Yes, I first thought she had fled over the border, but... that doesn't seem to be the case.

Where's Ruu? I heard that she left the truck near the border and disappeared.

「Xipe Totec」

Dexter Sinister

She was never known for being clever, and yet, now she's gone without a trace... That reminds me, I've heard some strange rumors about that area...

Rumors... you say?

nh...

I was transporting the cargo, and then...!?

...Wha? What happened...?

Yeah... about a guy with a few screws loose...

What!? Who is this guy!? Why...

Hee!!

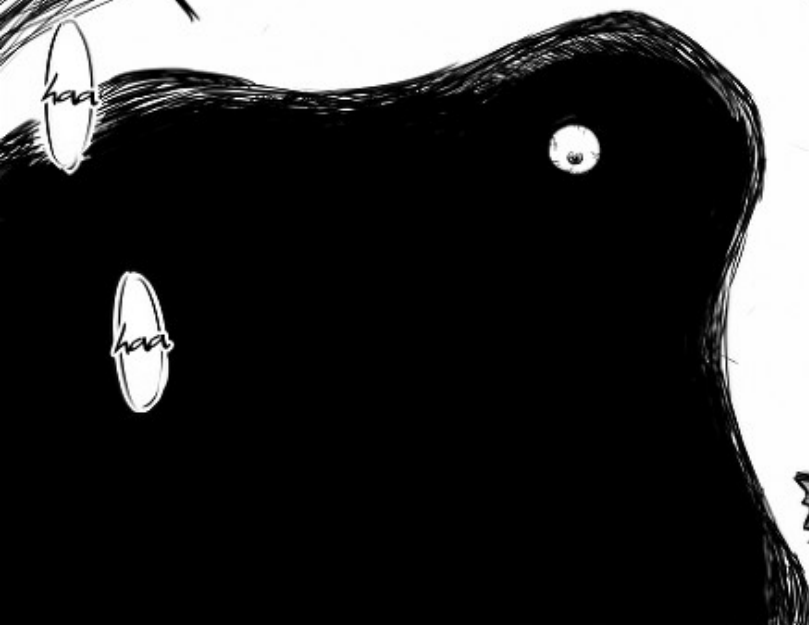

Why is he flaying people's skin... and wearing it...!?

So, what if
Ruu were to
be captured
by that
guy...?

Yeah. They
say that
he worships
Xipe Totec,
the God of
rebirth. He flays
the skin of his
victims as
a sacrifice to
his God.

Wearing
the flayed
skin of his
victims... A
serial killer?

That
goes
without
saying...

He'll treat
her like his
plaything,
until she
breaks.

Haha... I hope he makes her pregnant, though. Her baby could sell for a fortune.

Break, huh... Her 'medical bill' will increase yet again, then.

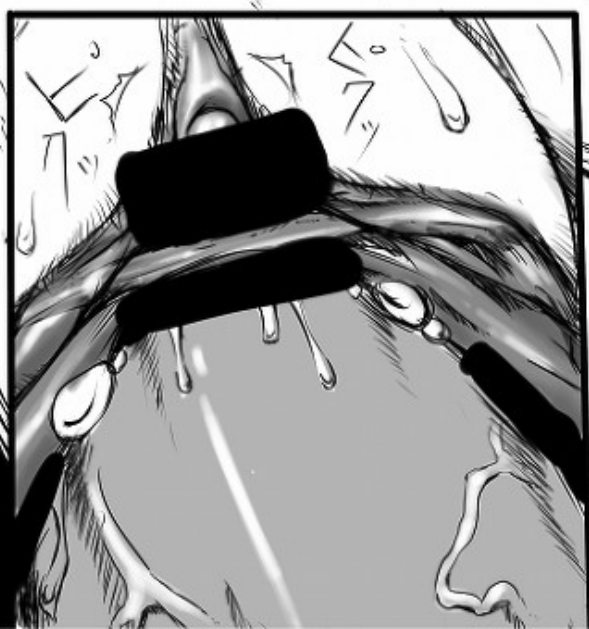

No...
you
can't!

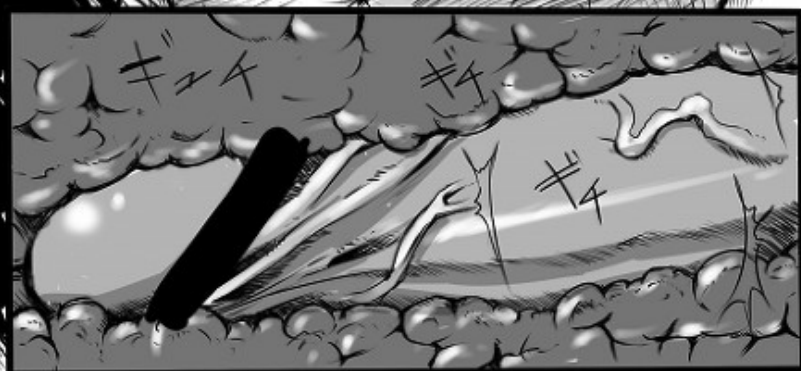

Stop...
Stoop!!

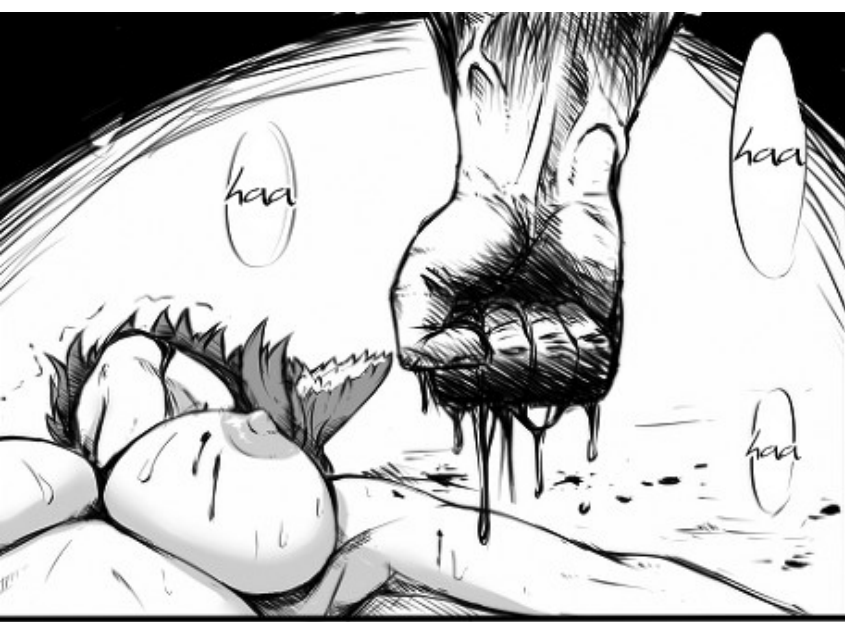

Ah....!

Noo...!

...Good. She will keep working for us for as long as we need. No matter how many times she breaks... we'll restore her...

I've given her the usual 'treatment.' I believe she'll make a steady recovery.

Just as I thought. That'll take some time...

We've found Ruu, sir. All of her skin has been flayed. She's... barely alive. Probably not for long...
