

NOW IF I CAN GET EVERYTHING INTO THE PICTURE...

AL-RIGHT ...

IT SEEMS LIKE THIS ONE IS STILL ONLINE.

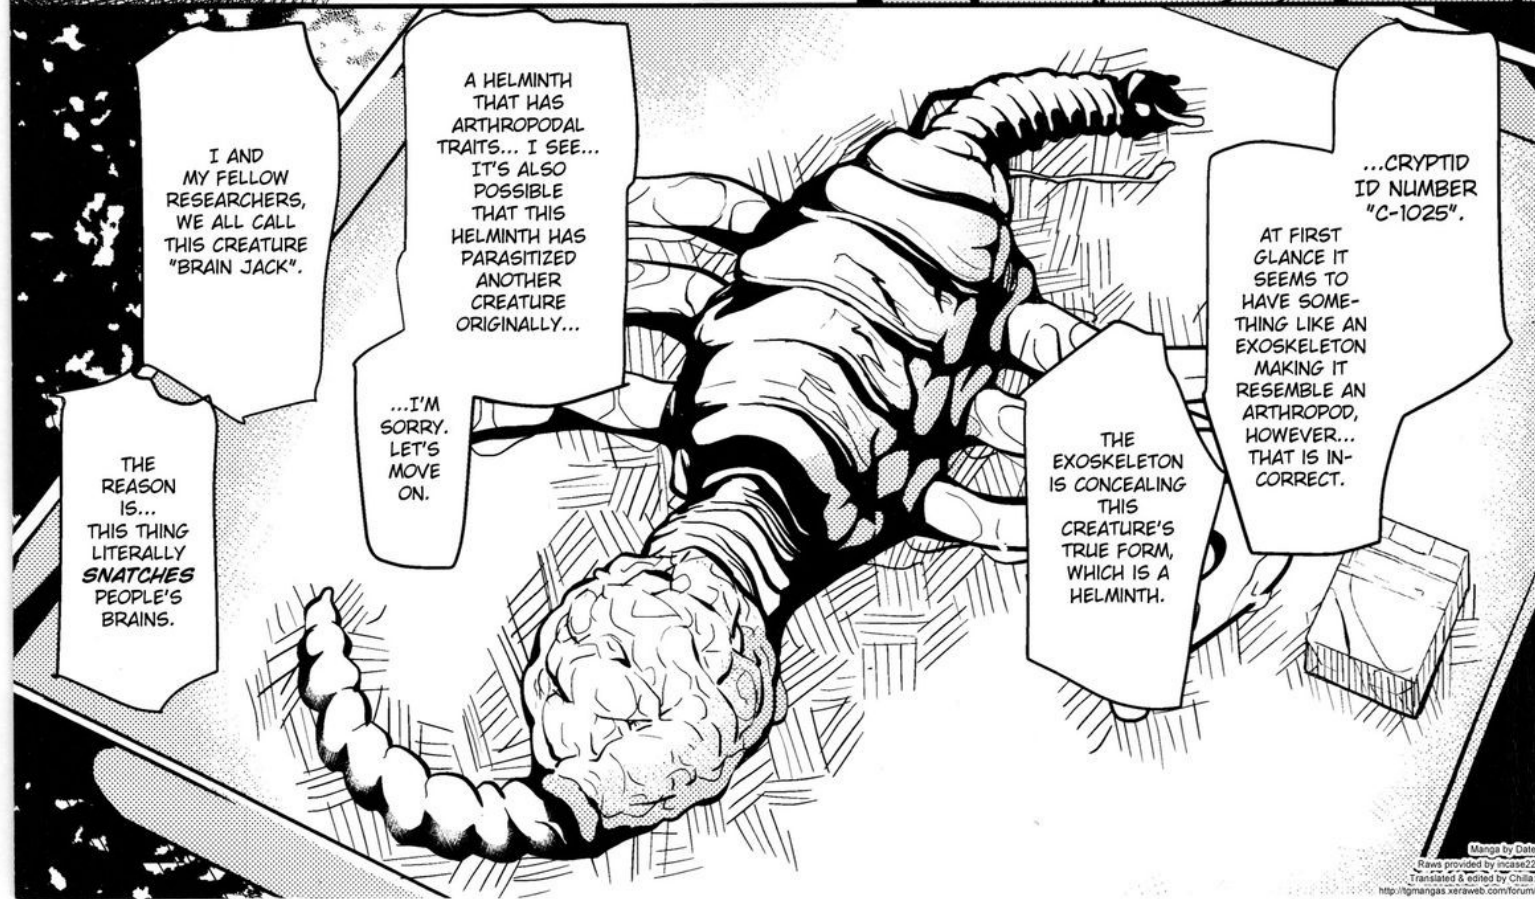

IF ANYONE WATCHES THIS, I'D LIKE TO SPREAD THIS INFORMATION TO AS MANY PEOPLE AS POSSIBLE.

THIS FACILITY HAS BEEN MOSTLY... NO, NEVER MIND...

I AM THE HEAD RESEARCHER OF THE CRYPTID COUNTER-MEASURE CENTER, KUSAKABE HADZUKI.

未確認主任  
No. 4878

I AND MY FELLOW RESEARCHERS, WE ALL CALL THIS CREATURE "BRAIN JACK".

A HELMINTH THAT HAS ARTHROPODAL TRAITS... I SEE... IT'S ALSO POSSIBLE THAT THIS HELMINTH HAS PARASITIZED ANOTHER CREATURE ORIGINALLY...

...I'M SORRY. LET'S MOVE ON.

THE REASON IS... THIS THING LITERALLY SNATCHES PEOPLE'S BRAINS.

...CRYPTID ID NUMBER "C-1025".

AT FIRST GLANCE IT SEEMS TO HAVE SOMETHING LIKE AN EXOSKELETON MAKING IT RESEMBLE AN ARTHROPOD, HOWEVER... THAT IS INCORRECT.

THE EXOSKELETON IS CONCEALING THIS CREATURE'S TRUE FORM, WHICH IS A HELMINTH.

AFTER THAT THIS CREATURE WILL COMPLETELY SLIP OUT OF ITS SHELL AND START TO PARASITIZE ITS VICTIM.

