ALL WE REALLY  
DID?

THAT'S A

SECRET!

Holy shit, that was amazing. First time in a while I've actually had to stop because I got so "into" the damn thing. I'm really liking Kunami's art. According to his Pixiv, he just got a new tablet and monitor, so hopefully that means another trap doujin out soon. Well, relatively soon, considering he just put this one out back in November. For those wondering, the above image is just something from his pixiv.

Anyway, as for TL notes, I did make the sentence where Akina had cum in his mouth jumbled on purpose, as the original had it like that too. And he actually put furigana to show what he was saying, which is really fucking nice. I also translated Akina as a "girl" on the last page on purpose too. The kanji was 娘 (ko), which is the "ko" in "Otokonoko" that's used by traps, though he just used the "ko" part there. It's also used stand-alone as "young girl" (musume), but the "ko" it's pronounced as can also be 子 (ko), which can be a stand-alone for "child" or "young girl" as well. It's a bit of wordplay, and I doubt anyone cares very much, but I just wanted to say it wasn't a mistake.

Next I'll probably be doing an anthology. Which one? You're just gonna have to wait and see. Until next time.
