

After being hounded by my mother, I took three days of paid vacation and returned to my old home. I gazed upon the rows of sakura trees, reminded of the times I spent here as a kid with my friends, while pondering how to make it through her conversations about an arranged marriage.

This is my cousin, Chi-chan. She'll be going to the same school as Ayanon, so try to get along with her.

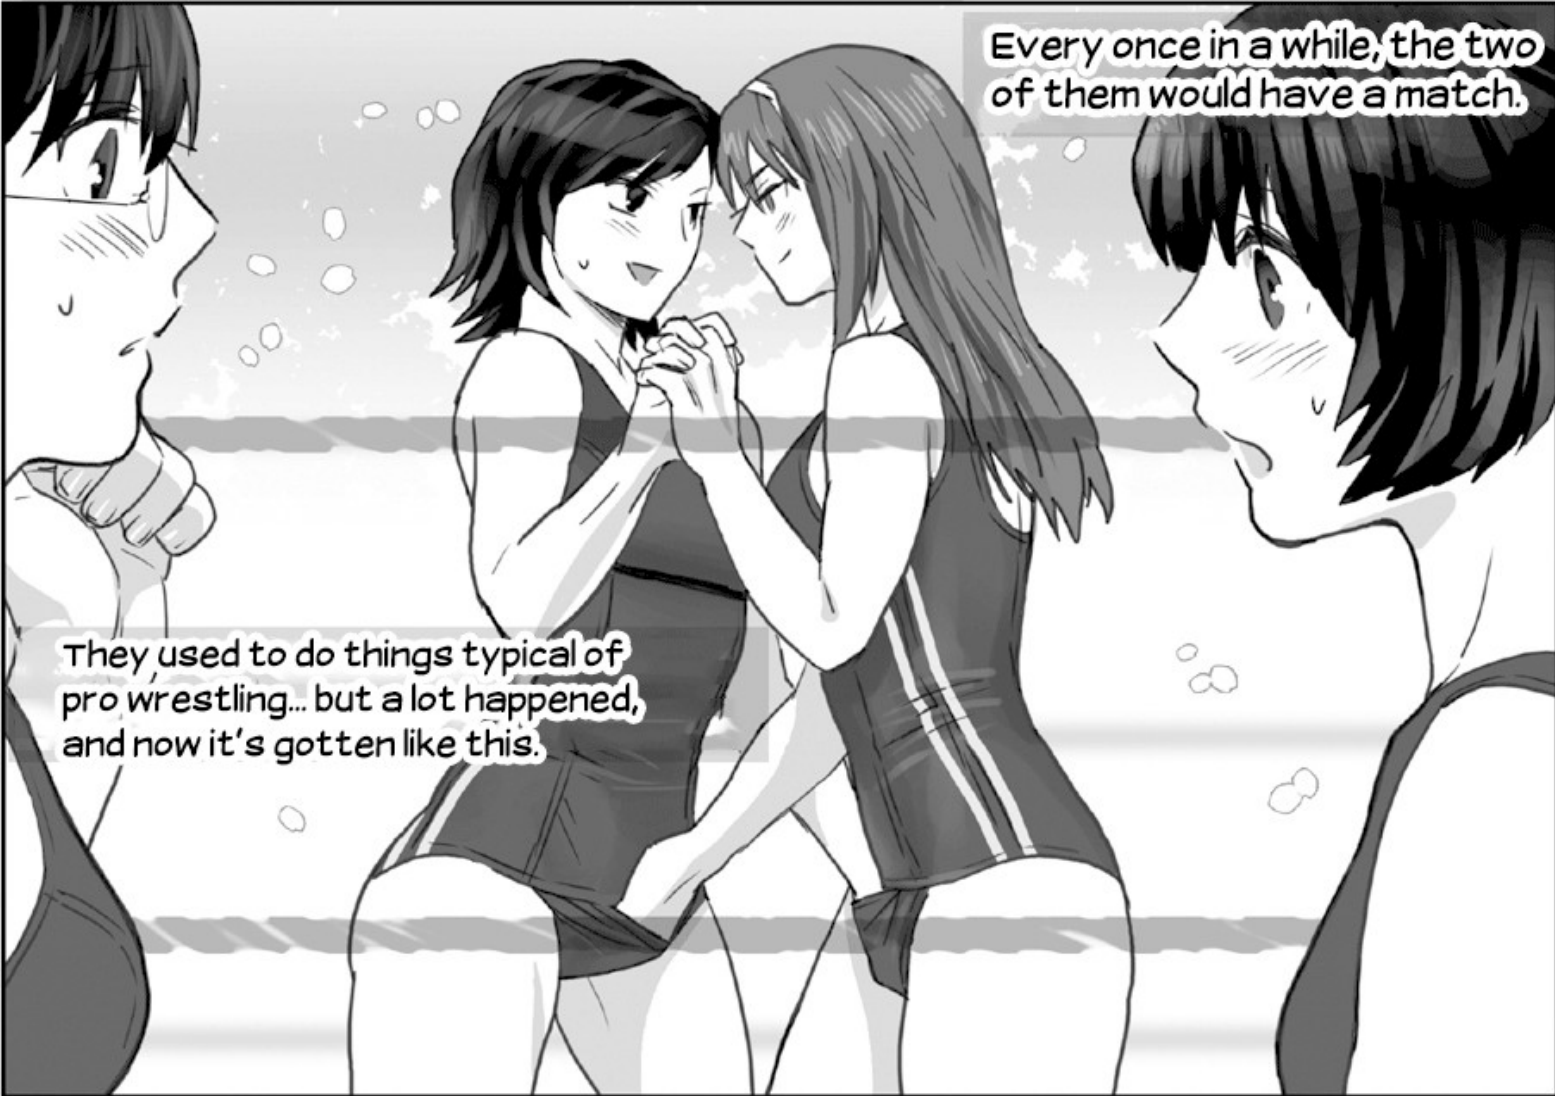

Ayanon lives in the neighborhood, and we've been good friends for quite some time.

Watch my match closely, okay?

The other girls were influenced by a female professional wrestling group that came to the city during the spring of the previous year. They used rope and logs they sto—... borrowed from local farmers. They set up a ring in a clearing on a hill out back. And then!