FIRST IT USES ITS LEGS TO RESTRAIN ITS VICTIM. THEN IT USES ITS TENTACLES TO INVADE THE BRAIN THROUGH THE EARS OR NOSE.

Ah...!

AND WHAT'S MOST STARTLING IS THAT THIS CREATURE WILL EAT THE BRAIN OF THAT PERSON, ABSORB THEIR KNOWLEDGE AND THEN PERFECTLY IMPERSONATE THEM. NOT EVEN THEIR PARENTS WOULD NOTICE.

THE TENTACLES STIMULATE THE AMYGDALA IN THE LIMBIC SYSTEM, IN ORDER TO CREATE AN ABNORMAL RUSH OF DOPAMINE. THE VICTIM WILL FEEL AN INTENSE SEXUAL PLEASURE AND AT THE SAME TIME DEVELOP A FEELING THAT RESEMBLES LOVE TOWARDS THIS CREATURE.

THERE IS ONLY ONE WAY TO FIND HUMANS WHO HAVE BEEN INVADED BY THESE THINGS AND THAT IS.....

SAVING THE VICTIM AFTER THEIR BRAIN HAS BEEN EATEN IS IMPOSSIBLE...

Ahn!

Aaah!

AGU-AH!

IGIH!

AH...NGH! STO-...!

THUMP

CLATTER

H-HOW DID THIS THING GET IN HERE!?

CLATTER

2012. 11. 12  
THIS WHOLE VIDEO IS JUST A PRANK OF COURSE. I WASN'T ACTUALLY BEING SERIOUS...

.....DID I SCARE YOU?
