"CUSTOM
LOVE CAT"
EXPLANATION

It's a popular product of the "Custom" series of real love dolls, and is made of artificial human beings created primarily for the purpose of having mock intercourse with their masters.

The special characteristics of the "Love Cats" - their young outward appearance, and their cat-like ears and tail - are their eye-grabbers.

Just like their predecessors in the "Custom" series, their personalities or body type and the like can be customized to one's liking.

I'm sure
it'd be fine

But if

out we
touched it
he'd be so
super
mad...

Aaah,
it looks
insanely

Make do
with just
looking at
it like this
while Souji
is asleep...

It was
hell going
without
breakfast

But...

Auh

You can't.
Did you forgot
about what
happened
before!?

Gently,

Goodbye, Papa

Welcome home, Papa

♥ IT'D BE SO NICE IF I COULD RELEASE A BOOK LIKE THIS AROUND WINTER-COMIKET TIME.

P-please give me back my uniform and bag... Sensei will find us, so...

U-uhm Please... please forgive me already...

Eeeh? We told you we'd give them back once we got to the classroom, lol. Keep it up for just one lap around the school, Pres. Lol.

You're free to call it quits, but then I'll spread all these photos I took to the rest of the class, lol.

There's a lot of guys that like you, Pres., so it's like we'd be doing volunteer work. We are like soo super kind. Lol.

AFTERWORD

Good evening, Dancyo here.

Thank you very much for reading this up until the end.

I sure want to have sex with tiny, cute, cat-eared girl with any air conditioning and fans turned off so we end up dripping in sweat.

I want to draw rape or something next~

And I love exposure and stuff like that too, so I also want to draw that~~
I'll be shoving my way into the Winter Comiket too, so if you catch sight of me again there then I'll be in your care.
