As she used Kurone's doxxing, socking and strangling video as material for her first time masturbating, it was imprinted into her young mind that "Feeling good = Ryona". By the time she attended primary school, she was also into meat toilet scat and ryona. In the end, she had developed herself into a masochist who masturbated to snuff videos. She became a masochistic sow who couldn't get off to anything but hard crimes where girls had their human rights stripped and destroyed.

To flatter herself up for men, she had to grow her breasts and ass, which means she had to somehow release a lot of female hormones. She did this by reading a female magazine and following the self-pleasure beauty regimen found inside some topic corner. She masturbated and squirted more than 30 times every single day, without missing a single one until she came to Japan.

Huff!♥ Huff!♥
Self-socking masturbation!♥
I will become a first class masochistic sow who can come from getting punched in the stomach while still being a virgin!♥
Please wait for me, my dear yet-unseen Master!♥
