Guy should've just taken my default route of assuming everyone that wears a manbag like that is a cross-dressing pervert. Then he could've asked his friend out without fear! Anyway, the art and story in this one were pretty nice. I wish it'd been longer, but what can you do?

Sorry for the small font, but blame the raws, not me.

As for what I'm gonna TL next, I've actually got some lined-up for the first time in a while, but it might take me a while to get to them if I get busy soon (probably). Either way, one of them is a Sakai Ringo one, so look forward to that. Until then.
