Are you okay?
This was that
thing's territory
you know.

That was
too close!

And on top of that,
trying to get through
this forest without
a weapon is suicide!

はっ
Hold on.
Those...

I was on
my way to
be sold.

They're not
bracelets,
are they?

While we were
passing through
this forest, we
were attacked by
that monster. I
saw an opening
and made a
run for it.

My tribe has
a rare body
type, so we
fetch a high
price... or
so I was
told...

I was
cap-
tured.

It does feel good...

You're right!

Take this!

Kyaa!

Oh shi--

D'aww.

Iris Caldor presents a rare gem from 1989. The raw was provided by exhentai user Death Grunty. I found this while sorting out my downloads folder, and had no idea where I got it, so big thanks to pop9 for letting me know what the source was. This was a lot of fun, and a good way to get back into translating - cute and easy. The black was faded, so I darkened it to true black, which got rid of some of the JPEG artifacts, but even better, it made some of the shading visible.

As always, DO NOT put this on a paysite, as this work is done free. and DO NOT put it behind click-through advertisements like Adfly. Also, if distributing via .RAR, DO NOT encrypt the rar with a password - that will make you a gigantic douchebag.
