Afterword

To all the new readers who picked up this book: thank you very much.

To any returning readers, please abuse me verbally (only applies to women).

How did you like it? This time it's a moth girl book.

This time, I started with the sex scenes, emphasizing composition and positions I wanted to draw, so I think it's pretty clear that I didn't really feel like doing a story or introduction scene (I didn't). I've sorta figured out how to draw sex scenes, so I wanna keep at it and slowly improve the overall qual.. i...

There's no point reflecting on things like that, so for the moth girl in this book, I used a moth called himeyamamayu, *Caligula jonasii*, for inspiration.

(The book's title is also a wordplay on hime-yama-mayu [princess-mountain-cocoon]).

With that fluffiness and adorable appearance, it's cute even when it's not anthropomorphic.

I wanted to draw a moth girl for this, but drawing insect girls really is a lot of work!!

I intended to keep the design for this moth girl simple, but in the end, I lost track of how many times I felt like punching myself for coming up with a design with all these features.

Of course, I love insect girls, so I wanna draw more ero doujin with insect girls after this, but I think I need to come up with a design that's easier to draw.

I wanna do a reptile girl book too...

Blake81: And I hope he does! ^_^

... I did nothing but reflect in the end!! I just wanna fuck insect girls. The story comes second!!