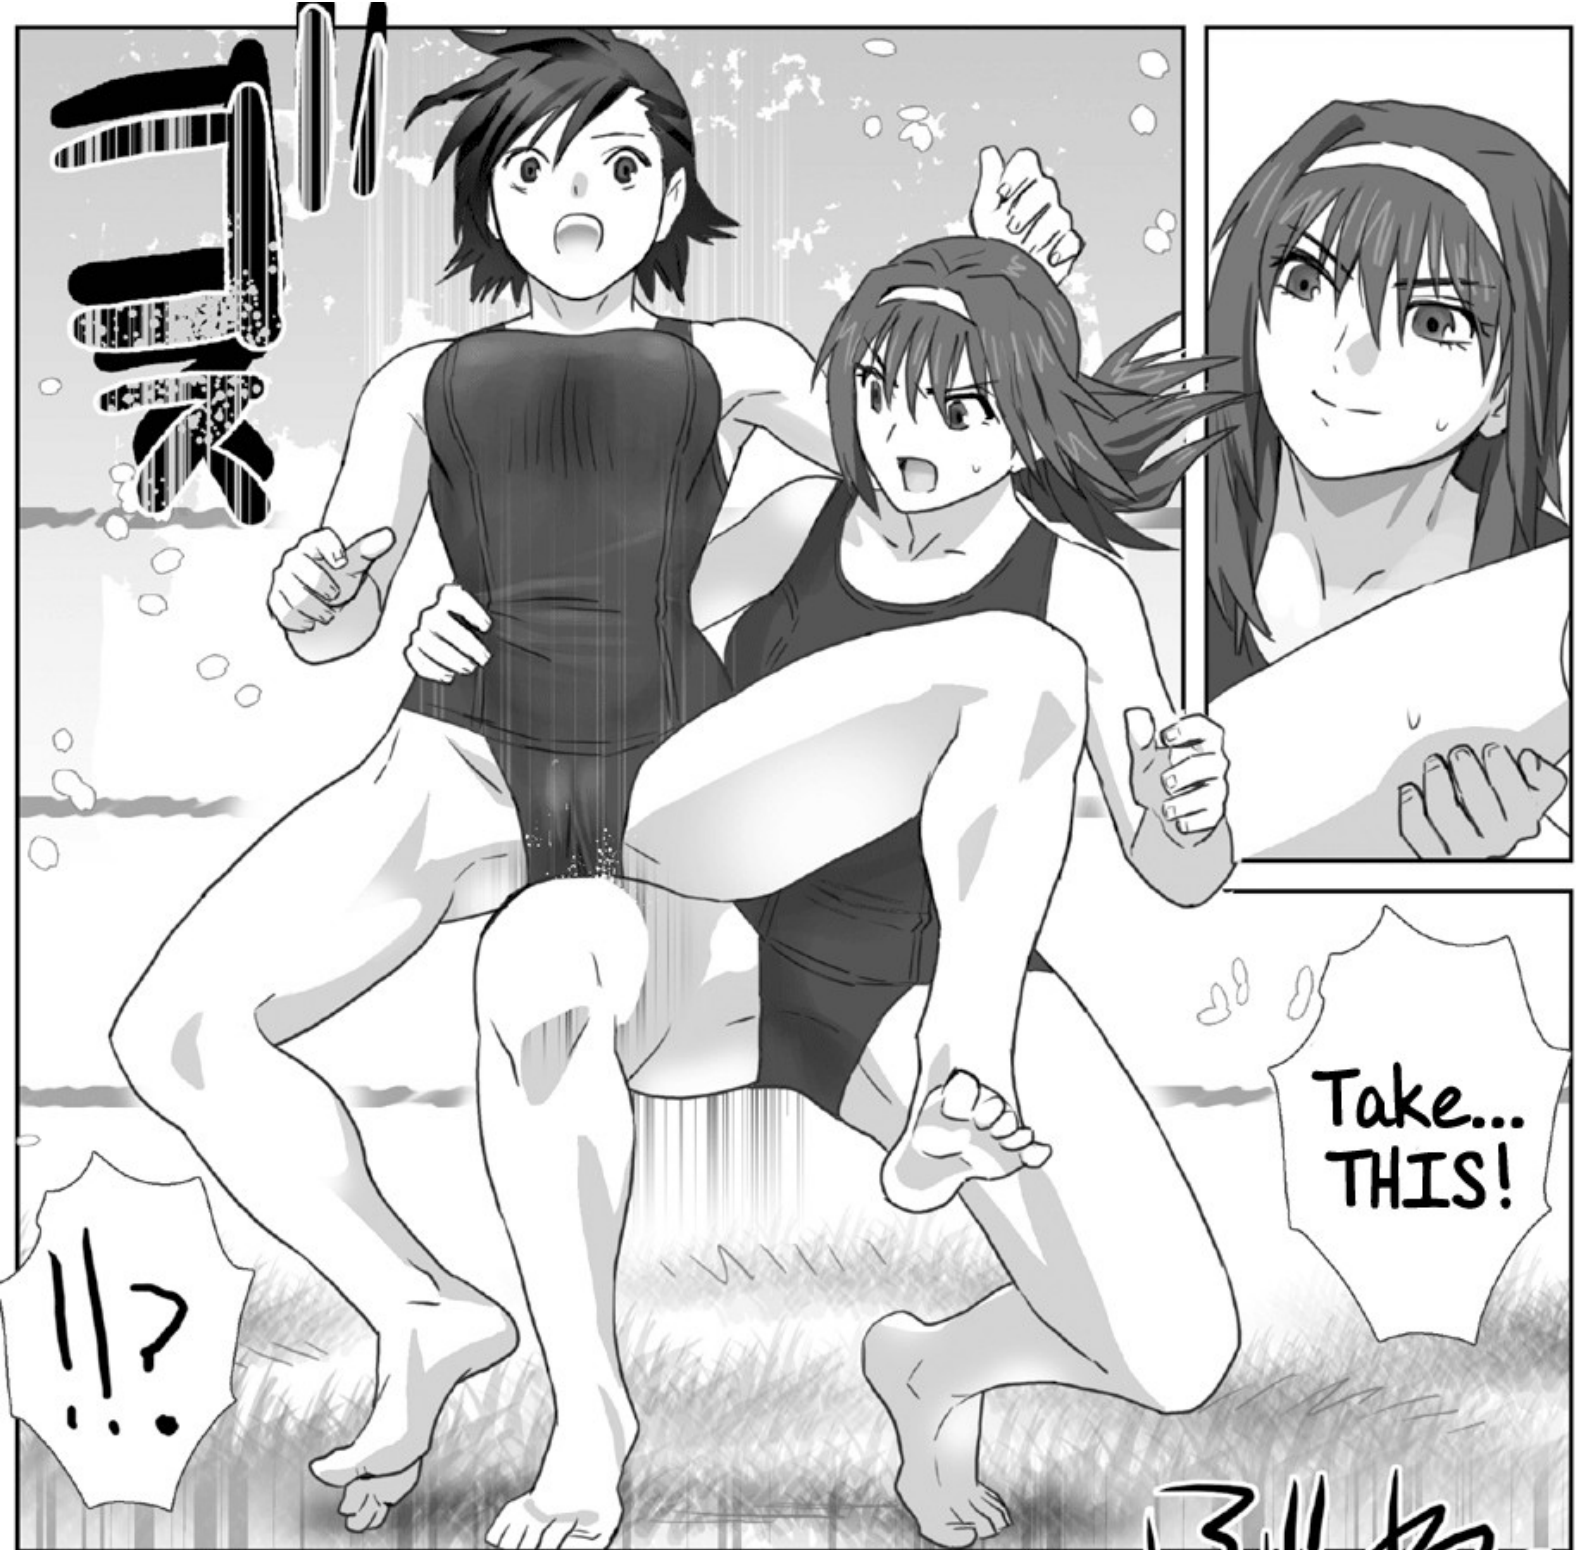

