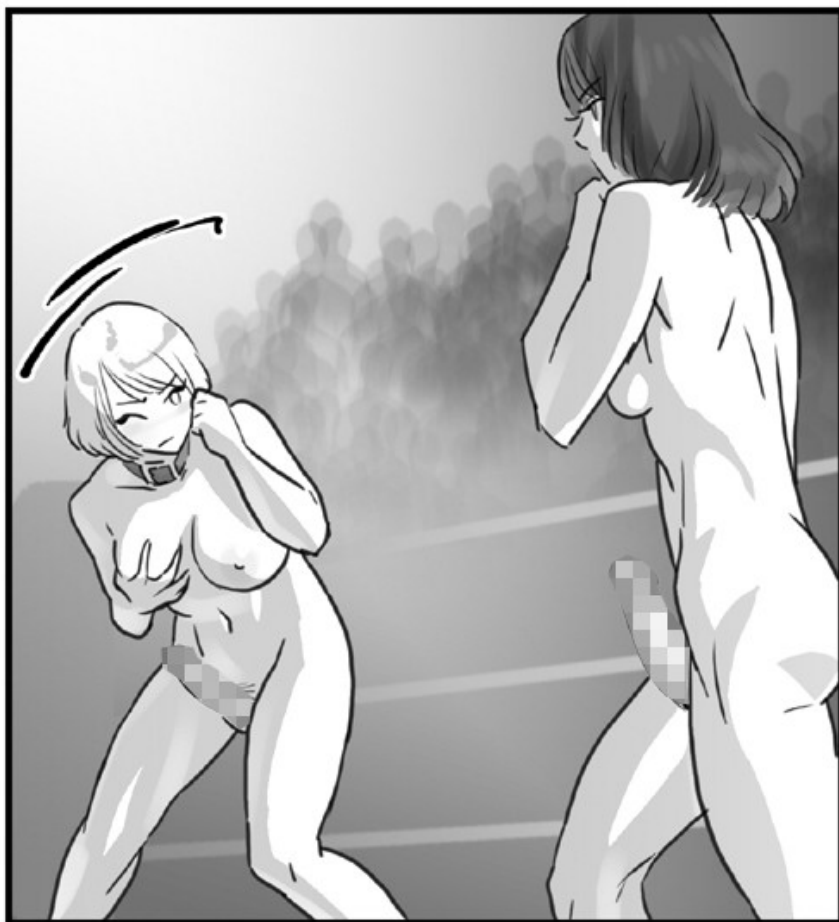

Moreover, their semen has been magically given the ability to increase one's sexual feelings.

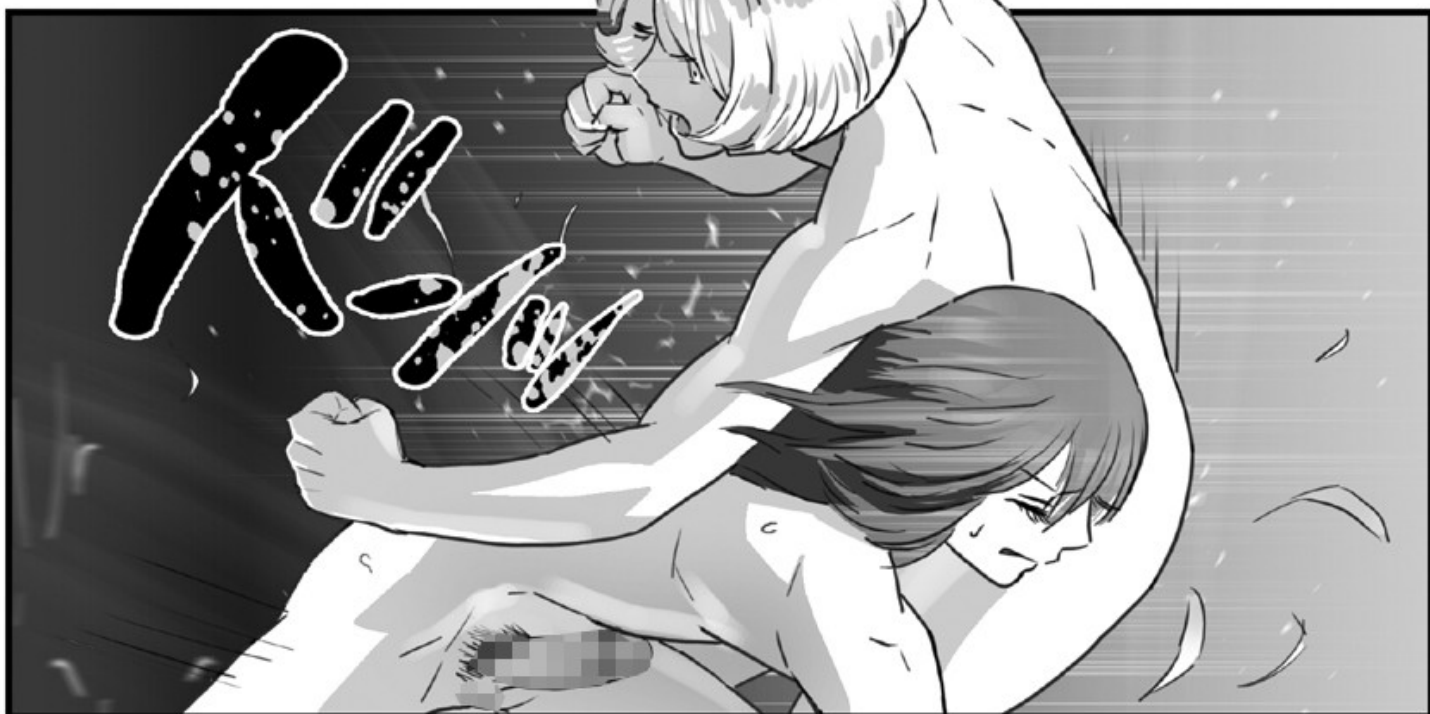

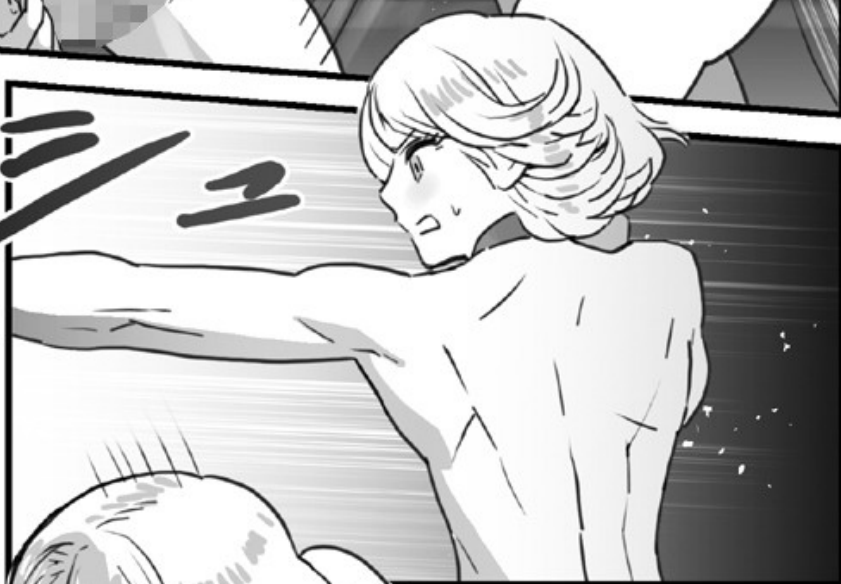

And only the Fighter, who's left standing at the end of the match can keep fighting for her liberation from slavery.
