

In a certain kingdom, there lives a girl whose tears turn into sapphires and whose genital secretions turn into diamonds.

Thanks to those jewels, the kingdom prospered.

Livi-sama, there has been a concerning shortage of jewels recently...

Gracious! These imperial affairs are such a pain in the neck. When I get to my room, there better be a glass of fruit juice ready for me and it better be cold.

of your excuses.

We understand... However... we grow tired...

Put a lid on it! I'm not having an easy time of it either, you know?

Fiend!!

Are you finally awake?

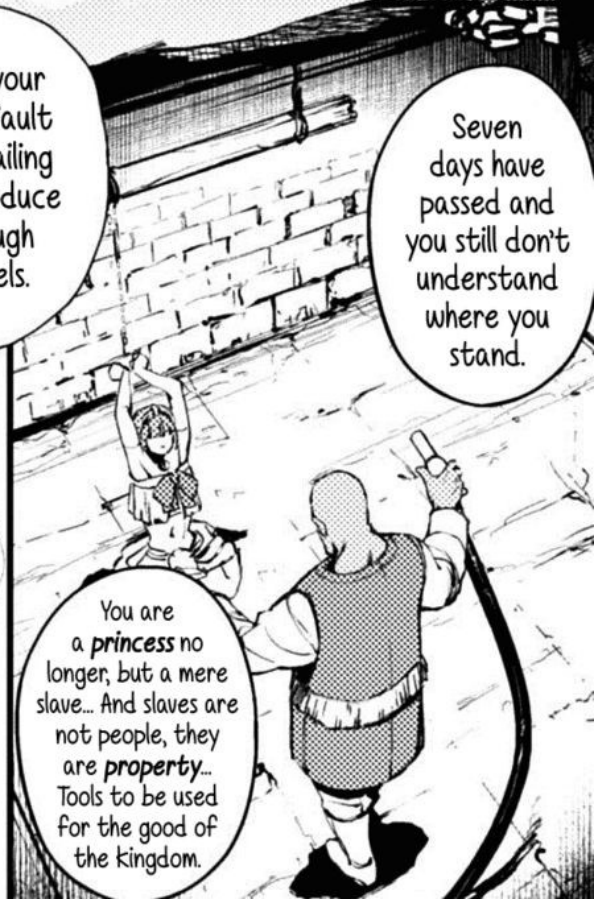

Of course, after a week even you are starting to stink a little, so today, the first order of business is...

Instead, every day... you spent your time revelling in the lap of luxury...

It's your own fault for failing to produce enough jewels.

Seven days have passed and you still don't understand where you stand.

You are a *princess* no longer, but a mere slave... And slaves are not people, they are *property*... Tools to be used for the good of the kingdom.

It's an aphrodisiac.

This drug was created to aid in that purpose.

I'm not sure if you know this, but in the olden days our kingdom used to export sex slaves.

Just the feeling of my clothes brushing against my skin is enough to...

If you touch me while I'm like this...

Whash going oon...?! My body feels so tingly...!

Shtop!

I'll get them out myself! Stop! Don't touch

With this, our kingdom will be secure.

We're going to make a tidy profit selling all of these!

Perhaps our new king had something to do with it...

I thought our kingdoms shared an alliance...

Damn...! The fire's spread over here too!

Hey! We need to get out of here!!

Precious stones... are worth as much to us now as pebbles...

Where did all these precious stones come from...?

They're nothing more than trash.