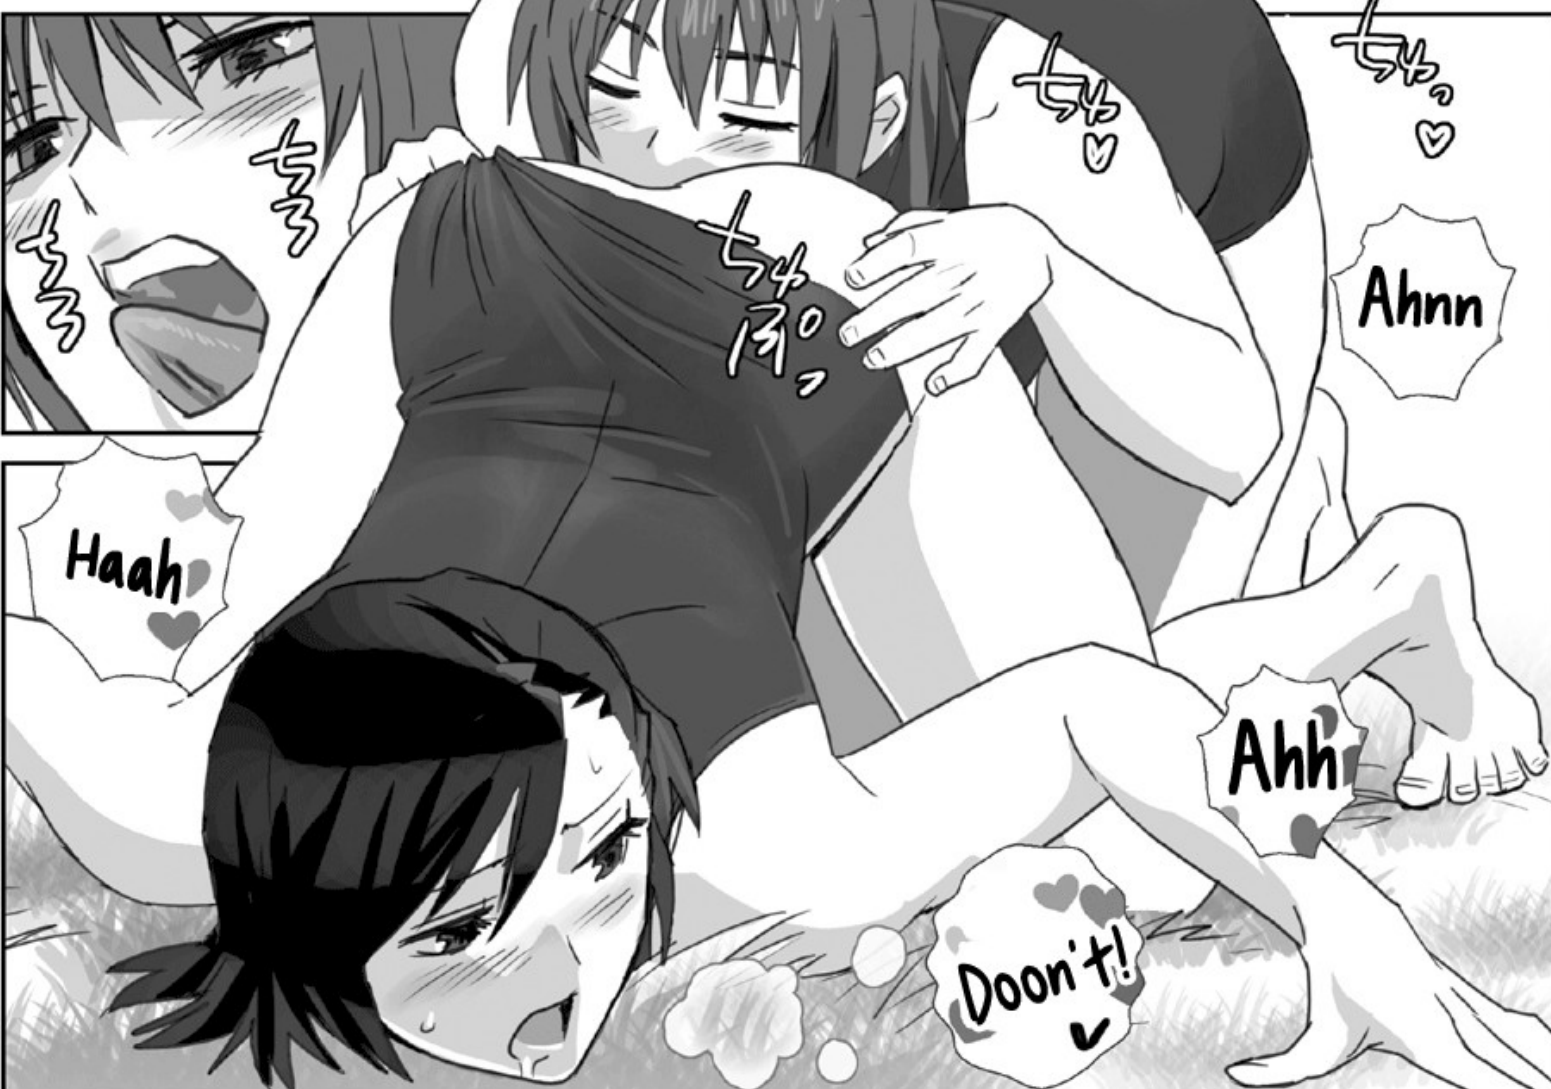

Every once in a while, the two of them would have a match.

