

But as it stands, it hurts just from having your shirt rub up against your chest, right?

Ow...!

That smarts!

happens to everyone, you see?

This particular condition...

It's not a disease, so you can put your worries to rest.

Well!  
Just leave it to Onii-chan, he'll fix you right up, but...!

He's no doctor, though, so keep it a secret, or he'll go to jail!

Ow Ow Ow...

おれ、おれ、おれ...

Umm...

Please do it!

I am so lying through my teeth right now...

What do you say?

There you go, if you can keep it a secret, I have no qualms about healing you...

Wow, so pretty~!

This pain is a signal that your body has started undergoing changes.

Stimulating the body urges the secretion of growth hormones...

And if your body grows quickly so too will the pain be healed quickly!  
(Big fat lie)

Is that... so?

I don't really get it, though...

We stimulate this place!!

Hya!

Using this special medicine...  
(Lol, it's just regular lotion!)

In addition to that...

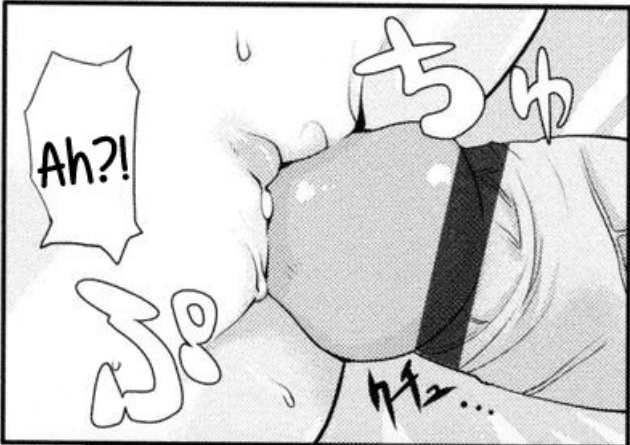

Actually, what the hell are you even doing?!

Is that a pe... penis...?

Ah?!

Don't sweat it!!

I'll just go in and out, she won't even notice!!

You didn't do any of that when I was sick!!

〇ろろ!!♡

Hyaaah!!
