-JUST FAP-

Okay, last of the three awesome trap books I found on ex. I'd say I saved the best for last, but that catboy was my favorite. This one was really good, though. Especially the last page.

As for translation notes, there's nothing really to say. It was all really easy and simple. The editing even more so.

The next one I'm going to be working on is probably going to be a Chinzuriina chapter from Otokonoko Heaven Vol. 11. After that, I may actually start on another Yuunagi one that was recently released. You know which one I'm talking about. I may actually end up doing that one first, it depends on how ambitious I'm feeling. Get your hopes sky high. Have a nice fap until next time...IF YOU CAN. HAHAAHAHAHA!

HAPPY FAPPING!