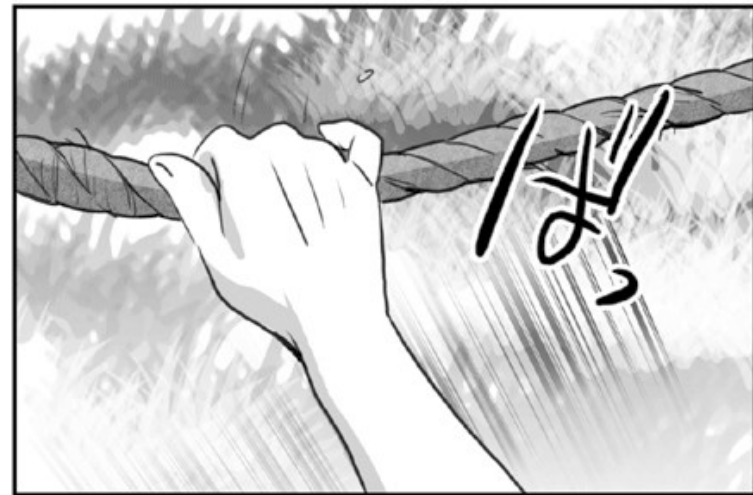

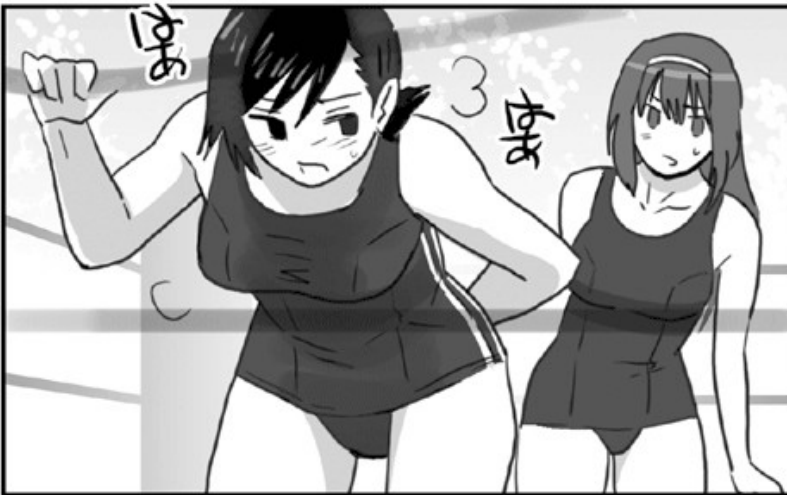

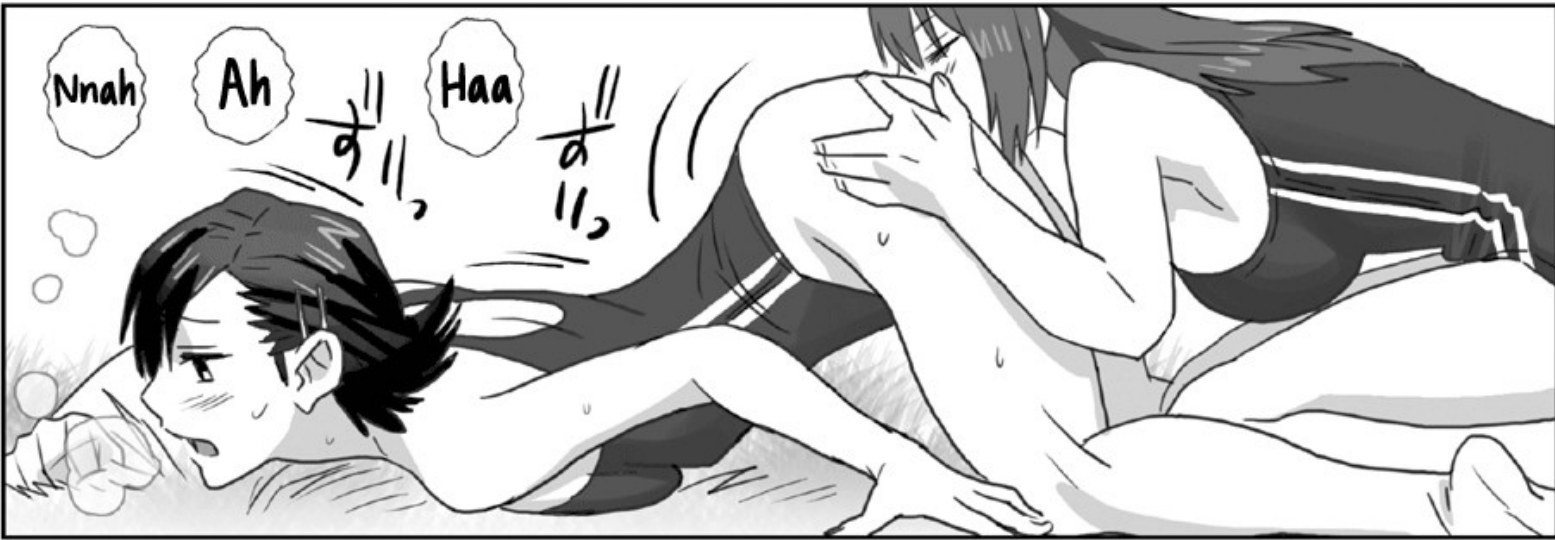

They used to do things typical of pro wrestling... but a lot happened, and now it's gotten like this.

And now my turn begins!
