*An Illustrated Guide to Young
People's Jobs in the Heisei Period*

The Appeal of the Futanari Business P-Talent

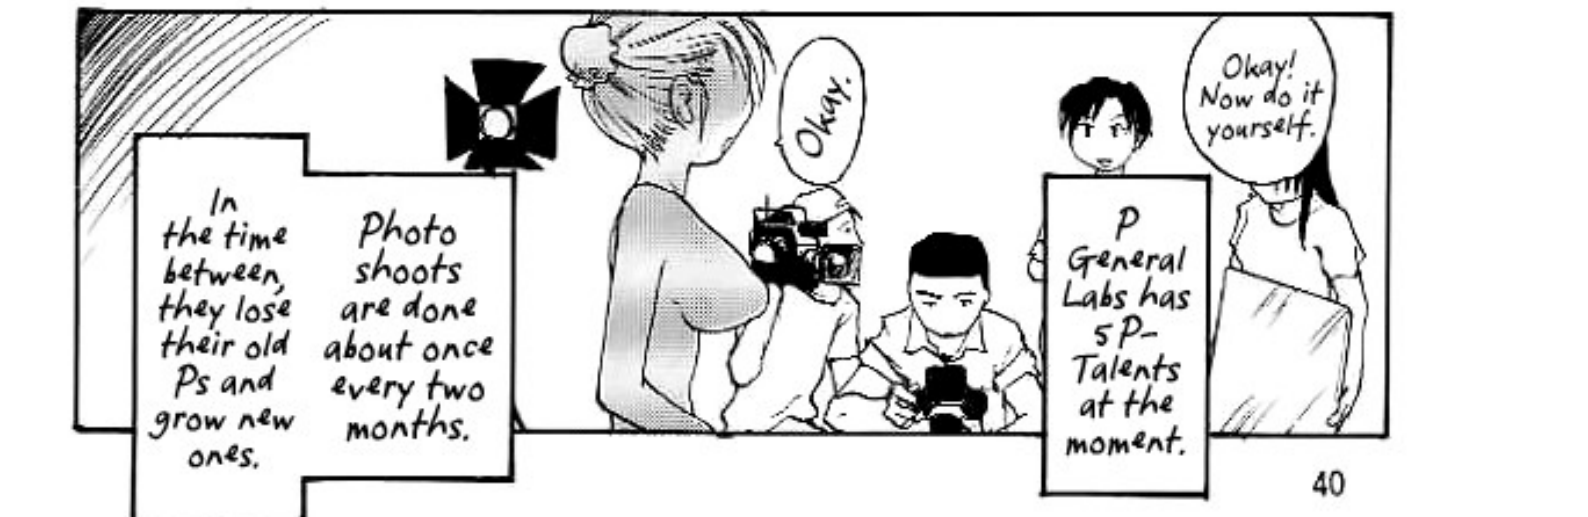

It's a job
where you
appear in P
General Labs'
brochures or
in promotion
videos and
promote new
P products.

The job we
introduce to
you today
is "P-
Talent".
That's what
P modeling
is called.

She started
this job as a
part-timer
while in uni-
versity, and
now she's
making a
living doing
it.

This is 23-
year-old
Niidou
Mizuki-
san's
third year
on the
job.

In
the time
between,
they lose
their old
Ps and
grow new
ones.

Photo
shoots
are done
about once
every two
months.

Okay.

P
General
Labs has
5 P-
Talents
at the
moment.

Okay!
Now do it
yourself.

Beautiful female genitalia and proportions should go without saying.

as well as a tough body and mind that allows you to ejaculate at any moment.

The P-Talent job requires the courage to ejaculate in front of a large number of people...

mpt

mf

at first, she failed time and time again. She's now an object of admiration for girls who want to have a P, however...

no matter how long she rubbed it or where it wouldn't properly fly, but dribble down.

She had times where she couldn't ejaculate ...

Life of a P-Talent

A P-Talent, a young woman with long hair, stands next to a large, muscular man. She is wearing a ruffled top and a short skirt. The man is wearing a tank top and shorts. A speech bubble from the man explains why she doesn't wear pants.

She doesn't wear panties that could hold down her P either.

For a P-Talent, their P is their life, so Niidou-san doesn't wear pants that could leave marks on it. Only skirts.

A P-Talent is shown eating a meal. She is wearing a ruffled top and a short skirt. A speech bubble explains that she eats meals rich in protein and takes lots of zinc and vitamins. Another speech bubble explains that she goes through stamina training every day to keep her P in shape. A small illustration shows a P-Talent lying face down, which is strictly prohibited.

She eats meals rich in protein and takes lots of zinc and vitamins.

