★ Story Details – General Information

● **Miu FEVER!** (COMIC OEX vol.19 June/2009 + color paged original story)

In every book I have a favorite story, this one is the favorite. Not only did I focus the cover of the book around it but I also drew in a new preliminary color story. Such lovely siblings. I had a lot of fun drawing them. Particularly the tsundere little sister who denies her own feelings.

● **Self-Reflect Rio-chan** (COMIC OEX vol.17 April/2009)

This one is another favorite of mine. I just love endurance play. I put in a lot of personal consideration here. After much thought I decided to add In glasses as well, though they somehow ended up being on the boy!

● **UNSPOIL! SCHOOL SWIMWEAR** (COMIC OEX vol.5 April/2008 and vol.7 June/2008)

This one ended up being 2 parts. As expected school swimsuits are really nice. I even thought to add in large breasts to emphasize the school swimsuit. (creating an Oppai-Loli). While I do like Hitsuki. I also like the the tall Aoi-san with her Sailor-Uniform + School Swimsuit combo.

● **Bookmark of Growth** (Comic OEX vol.13 December/2008)

When I think about it, a story using 2 boys at the same time is unusual for me. Back when I was a student, for some odd reason I always got excellent scores on my health tests. Though, since these comics depict such false and unrealistic sexual acts that's probably hard to believe. (lol)

● **Colorful Iroha** (Comic OEX vol.9 August/2008)

For the OEX Comic, I drew this one with color. As usual I sucked at coloring. (So this one took a while). I have a good memory of this one because of all of the trouble I went through. I blame the little sister for infecting me, an infection I fear will infect people nation-wide...

● **Ona-hole Cupid** (Comic OEX vol.11 October/2008)

Just a school-kids giving presents to each other kind of story... Incidentally though, these kinds of stories have recently been popular. Despite drawing ona-hole play, I did include female sex as well. I thought it a good idea to make the girl jealous of the ona-hole despite being the one to encourage its use!

● **Jiggly Invitation** (Comic OEX vol.15 Febuary/2009)

One personal familiar occurrence - (suddenly without warning wanting to draw an Oppai-loli). But scenarios involving oppai-lolis don't come easily to me... so the pattern I used is a fresh yet pretty standard one.

● **Ririna's Training Diary** (Comic OEX vol.1 December/2007)

This is an old one, from when the comic first started. Since this was Comic OEX's first issue, I put in extra good work! I probably went through this 100-million times. (...Though the end-result never changed.)

● **Natsu Full-Bloom** (Comic OEX vol.3 Febuary/2008)

This child was meant to be a tsundere little sister. Despite that she developed into more of a mischievous little sister. Incidentally I finally got to use the single-bandage fetish, though I think it was a mistake to peel it off so soon. (lol)

● **Bashful Rabbit** (Comic OEX vol.21 August/2009)

My latest story! This was created because I wanted something with Rabbit-Ears. I have no regrets! Plus I love silent-type characters. But still I worry. Perhaps this one seems out of place?
