Like you didn't see that quote coming. I can't believe some of the quality stuff that's years old that's never been translated yet. That's about to change, starting with some sort of shape-shifting trap spirit. Okay, that last page was pretty damn cute.

The translation for this was more of a pain in the ass than I'd have originally thought. Almost all of it was in kana, which is a pain in the ass and slows down the reading, and there were a few parts that had really rare words (in kana) that I had to think for like a full minute to remember. I'm pretty sure most of it's accurate, though. At the very least, the story wouldn't change. Also, in case the second page was confusing, the trap is a creature that bends light to change forms. The anthology this is from is all about monsters (sometimes the monsters are the traps).

The editing, on the other hand, was really easy. And there weren't fucking hearts all over the place this time.

The next one I'm doing might be a kitsune (fox) trap one from the same book. There's also an elf one that looked really good too, though, so we'll see on that. Until next time.

HAPPY FAPPING!
