the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion.

As the world's population grows, the demand for food and other resources will increase. This will put pressure on the environment and on the world's food supply. It is important that we find ways to meet this demand without harming the environment or the world's food supply.

One way to meet this demand is to increase the efficiency of our food production. This can be done by using better farming techniques, such as crop rotation and the use of fertilizers. It can also be done by using better irrigation techniques, such as drip irrigation.

Another way to meet this demand is to reduce the amount of food that is wasted. This can be done by using food more efficiently, such as by using leftovers and by composting food waste. It can also be done by reducing the amount of food that is produced in the first place.

Finally, we can meet this demand by finding new sources of food. This can be done by using alternative sources of food, such as insects and algae. It can also be done by using new technologies, such as vertical farming and hydroponics.

There are many ways to meet the world's growing demand for food and other resources. It is important that we find ways to do this without harming the environment or the world's food supply. This will ensure that we have enough food and other resources for everyone in the world.

## ★ Story Details – General Information

### ● **Miu FEVER!** (COMIC OEX vol.19 June/2009 + color paged original story)

*In every book I have a favorite story, this one is the favorite. Not only did I focus the cover of the book around it but I also drew in a new preliminary color story. Such lovely siblings, I had a lot of fun drawing them. Particularly the tsundere little sister who denies her own feelings.*

### ● **Self-Reflect Rio-chan** (COMIC OEX vol.17 April/2009)

*This one is another favorite of mine. I just love endurance play. I put in a lot of personal consideration here. After much thought I decided to add In glasses as well, though they somehow ended up being on the boy!*

### ● **UNSPOIL! SCHOOL SWIMWEAR** (COMIC OEX vol.5 April/2008 and vol.7 June/2008)

*This one ended up being 2 parts. As expected school swimsuits are really nice. I even thought to add in large breasts to emphasize the school swimsuit, (creating an Oppai-Loli). While I do like Hitsuki, I also like the the tall Aoi-san with her Sailor-Uniform + School Swimsuit combo.*

### ● **Bookmark of Growth** (Comic OEX vol.13 December/2008)

*When I think about it, a story using 2 boys at the same time is unusual for me. Back when I was a student, for some odd reason I always got excellent scores on my health tests. Though, since these comics depict such false and unrealistic sexual acts that's probably hard to believe. (lol)*

### ● **Colorful Iroha** (Comic OEX vol.9 August/2008)

*For the OEX Comic, I drew this one with color. As usual I sucked at coloring. (So this one took a while). I have a good memory of this one because of all of the trouble I went through. I blame the little sister for infecting me, an infection I fear will infect people nation-wide...*

### ● **Ona-hole Cupid** (Comic OEX vol.11 October/2008)

*Just a school-kids giving presents to each other kind of story... Incidentally though, these kinds of stories have recently been popular. Despite drawing ona-hole play, I did include female sex as well. I thought it a good idea to make the girl jealous of the ona-hole despite being the one to encourage its use!*

● **Jiggly Invitation** (Comic OEX vol.15 Febuary/2009)

*One personal familiar occurrence - (suddenly without warning wanting to draw an Oppai-loli). But scenarios involving oppai-lolis don't come easily to me... so the pattern I used is a fresh yet pretty standard one.*

● **Ririna's Training Diary** (Comic OEX vol.1 December/2007)

*This is an old one, from when the comic first started. Since this was Comic OEX's first issue, I put in extra good work! I probably went through this 100-million times. (...Though the end-result never changed.)*

● **Natsu Full-Bloom** (Comic OEX vol.3 Febuary/2008)

*This child was meant to be a tsundere little sister. Despite that she developed into more of a mischievous little sister. Incidentally I finally got to use the single-bandage fetish, though I think it was a mistake to peel it off so soon. (lol)*

● **Bashful Rabbit** (Comic OEX vol.21 August/2009)

*My latest story! This was created because I wanted something with Rabbit-Ears. I have no regrets! Plus I love silent-type characters. But still I worry. Does this one seems out of place?*

○ **Additional Chart Of Age Comparisons** ○

*After Ririna, each lower level of the chart indicates 1 year younger.  
Decide the actual ages by your own preference!*