Lying face down is also strictly prohibited.

She goes through stamina training every day to keep her P in shape.

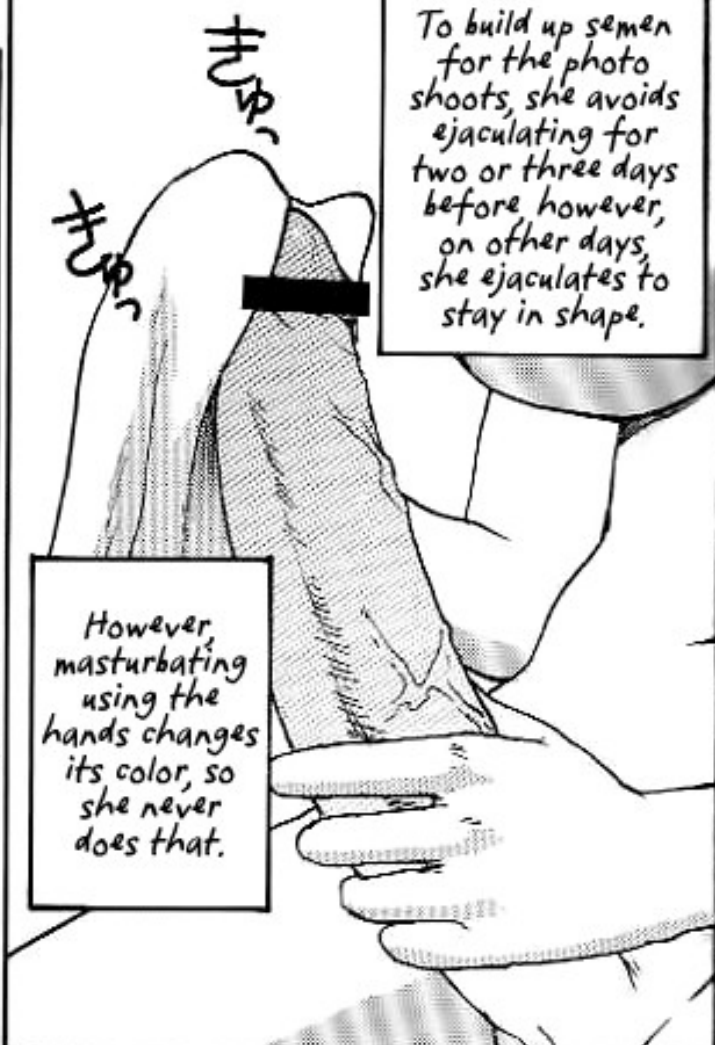

She sits up straight. Sinks into her own thoughts for a few minutes...

How does she do it then? Niidou-san will show us right now.

To build up semen for the photo shoots, she avoids ejaculating for two or three days before however, on other days, she ejaculates to stay in shape.

However, masturbating using the hands changes its color, so she never does that.

And she cums without even a little bit of stimulation with her imagination alone.

And on top of that, it's good practice in concentration.

Niidou-san says it gives even more pleasure than just hand stimulation...

