Did that sound sufficiently gansta? I hate rap and the like, so that's about as good as it gets. I mean, look at the guy's face! He looks like he's about to slap MC's shit if he doesn't grow some balls.

The editing for this was a pain in the ass. Who thought it was a good idea to put sounds in the damn text bubbles? Seriously? We get it, humans have to breath. That's enough. Next thing you know, some artist is gonna start filling entire bubbles with hearts or something (\*AHEM\*). The TL was easy. No real notes there.

I was actually considering starting an anthology that I've put off for way too long after this, but then I saw someone uploaded a new Kunami work. And how can I say no to that? After that, barring any amazing uploads (Nagi), I'll be starting an anthology. I haven't decided if I'm gonna upload each chapter as I finish it, or if I'll just wait and upload them all at once. Until next time.
