Yandere traps? Can I hope? Probably not, as I doubt this'll be getting a sequel. Well, I guess Fumio from Josou Sanmyaku was technically yandere, but not the way I would've liked. Also, despite it being really cliché, I'm about 10 seconds away from taking that cropped porn face as my Steam avatar.

Are you serious? C'mon Siro...

Anyway, the only "note" (if you can even call it that) for the TL I had was that the little brother uses the kanji for female virginity while the protag uses male virginity. I don't know why I found that important, but I did. The little details, man!

The editing was easy, and I might just do another one of these immediately. They're that quick and easy; also fucking cute. Until next time!

HAPPY FAPPING!