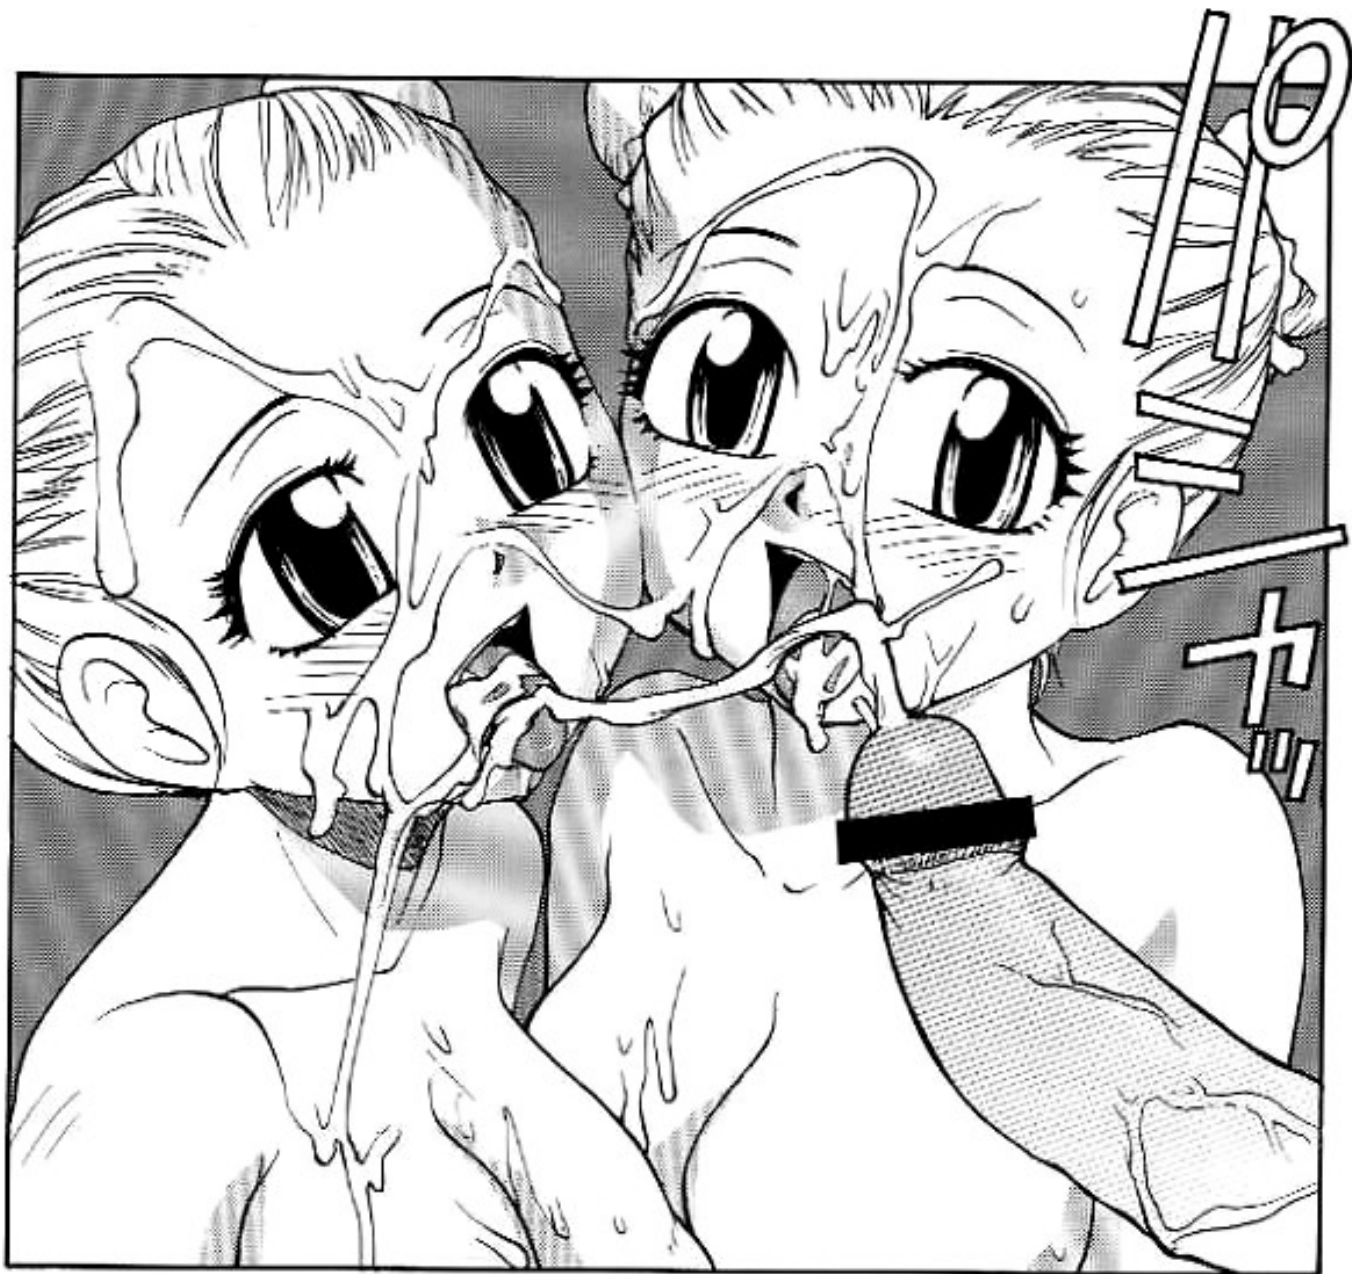

During that time, Niidou-san keeps her p erect and ejaculates as per her instructions.

One photo shoot takes roughly two days.

Well then, the shoot has reached its climax already.

- Test for a position in the company - Nothing special.
A lot of people start as P-Commentators.
- Qualifications - No special qualifications needed.
- What's Needed - Courage, concentration, self-discipline,
a body able to withstand genetic surgeries being
done once every two months.

Boys can't become them.

If you don't have a P, it's out of the question. For people without it, contacting P General Labs is the first step.
